Date: 17 June 2026

Dear Sir/Madam,

**Planning Act 2008 and The Infrastructure Planning (Examination Procedure) Rules 2010
Application by One Earth Solar Farm Limited (“the Applicant”) for an Order granting
Development Consent for the proposed One Earth Solar Farm (“the Proposed
Development”) ALL INTERESTED PARTIES – INVITATION TO COMMENT**

The Council has reviewed the documentation published on the 21 May 2026 and have the following comments to make with regard to ecology matters.

The Council notes the applicant's responses to the Secretary of State's Request for Information (RFI) relating to Biodiversity and Ecology (C1-016) and the associated updates to the outline Landscape and Ecology Management Plan (oLEMP)(C1-017). The Council agrees with the Applicant's responses to the RFI and considers that adequate onsite provision has been made for both ground nesting farmland birds and wintering birds.

The Council agrees that there may be a minor negative impact on breeding birds during the construction phase and an overall positive impact on breeding birds during the operational phase. The Council considers that the provision of mitigation for breeding and wintering birds is adequately secured in the oLEMP (C1-017).

Yours faithfully,

**For Neil McBride
Head of Planning**
