# 1. Introduction

## 1.1. Overview

- 1.1.1. This Statement of Commonality has been prepared on behalf of Rosefield Energyfarm Limited ('the Applicant') in relation to the Development Consent Order (DCO) Application for the construction, operation (including maintenance), and decommissioning of Rosefield Solar Farm (hereafter referred to as the 'Proposed Development').
- 1.1.2. This document has been submitted at Deadline 1 and provides the Examining Authority ('ExA') with a position on the Statements of Common Ground ('SoCG') between the Applicant and relevant consultees and Interested Parties in relation to the Proposed Development. This Statement of Commonality will be updated throughout the course of the Examination.
- 1.1.3. The Proposed Development is classed as a Nationally Significant Infrastructure Project ('NSIP') as defined under Section 15 of the Planning Act 2008 (the 'PA 2008'), as the capacity exceeds 50MW and, as such, must be consented by a DCO. The PA 2008 sets out that the Secretary of State is responsible for determining whether to grant a DCO for the Proposed Development and, under the PA 2008, has the power to appoint an ExA of an appointed person(s) to manage and examine the DCO Application on behalf of the Secretary of State.

## 1.2. Description of Development

- 1.2.1. The Proposed Development comprises the construction, operation (including maintenance) and decommissioning of Solar Photovoltaic ('PV') development and energy storage, together with associated infrastructure and Grid Connection Cabling Corridor to the National Grid East Claydon Substation.
- 1.2.2. A description of the Proposed Development can be found in Section 3.1 of **Environmental Statement (ES) Volume 1, Chapter 3: Proposed Development Description [EN010158/APP/6.1.2]**. The terminology used in this Statement of Commonality is defined in **ES Volume 1, Chapter 0: Glossary [EN010158/APP/6.1] [APP-043]**.
- 1.2.3. The main objective of the Proposed Development is to generate low-carbon renewable energy that can contribute to addressing the urgent need to decarbonise the UK's energy supply. This is explained within Section 3 of the **Statement of Need [EN010158/APP/5.6] [APP-036]**.

## 1.3. Structure of this Statement of Commonality

1.3.1. This Statement of Commonality is structured as follows:

- **Section 2** details the structure of each SoCG and also provides a list of the SoCGs that have been produced to date;
- **Section 3** addresses the current status of each SoCG; and
- **Section 4** sets out the commonality between topics covered in SoCGs with a summary of their position.

## 2. Position

### 2.1. Structure of the SoCGs

- 2.1.1. Each SoCG adopts a standard format to ensure consistency in the approach taken to documenting the matters agreed, matters subject to ongoing discussion, or matters that are not agreed upon.
- 2.1.2. Each of the SoCGs are structured in the following way:
- Section 1 provides an introduction to the SoCG, including a description of the document and the relevant SoCG party;
  - Section 2 provides a summary of engagement between the Applicant and the relevant party so far; and
  - Section 3 provides a schedule of matters raised by the relevant party and the Applicant's responses to these.

### 2.2. List of SoCGs

- 2.2.1. Following continuous and ongoing engagement with relevant statutory and non-statutory consultees, the Applicant jointly prepared and submitted two SoCGs as part of the DCO Application at submission. These SoCGs were with Buckinghamshire and Milton Keynes Fire Authority and the UK Health Security Agency.
- 2.2.2. A number of additional SoCGs with other consultees have been submitted at Deadline 1, following acceptance, in line with those set out within the ExA's published Rule 8 letter (dated 27 February 2026) [[PD-009](#)].
- 2.2.3. A SoCG with National Grid Electricity Distribution (East Midlands) Plc ('NGED') has not been submitted as the Applicant has agreed with NGED that it is not required and that all matters can be addressed via protective provisions.
- 2.2.4. Additionally, a SoCG with Claydons Solar Action Group has not been submitted at Deadline 1 as the party has indicated that they do not consider it possible to produce a meaningful draft SoCG based on their Relevant Representation [[RR-049](#)]. As such, a SoCG with Claydons Solar Action Group will be produced following the submission of the party's Written Representation.
- 2.2.5. As reflected in the ExA's published Rule 8 letter (dated 27 February 2026) [[PD-009](#)], discussions have taken place between the Applicant and High Speed 2 (HS2) regarding the ongoing transport management and coordination between the two schemes. A draft SoCG recording this engagement has therefore been submitted at Deadline 1 (see **Draft SoCG with High Speed 2 [EN010158/APP/5.19]**).

## 3. Status of SoCGs

### 3.1. Summary of Current Position

- 3.1.1. This Section confirms the current status of each SoCG at Deadline 1.
- 3.1.2. **Table 3.1** provides a high-level position on the status of each SoCG and, where necessary, includes further detail to aid the understanding of an SoCG's status.
- 3.1.3. The terms used in **Table 3.1** can be described as follows:
- 'Final SoCG' - the final SoCG has been agreed upon by both parties, with no outstanding matters to resolve;
  - 'Draft SoCG' - the SoCG continues to be discussed between both parties with some level of agreement and some issues still outstanding, meaning the SoCG is yet to be signed off on;
  - 'Initial draft SoCG' - the initial SoCG has been drafted by the Applicant (using any matters identified from meetings with the party alongside responses to Statutory Consultation and Relevant and/or Written Representations) and is with the consultee for review. An initial draft SoCG has not yet had feedback from the consultee and is not signed off; and
  - 'Not yet submitted' – the Applicant is progressing or soon to be progressing these SoCGs with a party with the intent to submit a draft at a subsequent deadline.

Table 3.1 – Current Status of SoCGs

Document Ref.	Relevant Party	Position at Deadline 1
[EN010158/APP/5.11] <a href="#">[APP-041]</a>	Buckinghamshire and Milton Keynes Fire Authority	Draft SoCG
[EN010158/APP/5.12.2]	UK Health Security Agency	Draft SoCG

<b>[EN010158/APP/5.20]</b>	National Grid Electricity Transmission Plc	Draft SoCG
<b>[EN010158/APP/5.21]</b>	National Highways	Draft SoCG
<b>[EN010158/APP/5.22]</b>	Buckinghamshire Council	Draft SoCG

## 4. Summary

4.1.1. This Section provides the overarching position across the main topics covered by the SoCGs at Deadline 1 with **Table 4.1** below identifying where commonality has been reached between the Applicant and SoCG parties.

4.1.2. **Table 4.1** also recognises where topics require further discussion, are not applicable or have concluded in disagreement. Colour coding is used within **Table 4.1** to clarify the status of the commonality reached, as reflected in the below table.

Cell	Status
	Agreed
	Subject to further discussion
	Currently subject to disagreement
	Not applicable
