

I do not feel any of my concerns have been heard, the responses to my concerns are wholly inadequate and give no confidence that these mitigations will work. You say you will increase biodiversity - considering that we already live in an area that is one of the most biodiverse in the country according to 'Natural England', how will you do this? As a new and young driver the road conditions and HS2 drivers already scare me, this will enhance the issue and terrify me further, limiting my mobility from my house. Also as a student, the job market is already tough enough and knowing that this plan will effect Hogshaw farm, [REDACTED], gives me concern. Due to my years of adolescence being effected by Covid, my [REDACTED] but the beautiful nature and greenery around me is the one stable thing i could, and can rely on. If this is taken from me i fear for my future. Furthermore, i don't think that the young generation has been considered in all of this. Us young people do not feel listened to, and we are the ones that will be impacted for decades to come. None of us support this, yet as usual, our concerns are dismissed and overlooked.
