Revision 076

Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009  
- Reg 5 (2) (g)

## 1. Introduction

This tracker has been prepared in two separate tables:

Table 1	Category 1 Interests
Table 2	Other Interests

### Category 1 Interests

Part 1 of the LRT includes all Category 1 Owners or Reputed Owners identified within the **Book of Reference [EN010159/APP/4.3.5]** where acquisition of land and rights is required, and the land interest is able to provide proof of title.

Part 1 of the LRT does not include tenants, lessees and occupiers identified as Category 1 interests in the Book of Reference, save for where they have submitted representations during Examination. In which case they will sit in Part 2 of the LRT. The Applicant is requesting such interests be signatories to voluntary agreements with Category 1 Owners or Reputed Owners identified within the **Book of Reference [EN010159/APP/4.3.5]**.

The LRT does not include commentary with Category 3 interests identified in the Book of Reference as they are outside the Order Land and therefore not subject to any acquisition of land, rights nor temporary possession.

Where no interest has come forward declaring or proving ownership of unregistered plots, negotiations are not ongoing, and the plots have not been included in the LRT.

### Other Interests

Part 2 of the LRT includes commentary in respect of voluntary agreements being sought with Category 2 interests in the **Book of Reference [EN010159/APP/4.3.5]** as having rights and/or apparatus within the Order Land.

Part 2 further separates Category 2 interests identified as statutory undertakers and provides commentary in respect of voluntary agreements being sought.

The document references have not been updated from the original submission. Please refer to the **Guide to the Application [EN010159/APP/1.3.2]** for the list of current versions of documents.

## 2. Description of Rights Requested

The **Land Plans [EN010159/APP/2.2.4]** show land and rights over which compulsory acquisition and temporary possession powers are sought and the powers being sought are also listed in the Book of Reference [EN010159/APP/4.3].

On the Land Plans the plots are coloured to show the type of power that is required over each plot of land to deliver the Proposed Development. These same colours have been used to signify the rights requested within this tracker:

Pink	Compulsory acquisition of all interests and rights in land (including as required subsoil, surface land)
Blue	Creation and compulsory acquisition of new rights (including where necessary, a right to impose restrictive covenants)
Yellow	Temporary possession and use of land primarily during construction and for up to 12 months from completion of the relevant works

This tracker identifies the powers sought over plots of land by reference to the colours shown on the Land Plans.
