Land and Rights Negotiations Tracker (Tracked)

EN010158/APP/8.8.34
July 2026
Revision 43
Deadline 54
Rosefield Energyfarm Ltd

APFP Regulation 5(2)(q)
Planning Act 2008
Infrastructure Planning
(Applications: Prescribed Forms
and Procedure) Regulations 2009

1. Introduction

1.1. Purpose of this document

- 1.1.1. This Land and Rights Negotiations Tracker has been prepared on behalf of Rosefield Energyfarm Limited ('the Applicant') to tabulate all non-agreed land rights at the outset of the examination in relation to the Development Consent Order Application ('Application') for the construction, operation (including maintenance), and decommissioning of the Rosefield Solar Farm (hereafter referred to as the 'Proposed Development').
- 1.1.2. The Applicant has prepared this document in response to the **Rule 6 letter [PD-008]**, and has been prepared to assist the Examination Authority report on the Applicant's on-going discussions with affected persons and has updated it at Deadline 4 in response to Q2.6.6 of the **Examining Authority's Written Questions 2 (ExQ2) [PD-016]** to reflect the removal of plot 2/6 from the Order Land. This document has been further updated at Deadline 5 in response to Action Point 1 of the Action Points from Compulsory Acquisition Hearing 2 (CAH2) [EV10-006] to include the tenancy status over the plots the applicant is seeking compulsory acquisition powers over. The amendments reflect the plan at Appendix 2 of the Tenancy Position of Preston Farms Ltd [EN010158/APP/8.30] [REP4-088]. The document references have not been updated from the original submission. Please refer to the **Guide to the Application [EN010158/APP/1.2.1~~10~~]** for the list of current versions of documents.
- 1.1.3. The Works Numbers listed in the table below correspond with the following elements of the Proposed Development:
- **Work No. 1:** a ground mounted solar photovoltaic generating station with a gross electrical output capacity of over 50 megawatts, including —
 - solar PV modules fixed to mounting structures; and
 - balance of solar system (BoSS) plant.
 - **Work No. 2:** onsite substation compound works comprising:
 - **Work No 2A:** the Rosefield Substation and works associated with the substation, including switch rooms buildings and ancillary equipment, control building and ancillary structures, and monitoring and control systems.
 - **Work No 2B:** accounts for an abnormal indivisible load corridor required to facilitate abnormal indivisible load movements together with internal access track including in connection with Work No. 2A and for crossings over watercourses via bridges.
 - **Work No. 3:** satellite collector compound works, including:

- **Work No 3A:** switch gear and maintenance building(s) housing a control room, monitoring equipment, storage, security and welfare facilities.
- **Work No 3B:** transformers that form part of the satellite collector compounds for Work No 3A and associated barriers for fire safety and noise mitigation.
- **Work No. 4:** battery energy storage system (BESS) units, transformers and associated bunding, various ancillary electrical equipment, containers or enclosures housing some or all elements of the BESS compound either together or separately, monitoring and control systems heating, ventilation and air conditioning (HVAC) systems, externally mounted noise reduction kits, fire safety infrastructure, emergency back-up diesel generator, similar structures to house spare parts, acoustic barriers, staging and parking areas and ancillary buildings.
- **Work No. 5:** a main collector compound comprising works to connect underground cabling, equipment and buildings on shallow concrete pad foundations or screw piles, electrical equipment including static compensation devices, auxiliary transformers, switch gear, harmonic filters and reactive power compensation equipment, fencing and acoustic barriers and ancillary buildings.
- **Work No. 6:** works to lay high voltage electrical cables and access for the electrical cables, including works to lay electrical cables including 400 kilovolt cables connecting Work No. 2A into the National Grid East Claydon Substation.
- **Work No. 7:** works to lay electrical cables up to 132 kilovolt connecting Work Nos 1, 2A, 3, 4, 5 and 6 and laying down of internal access tracks.
- **Work No. 8:** temporary construction and decommissioning compounds in connection with Work Nos. 1 to 7 and Work Nos. 9 and 10 including:
 - **Work No. 8A:** up to three primary temporary construction and decommissioning areas; and
 - **Work No. 8B:** up to three secondary temporary construction and decommissioning areas.
- **Work No. 9:** works to facilitate access to Work Nos. 1 to 8 and 10, including the creation of accesses from the public highway and visibility splays, works to alter the layout of any street or highway and to widen and surface the streets and to make and maintain passing places.
- **Work No. 10:** works in relation to blue and green infrastructure, mitigation and access, including:
 - **Work No. 10A:** to create, enhance and maintain green and blue infrastructure and mitigation, including landscape and biodiversity mitigation and enhancement areas, habitat creation and management, improvements to connectivity by laying down of new permissive paths, signage and information boards, improvements to connectivity by

permanent diversions to public rights of way, signage and information boards, earth bund and screening; and

- **Work No. 10B:** works for the laying down of internal access tracks etc.
