Summary of the Proposed Development

The Proposed Development is located at land south of Buckingham, within 1.5 kilometres of Steeple Claydon, East Claydon, Botolph Claydon and Calvert and within the administrative boundary of Buckinghamshire Council. The Proposed Development would cover an area of approximately 675.05 ha ("the Order Limits"). A map showing the location of the Proposed Development can be viewed on the National Infrastructure Planning website at the following link: <https://nsip-documents.planninginspectorate.gov.uk/published-documents/EN010158-000360-2.1.2%20Location%20Order%20Limits%20and%20Grid%20Coordinate%20Plans.pdf>

The Proposed Development comprises the construction, operation (including maintenance), and decommissioning of solar photovoltaic (PV) development and energy storage, together with associated infrastructure and an underground cable connection to the National Grid East Claydon Substation.

The Application is required because the Proposed Development is classified as a Nationally Significant Infrastructure Project pursuant to subsections 14(1)(a) and 15(1) and (2) of the Planning Act 2008, as an onshore generating station in England with a capacity exceeding 50 MW. As such, the decision whether to grant development consent will be made by the Secretary of State.

The DCO, if granted, would authorise the compulsory acquisition of land, interests in land and rights over land, and the powers to use land permanently and temporarily. The DCO would also authorise alterations to the layout of streets, the construction of accesses to the Proposed Development, the temporary closure, enhancement of public rights of ways and

creation of permissive paths, street works, removal of hedgerows, and the application, disapplication and modification of legislation.

Environmental Impact Assessment

The Proposed Development is Environmental Impact Assessment (EIA) development, as defined by the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 and accordingly an Environmental Statement (ES) accompanies the Application.

Application form and accompanying documents:

The Application form and the accompanying documents, plans and maps, including the ES, non-technical summary of the ES and draft DCO, are available to view electronically and download, free of charge, under the 'Documents' tab on the Rosefield Solar Farm page of the Planning Inspectorate's National Infrastructure Planning website:

<https://national-infrastructure-consenting.planninginspectorate.gov.uk/projects/EN010158/documents>.

The Application documents will be available to view online at least until the Secretary of State makes its decision whether or not to grant the Development Consent Order.

If you require an electronic copy of the Application documents to be supplied on a USB stick, this can be provided free of charge (one device per household or business). Please use the contact details for the Applicant in this notice to request a USB stick. You can also contact the Applicant using these contact details if you have any enquiries in relation to the Application form and its accompanying documents, plans and maps.

The Application documents can be made available in hard copy format subject to a fee of:

- Consultation Report, Planning Statement and Statement of Need - £750;
- Environmental Statement Report Volumes 1-3 - £1,500; and
- Total cost for all documents (including files, covers and spines) - £5,000.

The Applicant will also consider any reasonable requests for bespoke or hard copy documents, and will accommodate such requests where it is feasible to do so and for which a reasonable charge may apply. In relation to any request, please contact the Applicant using the contact details in this notice.
