Dear Sirs

At issue specific meeting 3 the representative of the LLFA Nottingham County Council approved the applicants stance and surface water runoff and flood risk . I challenged that on the grounds that the report shown below contradicted that and stated that his response was not credible. He undertook to come back in writing but doesn't appear to have done so. Would the ExA issue a rule 17 request that he does so now please and if so would he confirm that he has checked this with a competent authority in view of NCC's previous statement that they did not have the competence to do so themselves and in view of the conflict of interest that AECOM have.
