

The Claydons are amongst the most attractive villages in Buckinghamshire . It seems a tragedy that they are to be decimated by industrialisation, they will never be the same again if this planning permission is granted. We have already had to put up with the inconvenience of HS2, and East West Rail . The development of the Solar Farm, The Statera BESS and the New Electricity substation will cause yet more damage to our roads, not to mention the inherent danger of the BESS battery units and the noise associated with the construction. This planning permission must be refused
