Overview

Great North Road Solar Park

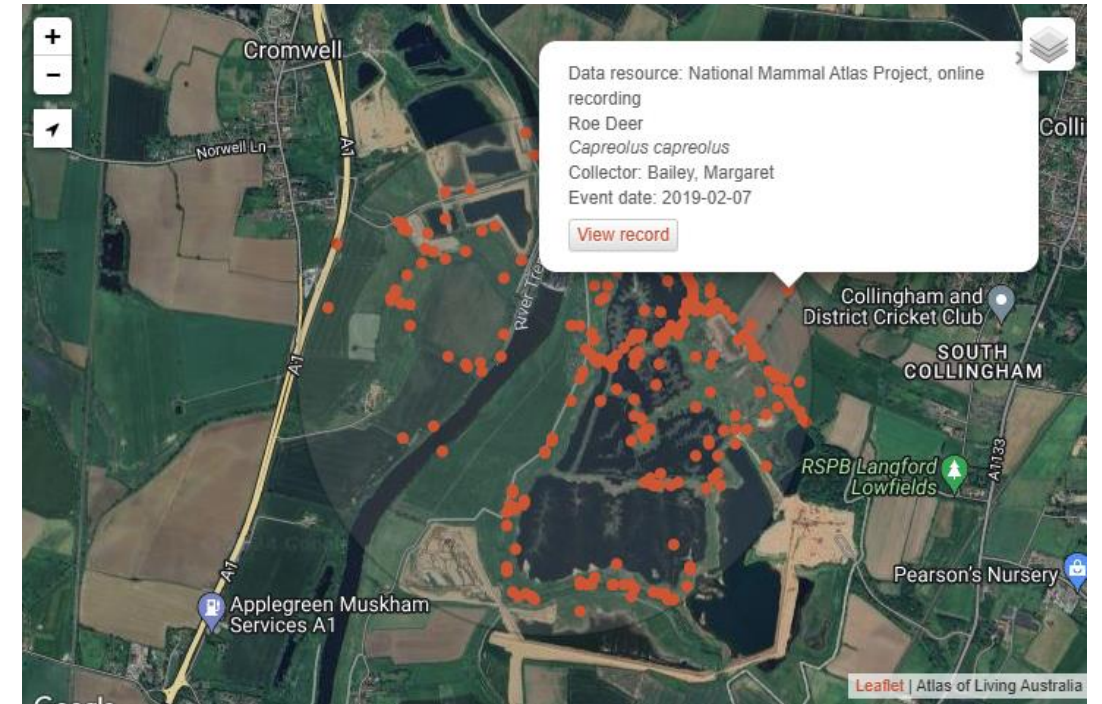

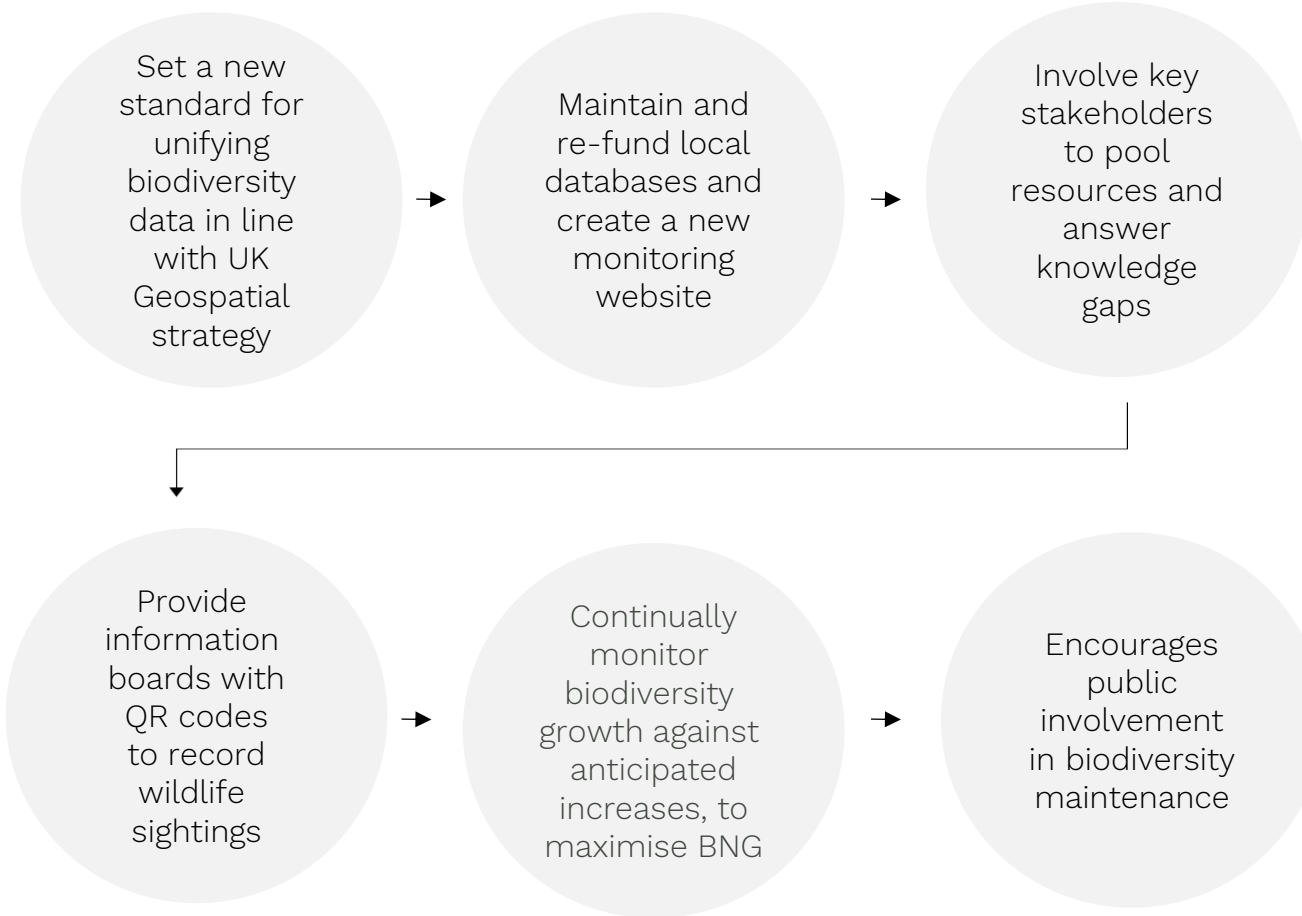

Enhancement Area	Proposed Additional Area (acres)	Details
Woodland	98.02	50,000 trees planted
Hedgerow		~25km of hedgerow planted
Retained Agricultural Land (Ground-nesting Birds)	422.28	Farmland strongly focused on bird mitigation
Green Corridors	23.85	Improve landscape connectivity
Wildlife Sites	146.91	Create, buffer and expand LWS
Wetlands	70.37	Wader scrapes, ponds, wet grassland/woodland
Permanent Grassland	92.73	Benefit breeding and wintering birds

Creating an Interactive Natural Environment

- Transform pathways around GNR into interactive nature trails with an additional 19km of permissive footpaths
- Where appropriate provide wider, graveled routes perfect for cycling and walking
- Routes surrounded by greenery including wildflowers, fruit trees and bushes where possible
- Secure bike facilities and storage through NG+
- QR codes along routes, providing knowledge, trivia and games about ancient woodland and sites of interest
- Running routes showing milestone distances such as 5km, 10km and half marathons
