

concerns The size is overwhelming it dominates the surrounding villages bringing nothing positive to their lives and will create villages that nobody will want to live in

Change

2. Wildlife (deer, foxes badgers etc) will be seriously impacted by the lack of movement and could/will be forced into areas where they are not welcome.

This happens now almost on an annual basis when the Trent floods.

3. We are being surrounded by a giant glass energy producing factory ,please don't insult the true farmers and general public by misleading them by calling it a farm, the villages will not survive into the future as many will not choose to live here Unless we almost give our homes away
