

The cumulative impact on this area is becoming beyond belief, in the last few years we have had to deal with the construction of HS2, EAST WEST Railway the Ardley Incinerator and others, our roads are dirt tracks.

curr

ConstructionNarrow, rura

Another 2.5 years of construction for this project is just totally unacceptable

Health and Wellbeing

Public rights of way, foot

The safety of children, adults, dog walkers, riders and wildlife needs to be a top consideration not just vehicular but the noise levels too

Known fire risks and safety concerns, with emergency services not being in the immediate vicinity and continuous road closures in the area, this needs to be high on the agenda of it being in the wrong place (if it is needed at all).

Potential to destroy local habitats and wildlife that is abundant in the area.

Not being able to attend the meeting either in person or live online should not be interpreted as not being interested in this proposal.

Our local community should not be subject to scrutiny on a 'numbers' level - many are tenants of the Landlord (not able to speak out) and many are elder residents who do not fully understand how to oppose this.

I would therefore ask that you look at all aspects of this proposal and understand how this area is not the right location for this 'huge' industrial solar farm.

Thank you for reading.
