Dear Tracey Williams,

**Application by Elements Green Trent Limited: Great North Road Solar and Biodiversity Park (Application Reference: EN010162)**

**Responses to Section 51 Advice and Section 55 Checklist**

Elements Green Trent Limited (company number: 13665771) of registered office 1 Half Moon Street, London, United Kingdom, W1J 7AY ('the Applicant') has reviewed the Section 51 Advice and Section 55 Checklist issued by the Planning Inspectorate on 22 July 2025 and has actioned each point as necessary. Appendix 1 to this letter sets out a detailed response to each point, including references to the updated documents and drawings.

A number of documents have therefore been updated as requested. A number of minor corrections have been made to the cover pages of application documents and these updates form part of this submission. The document names in the **Guide to the Application [EN010162/APP/1.4A]** and the contents pages of the Environmental Statement have also been updated to maintain consistency in document naming. . As requested, these updates have been provided in advance of the commencement of the Relevant Representation period, which starts on 21<sup>st</sup> August 2025. For completeness, the Applicant has also updated the **Guide to the Application [EN010162/APP/1.4A]**.

We trust that this meets the necessary requirements, but please contact us if we can be of any assistance.

Yours sincerely

Elena Sarieva  
**Head of Planning**  
**Elements Green Trent Limited**  
**Enc.**

Appendix 1 - Responses to Section 51 Advice

Appendix 2 - Responses to Section 55 Checklist

Appendix 3 - List of documents submitted by the Applicant at post submission

## **Appendix 1- Responses to Section 51 Advice**

<b><i>Section 51 Advice</i></b>	<b><i>Applicant's responses</i></b>
<b><i>Consultees identified on a precautionary basis</i></b>	
<p>Given the individual circumstances of this case, the Planning Inspectorate advises taking a precautionary approach to consultation under s42(1)(a) of PA2008 to ensure that all persons potentially affected by, or potentially likely to have an interest in the application are given the opportunity to participate fully in the examination of the application.</p> <p>On this basis, the applicant may wish to serve notice on the bodies listed in Box 6 of the section 55 checklist when it serves notice of the accepted application under s56(2)(a) of the PA2008, unless there is a specific justification why this is not necessary.</p>	<p>Noted. The Applicant has added these bodies to the list of persons that will be notified pursuant to S.56 of the Planning Act 2008.</p>
<b><i>Water Bodies in a River Basin Management Plan (Doc 2.6), Environmental Statement figure 9.4 (Doc 6.3.9.4), ES figure 9.6 (Doc 6.3.9.6), Figures within the Flood Risk Assessment (Doc 6.4.9.1) and Water Framework Directive Assessment (Doc 6.4.9.2)</i></b>	
<p>The applicant is advised to review these figures for clarity and consistency. The figures present varying levels of detail, geographic extent and sub sections/ catchments, waterbody naming and waterbody routes. The Inspectorate advises that the figures should show a consistent presentation of data. The figures should also show, where relevant, the extent of main rivers and ordinary watercourses.</p>	<p>Noted. The figures within the management plans and ES figures have been updated to improve symbology and labelling for watercourses and to revise scale for clarity. This is to ensure a consistent presentation of the rivers/watercourses on the plans. The revised documents are listed below:</p> <ul style="list-style-type: none"> <li>• <b>Water Bodies in a River Basin Management Plan [EN010162/APP/2.6A]</b></li> <li>• <b>ES Volume 3, Figure 9.4: Watercourses within CSA [EN010162/APP/6.3.9.4A]</b></li> </ul>

- **ES Volume 3, Figure 9.6: IDB Maintained Watercourses [EN010162/APP/6.3.9.6A]**
- Figures within the updated **ES Volume 4, Appendix 9.1: Flood Risk Assessment [EN010162/APP/6.4.9.1A]**
- Figures within the updated **ES Volume 4, Appendix 9.2: Water Framework Directive Assessment [EN010162/APP/6.4.9.2A]**

Figures within the Flood Risk Assessment (FRA) and Water Framework Directive Assessment (WFD) have been extracted as an appendix of each of the assessment for improved clarity.

### ***Statutory and non-statutory features of Historic Environment Plan (Doc 2.15)***

The applicant is advised to review these figures for clarity, specifically relating to the following points:

- due to the scale of the icons used and similar colouring, it is difficult to differentiate between Historic Environment Record (HER) assets and listed buildings/ grades
- a very similar colouring scheme between HER recorded 'undated' period and scheduled monuments keys has been used
- due to the small scale of the icons, the labelling sometimes obscures the record being shown.

An updated **Statutory and non-statutory features of Historic Environment Plan [EN010162/APP/2.15A]** has been submitted. The icons used on the plans have been updated to be clearer, along with a clearer differentiation between the colours used, and a clearer basemap.

### ***Environmental Statement (ES), Chapter 7, figures 6.3.7.11.1 – 6.3.7.11.55)***

The Landscape and Visual Impact Assessment (LVIA) contained within the ES, Chapter 7 details the analysis undertaken for 55 viewpoints from the visualisations contained within figures 6.3.7.11.1 – 6.3.7.11.55. The

Figure 7.11 Viewpoints have been updated to include the location plan of the viewpoints. The omitted visualisations and photomontages have also been provided. Please refer to

technical appendix detailing the methodology also refers to photomontages and wireline modelling where required. However, the visualisations and photomontages do not appear to have been provided, as figures 6.3.7.11.1 – 6.3.7.11.55 contain only the location plan of the viewpoint as well as its description. We request that the applicant provide these visualisations and photomontages ahead of the opening of the relevant representation period.

updated **ES Volume 3, Figure 7.11: Visualisation Viewpoints [EN010162/APP/ 6.3.7.11A]**

### ***Flood Risk Assessment (Doc 6.4.9.1)***

The Flood Risk Assessment (FRA) provides limited explanation of the rationale behind the methodology chosen and the level of agreement with the relevant statutory consultees, in particular the Environment Agency and the Lead Local Flood Authority. This information is however available in part in accompanying documents such as the consultation report.

The applicant is advised to consolidate the information provided on the consultation undertaken and position of agreement with relevant consultees, in particular in relation to the methodology that has been utilised, into an updated FRA. This is of particular relevance to the assessment of waterbodies that are described or represented as tributaries of the Trent but do not appear to have either project specific modelling or reference to existing published studies (for example “The Beck” waterbody which appears to have an associated flood zone 2/ 3 but does not appear to be specifically referred to in the FRA).

Given the geographic scale of the proposed development, the FRA utilises multiple different baseline datasets/ published flood modelling for the differing waterbodies that are required

An updated **ES Volume 4, Appendix 9.1: Flood Risk Assessment [EN010162/APP/6.4.9.1A]** has been submitted to provide further explanation of the rationale behind the methodology chosen and the level of agreement with the relevant statutory consultees, including the Environment Agency (EA) and Nottinghamshire County Council (as the Lead Local Flood Authority).

The updated FRA also provides updates in relation to the following:

- Appendix X has been created to consolidate the feedback from relevant statutory consultees and how the Applicant has responded to that feedback in the preparation of the FRA.
- Appendix [D] has been created to present the FRA figures.
- Figure A9.12 has been updated to show the catchment areas of each flood study referred to in the FRA (See section A9.1.1.11 of the FRA).
- A representation of all watercourses flooding at the same time and the peak extent is provided in Figure A9.1 of the FRA. The Applicant notes that watercourses that interact

to be included in the FRA, as well as more targeted site specific modelling (pluvial flood risk and River Greet). However, with reference to the point above on ensuring a clear explanation of the methodology and the specific water bodies included for the benefit of interested parties, the applicant is advised to provide a figure or other explanation as to the relevant geographic areas covered by each of the datasets used in the assessment, the area covered by any site specific modelling, and whether these waterbodies are main river or ordinary watercourses. At present, the FRA relies on insets/ partial figures from the relevant studies and modelling. From the various figures provided with the application, the waterbodies adjacent to or within the order limits appear to be (however the applicant is advised to include all relevant waterbodies):

- River Trent (towards the East)
- The Beck (tributary of the Trent) (West and central)
- Pingley/ Rundell Dyke/ Car Dyke (South)
- Moorhouse Beck (tributary of Goosemoor Dyke) (north)
- Goosemoor Dyke (North)
- The Wink (Southwest)

The FRA should also explain whether there are any increases in flood levels should the waterbodies assessed flood at the same time, as currently these appear to be predominately assessed by individual modelling or use of published studies.

The FRA should also provide the full results of the project specific modelling undertaken, as these are not currently included in full.

with the Order limits are not close enough to be influenced by other watercourses during a flood event. The Applicant notes that the River Trent is not a rapid response catchment due to the wide area which it drains. This means that the tributaries of the River Trent within and close to the Order Limits will transfer water downstream more rapidly than the River Trent. This further limits its influence on water levels. Structures, such as the A1, East Coast Mainline Railway embankments and culverts / bridges also limit the influence and flood extent of the River Trent.

- The FRA has been updated to include the full results of the project specific modelling that has been undertaken and are presented in Table A9.1.4 of the FRA.

### ***Book of Reference (Doc 4.3)***

When cross referencing the Book of Reference (BoR) with the applicant's list of statutory consultees some inconsistencies have been identified. There are a number of names included in the BoR which do not either appear on the s44 consultee list within the Consultation Report (Doc 5.1) or they have had a possible name change.

Please can an updated BoR be submitted in the early pre-examination period to ensure that the Planning Inspectorate is able to formally notify all affected parties of the preliminary meeting and draft examination timetable.

The Applicant has reviewed the **Book of Reference [EN010162/APP/4.3]** [\[APP-015\]](#) and has been updated to correct a small number of discrepancies. It has been cross-checked against the S.44 Consultee list within the Consultation Report **[EN010162/APP/5.1]** [\[APP-296\]](#). The updated **Book of Reference [EN010162/APP/4.3A]** has been included within this submission.

### ***Land Rights and Negotiations Tracker (Doc 4.4)***

No statuses for negotiations have been provided for Refs. 62, 63, and 64. The table may also benefit from minor reformatting so that numbers and figures which are close to borders are more legible.

The tracker should be updated for these land parcels to show the different statuses for each land interest and re-formatted before the commencement of the preliminary meeting.

Noted. The Applicant has reviewed the **Land Rights and Negotiations Tracker [EN010162/APP/4.4]** [\[APP-016\]](#) and can confirm that the status for references 62, 63 and 64 should be '**Amber** (*Agreement expected to be reached before the end of the Examination*)' for each of the three entries.

As requested, the document will also be updated and submitted to PINS in advance of the Preliminary Meeting to include the change noted above and to show the current status of negotiation for each relevant land parcel.

### ***Minor errors and omissions***

There are minor errors and omissions, as reflected in Box 30 of the acceptance checklist.

Aside from submitting the visualisations and photomontages requested in this letter before the commencement of the relevant representation period, and submitting an updated

Noted. These matters have been actioned. Please refer to the Applicant's responses in Appendix 2, on page 8 to page 12 of this Cover Letter.

Book of Reference early in the pre-examination period, the applicant may wish to carry out a review of the minor errors and omissions to be corrected, as listed in Box 30 of the acceptance checklist, and be prepared to submit updated versions of such documents if requested by the appointed Examining Authority.

## **Appendix 2- Responses to Section 55 Checklist**

<b><i>PINS Comments on Section 55 Matters</i></b>	<b><i>Applicant's responses</i></b>
<b><i>Box 6 of the S55 Checklist: S42 Consultation</i></b>	
<p>The applicant has provided a list of persons consulted under s42(1)(a) on 9 January 2025 at appendix 5.1.7 of the Consultation Report (Doc 5.1). A sample of the letter sent to s42(1)(a) consultees is provided at appendix 5.17 of the Consultation Report (Doc 5.1). The Planning Inspectorate has identified the following parties based on a precautionary interpretation of the APFP regulations that were not consulted by the applicant under s42:</p> <ul style="list-style-type: none"> <li>• Anglian Water</li> <li>• CNG Services Limited</li> <li>• Inovyn Enterprises Ltd</li> <li>• Lightsource BP - Hawton (solar)</li> <li>• Breach Farm Energy Storage Ltd - Bilsthorpe (solar)</li> <li>• Breach Farm Energy Storage Ltd - Stud Farm (solar)</li> <li>• Breach Farm Energy Storage Ltd - Ollerton (solar)</li> <li>• RWE Generation UK Plc</li> <li>• Advanced Electricity Networks Ltd</li> <li>• Aidien Ltd</li> <li>• Aurora Utilities Ltd</li> <li>• Green Generation Energy Networks Cymru Ltd</li> <li>• TC Robin Rigg OFTO Limited</li> </ul>	<p>Noted. The Applicant has added these persons to the list of Prescribed Bodies that have been notified pursuant to S.56 of the Planning Act 2008.</p>

The applicant's Consultation Report (Doc ref 5.1) does not appear to show if these bodies identified above have been consulted. However, it is noted that the licences held by these bodies cover Great Britain or various smaller areas and the operational areas of each are not clear from information in the public domain. One of the bodies listed above (RWE Generation UK Plc) has been identified by the applicant as having an interest in the order land and are listed in the Book of Reference (Doc 4.3) under category 2 and was consulted under s44.

**Box 30 of the S55 Checklist: Other Observations**

**Land Plans (Doc 2.2)**

The language used in the legend to describe the various plots is not consistent with what is described in the Book of Reference (BoR). A consistent approach should be utilised across the plans/ BoR/ Development Consent Order/ Statement of Reasons to improve clarity.

- The cutlines on sheet 2 are incorrectly labelled and refer the reader to 'sheet 2'.
- There are a number of blue coloured plots that are not labelled. These are adjacent to 2/28, 2/24 and 2/38 on sheet 2.
- An inset box may be beneficial for the area plot surrounding 2/38 (sheet 2) as the plot numbers are unclear.
- A pink coloured plot adjacent to plot 19/21 (sheet 19) appears unlabelled. It might be part of plot 19/7 but this is unclear.
- Labels 29/4 and 29/3 on sheet 29 point to the same plot.

The updated **Land Plans [EN010162/APP/2.2A]** have been updated to action this advice.

The blue coloured plots on sheet 2 are now labelled. Additional insets have been added to sheet 2, alongside with the updated outline labels.

Additional label has been added to plot 19/7 on sheet 19 to improve clarity.

The labels on sheet 29 have also been updated, including labels 29/4 and 29/3.

<p><b>Works Plans (Doc 2.3)</b></p> <ul style="list-style-type: none"> <li>• The works numbers are listed in the legend. For improved clarity and comprehension please label each work number plot on each sheet.</li> </ul>	<p>The updated <b>Works Plans [EN010162/APP/2.3A]</b> have been updated to clarify the labelling of Work Numbers on each sheet.</p>
<p><b>Streets &amp; Access Plans (Doc 2.8)</b></p> <ul style="list-style-type: none"> <li>• Not all roads are labelled on the plans, even those identified in the dDCO. For improved clarity and comprehension please revise.</li> <li>• Throughout the plans there are small pink lines with dots on each end. These should be labelled/ identified in the legend for clarity.</li> <li>• On sheets 3 &amp; 5, SW-13 appears to be on Coldharbour Lane but the dDCO identifies SW-13 as on Broadgate Lane.</li> </ul>	<p>The <b>Streets and Access Plans [EN010162/APP/2.8A]</b> have been updated to include labels for all roads and adjust the legend to improve clarity and consistency. The basemap has been updated to remove pink lines/dots.</p> <p>Reference SW-13 Coldharbour Lane has been confirmed as correct and the corresponding reference in the Schedule 3 of the <b>Draft Development Consent Order [EN010162/APP/3.1A]</b> on page 45 has been corrected from Broadgate Lane to Coldharbour Lane.</p>
<p><b>Document naming</b></p> <ul style="list-style-type: none"> <li>• There were several instances of document file names differing to the name of the document on the title page. For example, Figure 10.2 Ground Conditions Constraint Plan is also 10.2 Contaminated Land Constraints Plan.</li> </ul>	<p>The Applicant has reviewed the documents identified and updated the cover pages to ensure consistency with their respective file names. The following documents have been corrected and are listed in the Document List in Appendix 3, on page 14 of this Cover Letter :</p> <ul style="list-style-type: none"> <li>• <b>Validation Report [EN010162/APP/3.2A]</b></li> <li>• <b>Habitats Regulations Screening Report [EN010162/APP/5.3A]</b></li> <li>• <b>ES Volume 3, Figure 4.2: Site Selection All Considerations [EN010162/APP/6.3.4.2A]</b></li> <li>• <b>ES Volume 3, Figure 10.2 Ground Conditions Constraint Plan [EN010162/APP/6.3.10.2]</b></li> <li>• <b>Statement of Compliance [EN010162/APP/5.1.1A]</b></li> </ul>

To maintain consistency throughout the application, the Applicant has also updated the document names in the **Guide to the Application [EN010162/APP/1.4A]** and the contents pages of the Environmental Statement:

- **ES Volume 1, Non-Technical Summary Cover and Contents [EN010162/APP/6.1]**
- **ES Volume 2, Chapters Cover and Contents [EN010162/APP/6.2]**
- **ES Volume 4, Technical Appendices Cover and Contents [EN010162/APP/6.4]**

The document names that have been corrected are as follows:

- GNR\_3.2\_Validation\_Report
- GNR\_1.2\_Section 55 Acceptance of Applications Checklist
- GNR\_4.1.1\_Statement of Reasons Appendix 1 - List Of Land Parcels, Proposed Acquisition And Works For Which Land Is Required
- GNR\_4.1.2\_Statement of Reasons Appendix 2 - Land Referencing Methodology
- GNR\_4.1.3\_Statement of Reasons Appendix 3 - Category 3 Methodology
- GNR\_6.2.12\_ES\_Ch\_16\_Noise\_and\_Vibration\_Impact\_Assessment
- GNR\_6.2.16\_ES\_Ch\_16\_Miscellaneous\_Issues\_including Air Quality, Glint and Glare, Human Health, Major Accidents or Disasters; Electromagnetic Fields and Waste
- GNR\_6.4.7.1\_ES\_TA\_A7.1\_Consultation

- GNR\_6.4.7.3\_ES\_TA\_A7.3\_Landscape\_Sensitivity
- GNR\_6.4.7.4\_ES\_TA\_A7.4\_Illustrative\_Views
- GNR\_6.4.7.5\_ES\_TA\_A7.5\_Non\_Significant\_Effects
- GNR\_6.4.8.13\_ES\_TA\_A8.13\_Biodiversity\_Net\_Gain\_Assessment
- GNR\_6.4.11.2\_ES\_TA\_A11.2\_Settings\_Assessment\_Scoping\_Exercise
- GNR\_6.4.16.2\_ES\_TA\_A16.2\_Mental\_Wellbeing\_Impact\_Assessment\_Screening
- GNR\_6.4.17.1\_ES\_TA\_A17.1\_Agricultural\_Land\_Classification - Part 1 of 2

- GNR\_5.3\_Habitat\_Regulation\_Screening\_Report
- GNR\_7.2\_Statement\_of\_Need\_(Planning\_Need)
- GNR\_7.3\_Consents\_and\_Licenses\_Required\_Under\_Other\_Legislation
- GNR\_7.16\_Technical\_Guide\_for\_Solar\_Power\_Generation,\_Storage,\_Maintenance\_and\_Decommissioning.

**Book of Reference (Doc 4.3)**

- Please refer to the section 51 advice letter provided where there are some points of clarification recommended.

**Water Bodies in a River Basin Management Plan (Doc 2.6), Environmental Statement (ES) figure 9.4 (Doc 6.3.9.4), figures within the Flood Risk Assessment (Doc 6.4.9.1) and Water Framework Directive Assessment (Doc 6.4.9.2)**

Please refer to the Applicant's responses in Appendix 1, on page 5 of this Cover Letter.

- Please refer to the section 51 advice letter provided where there are some points of clarification recommended.

**Statutory and Non-Statutory features of Historic Environment Plan (Doc 2.17)**

- Please refer to the section 51 advice letter provided where there are some points of clarification recommended.

**ES figures 6.3.7.11.1 – 6.3.7.11.55**

- Please refer to the section 51 advice letter provided where there are some points of clarification recommended.

**Flood Risk Assessment (Doc 6.4.9.1)**

- Please refer to the section 51 advice letter provided where there are some points of clarification recommended.

***Box 31 of the S55 Checklist: Habitat Regulations Assessment (HRA) Screening Report***

A Habitat Regulations Assessment (HRA) Screening Report has been provided (Doc ref 5.3).

The HRA Report identifies relevant European sites and the likely effects on those sites. It is considered that the information provided in the report is adequate for acceptance.

Note: The Examining Authority will be able to ask questions during the examination. This may result in additional information being required to inform the HRA Report and the competent authority. Depending upon the type and availability of information required it may not be possible to obtain this during the statutory timetable of the examination.

Noted.

**Box 34 of the S55 Checklist: Summary of s55(3)(f) and s55(5A)**

The Planning Inspectorate concludes that the application (including accompaniments) has been prepared to a standard that it considers satisfactory.

In respect of the discrepancies identified in box 30 of this checklist, to help facilitate an efficient and effective examination of the application s51 advice has been provided to the applicant in conjunction with the decision to accept the application.

That advice is published on the Great North Road Solar and Biodiversity Park project page of the National Infrastructure Project website: <https://national-infrastructure-consenting.planninginspectorate.gov.uk/projects/EN010162>

Noted.

### **Appendix 3 – List of revised documents submitted by the Applicant at post submission**

<b><i>Doc Ref.</i></b>	<b><i>Document Name</i></b>	<b><i>Reason for Submission</i></b>
1.4A	Guide to the Application	Updated to reflect updated documents submitted, along with a correction to the order of Volume 6 (Environmental Statement). Volume 6.3 ES Figures have been updated to consolidate the individual ES figures into a single bundle to improve clarity.
2.2A	Land Plans	<p>Updated to correct the labelling and legends on the plans.</p> <ul style="list-style-type: none"> <li>Land Plan Legend / BoR Description: Please refer to the <b>Book of Reference [EN010162/APP/4.3A]</b>, which sets out each category of land identified on the Land Plans and how these relate to categories in the BoR, and the respective powers sought in the dDCO.</li> <li>Sheet 2 cutlines: have been corrected</li> <li>Unlabelled plots: have been corrected</li> <li>Inset box has been added to Sheet 2.</li> </ul>
2.3A	Works Plans	Updated to include labels for each Work Number shown on each sheet.
2.6A	Water Bodies in a River Basin Management Plan	Updated to correct the figures within the Plan for improved clarity and consistency.
2.8A	Streets & Access Plans	Updated to label all roads and adjust the legend to improve clarity and consistency.
2.15A	Statutory and non-statutory features of Historic Environment Plan	Updated to correct the labelling and colouring on the plan.
3.1A	Draft Development Consent Order	Updated to reflect S51 advice. The street name of the reference SW-13 has been corrected in Schedule 3 of the dDCO.

4.3A	Book of Reference	Updated to correct a small number of discrepancies.
5.1.1A	Statement of Compliance	Updated the cover page with a correct document name.
5.3A	Habitats Regulations Screening Report	Updated to include update to the cover page and made amendments to some document referencing issues.
6.1A	Environmental Statement Volume 1, Non-Technical Summary Cover and Contents	Updated the document names for improved consistency.
6.2A	Environmental Statement Volume 2, Chapters Cover and Contents	Updated the document names for improved consistency.
6.3A	Environmental Statement Volume 3, Figures Cover and Contents	Volume 6.3 ES Figures have been updated to consolidate the individual ES figures into a single bundle to improve clarity
6.3.1A	Environmental Statement Volume 3, Chapter 1 Introduction Figures	The ES Chapter 1 figures have been consolidated into a single bundled file to improve ease of navigation. No changes have been made to the figures.
6.3.2A	Environmental Statement Volume 3, Chapter 2 Environmental Impact Assessment Figures	The ES Chapter 2 figures have been consolidated into a single bundled file to improve ease of navigation. No changes have been made to the figures.
6.3.4A	Environmental Statement Volume 3, Chapter 4 Alternatives Figures	The ES Chapter 4 figures have been consolidated into a single bundled file to improve ease of navigation. Updated a number of errors identified in the stated drawing names of Figure 4.2: Site Selection All Considerations.
6.3.5A	Environmental Statement Volume 3, Chapter 5 Development Description Figures	The ES Chapter 5 figures have been consolidated into a single bundled file to improve ease of navigation. No changes have been made to the figures.

6.3.7A	Environmental Statement Volume 3, Chapter 7 Landscape and Visual Impact Assessment Figures	The ES Chapter 7 figures have been consolidated into a single bundled file to improve ease of navigation.  Updated Figure 7.11 Visualisation Viewpoints which include Viewpoints 1-10, 13-18, 26-35, 37-38, 44-46, 48-55. Omitted visualisations and photomontages have been submitted
6.3.9A	Environmental Statement Volume 3, Chapter 9 Water Resources Figures	The ES Chapter 9 figures have been consolidated into a single bundled file to improve ease of navigation. Updated Figure 9.4 Watercourses within CSA and Figure 9.6 IDB Maintained Watercourses for improved clarity and consistency.
6.3.10A	Environmental Statement Volume 3, Chapter 10 Ground Conditions Figures	The ES Chapter 10 figures have been consolidated into a single bundled file to improve ease of navigation. Corrected the drawing name of Figure 10.2 Ground Conditions Constraint Plan
6.3.11A	Environmental Statement Volume 3, Chapter 11 Cultural Heritage and Archaeology Figures	The ES Chapter 11 figures have been consolidated into a single bundled file to improve ease of navigation. No changes have been made to the figures.
6.3.12A	Environmental Statement Volume 3, Chapter 12 Noise and Vibration Impact Assessment Figures	The ES Chapter 12 figures have been consolidated into a single bundled file to improve ease of navigation. No changes have been made to the figures.
6.3.13A	Environmental Statement Volume 3, Chapter 13 Socio-Economics and Tourism Figures	The ES Chapter 13 figures have been consolidated into a single bundled file to improve ease of navigation. No changes have been made to the figures.
6.3.14A	Environmental Statement Volume 3, Chapter 14 Traffic and Access Figures	The ES Chapter 14 figures have been consolidated into a single bundled file to improve ease of navigation. No changes have been made to the figures.

6.3.17A	Environmental Statement Volume 3, Chapter 17 Agricultural Land Figures	The ES Chapter 17 figures have been consolidated into a single bundled file to improve ease of navigation. No changes have been made to the figures.
6.3.18A	Environmental Statement Volume 3, Chapter 18 Recreation Figures	The ES Chapter 18 figures have been consolidated into a single bundled file to improve ease of navigation. No changes have been made to the figures.
6.4A	Environmental Statement Volume 4, Technical Appendices Cover and Contents	Updated the document names for improved consistency.
6.4.9.1A	Environmental Statement Volume 4 – Technical Appendix A9.1 – Flood Risk Assessment	Updated to reflect the s51 advice. The report layout is amended to include an appendix which consists of the existing figures in the FRA for improved clarity.
6.4.9.2A	Water Framework Directive Assessment	Updated to reflect the s51 advice. The report has been amended to include an appendix of figures, which allows them to be more clearly presented.
