

Dear Case Team,

Please find attached my Deadline 3 submission in relation to the Outline Construction Traffic Management Plan [REP1-055].

The submission highlights:

- An inconsistency in document referencing (Figure 2 vs. Figure 4.1);
- Ambiguity over the identification of roads with duplicate names in North and South Clifton;
- Concerns regarding the suitability of narrow single-track lanes in North Clifton for HGV or construction traffic; and
- The need for a clearer and larger version of the barred routes plan, showing village names and road labels.

I respectfully request that the Examining Authority seeks clarification from the Applicant on these points and ensures that unsuitable roads in North Clifton are explicitly included within the barred routes.

Kind regards,

Rebecca Walker
