

NOTES

The Zone of Theoretical Visibility (ZTV) has been generated using EA 2m Composite First Return Digital Surface Model 2022. The ZTV has been generated based upon an observer eye level of 1.60m. It is based on 3.5m and 3.8m high points within the Proposed Development Areas. All points are spaced out evenly on the 50 on 50m grid. All heights mentioned are above ground level (AGL).
