WEST LINDSEY DISTRICT COUNCIL

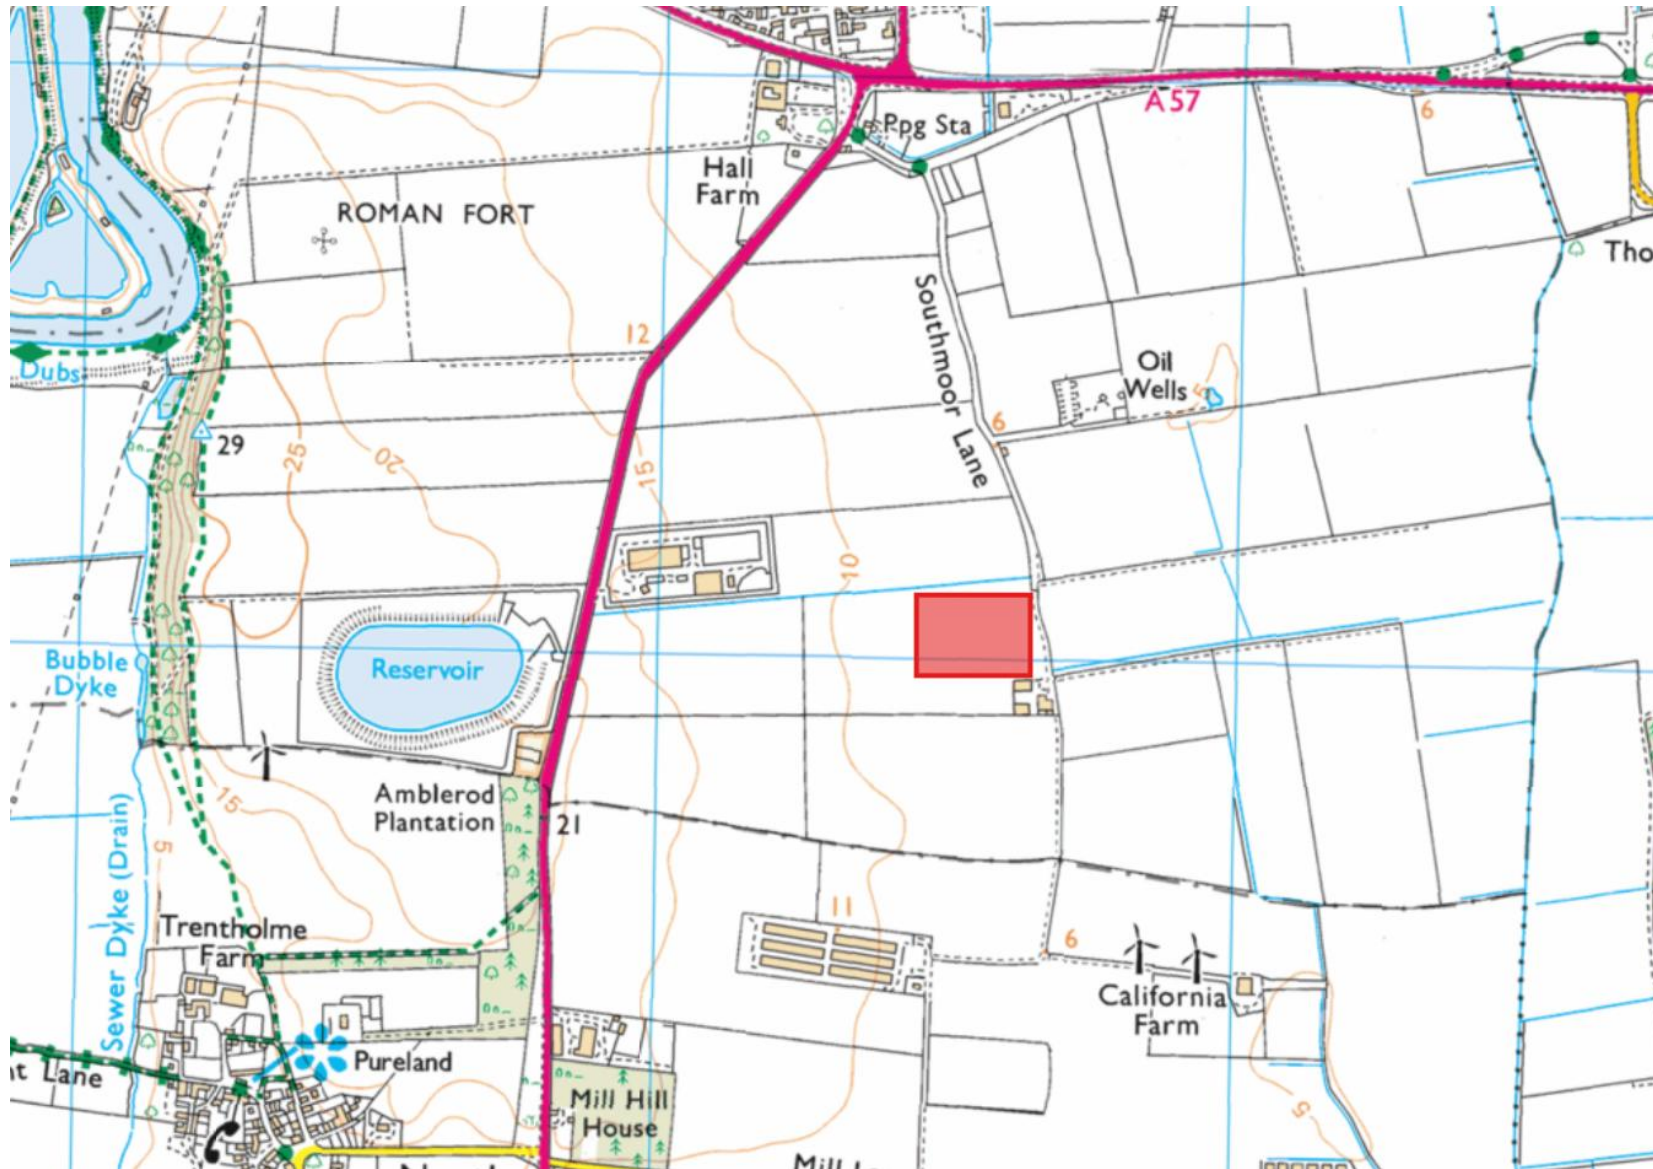

RESPONSE TO ISH2 ACTION POINTS

Issue Specific Hearing 2 (ISH2): environmental matters

Action point 5

WLDC Response

West Lindsey District Council has been working with the applicant's advisors to agree specific siting parameters for a suitable location for the eastern substation, should the DCO be approved. It is the view of WLDC, having reviewed cross section information, that the best location within the area identified by the applicant in the application documents as being for the BESS and substation is shown on the diagram below. WLDC would like to see a similar parameter for the eastern substation included on the certified plans accompanying the DCO.
