

We act on behalf of EDF Energy (Thermal Generation) Limited (“EDF”). In respect of Deadline 1, which is the date for parties to submit Written Representations, this serves as EDF’s Written Representation which supplements its detailed relevant representation [RR-053].

EDF’s solicitors have been engaging with Steeple Solar Farm Limited (the “Promoter”) and its solicitors on the drafting of EDF’s preferred protective provisions. This engagement is advanced, and EDF expects to reach agreement with the Promoter on protective provisions during the course of the examination.

EDF will update the Examining Authority once discussions are concluded and will submit the agreed version of its protective provisions at that stage.

EDF reserves its position to make future submissions should agreement on the Protective Provisions not be reached with the Promoter.
