Dear Sir / Madam,

Planning Act 2008 and The Infrastructure Planning (Examination Procedure) Rules 2010

Proposal:	Application by Elements Green Trent Limited ("the Applicant") for an Order granting Development Consent for the proposed Great North Road Solar and Biodiversity Park ("the Proposed Development")
PI Reference:	EN010162
LPA Reference:	26/01599/CONSUL

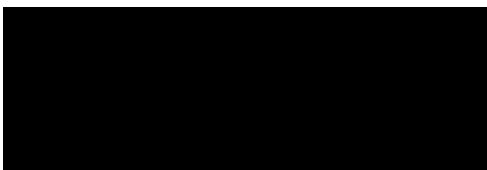

Thank you for your letter dated 30 September 2026 requesting information in connection with the above Nationally Significant Infrastructure Project.

In response to paragraph 6, I can confirm that Newark and Sherwood District Council raise no objections to National Highways being an approving body, alongside the Local Planning Authority, for the glint and glare mitigation strategy.

This would be particularly advantageous if National Highways have technical expertise in this field. As the Local Planning Authority, we do not necessarily have the in-house expertise to assess such mitigation strategies, and may have to rely upon external consultants to advise on such matters.

I trust that these comments are of assistance. Should you wish to discuss this matter further, please contact the undersigned.

Yours faithfully

Principal Planner (Development)
on behalf of Newark & Sherwood District Council
