Please do not destroy our peaceful village.

There are many elderly residents and the noise and disruption will seriously damage their mental health and general wellbeing.

On a wider perspective the planned Solar Farm will be built on prime agricultural land. As a country we can no longer grow sufficient food to feed ourselves and therefore there are hundreds of families reliant on food banks.

Any financial benefits from solar energy must be outweighed when we consider the costs and pollution of transporting imported food especially when there is local agricultural land available.

Please take these points of view into consideration when making your final decision.

Sincerely

Jean Havenhand.
