

I would like to ask the Examining Authority if they would consider including a visit to my property, [REDACTED] as part of the accompanied site inspection.

[REDACTED] is a Grade II\* listed building and Rosefield's Cultural Heritage chapter identifies it as the nearest Grade II\* listed building to the development. I believe a site visit would assist the Examining Authority in understanding the likely effect of the proposed development on the setting of [REDACTED] and on the wider heritage value of the area. Thank you.
