The applicant

Case ref: EN010159  
Date: 19 November 2025

---

Dear Mr Boyd

## **The Infrastructure Planning (Examination Procedure) Rules 2010 – Rule 17**

### **Application by One Earth Solar Farm Ltd for an order granting development consent for the One Earth Solar Farm**

#### **Request for information**

The Examining Authority (ExA) is writing to request further information from the applicant under Rule 17 of the Infrastructure Planning (Examination Procedure) Rules 2010 (as amended).

Should the Secretary of State conclude that the Sequential Test has not been passed and the consequential failure of not passing this test outweighs the need for the proposed development, the applicant is asked to consider whether an amendment to exclude panels and associated infrastructure from Flood Zones 2 and 3 would represent the same Nationally Significant Infrastructure Project as originally applied for.

If it would, then the applicant is asked to consider, on a without prejudice basis, the alterations that would be required to the order limits, the Development Consent Order, the Land Plan, the Works Plan, and any other necessary alterations, to accommodate the changes that would be required to the application.

The applicant is also asked to comment on the implications of these alterations for the functionality and viability of the proposed development overall, although we note the response already provided following ISH2 set out at page 32 of [REP3-065].

Responses should be submitted by **Deadline 6 Wednesday 3 December 2025**.

Yours sincerely

*Edwin Maund*

**Lead member of the panel of Examining Inspectors**
