
CIVIL / STRUCTURAL DESIGN RISK MANAGEMENT

Abnormal or unusual residual risks associated with the design outcomes shown on this drawing are:-

RSK LDE LTD has followed its Design Risk Management process for Hazard Elimination and Risk reduction in developing the designs shown on this drawing.
Abnormal or unusual residual risks may be shown above where it is considered that such risk may not normally be expected by competent persons engaged on work of this nature or type.

Notes:

1. Drawing based on RES drawing ref. 04954-RES-LAY-DR-PE-003.
2. For site constraints please refer to above referenced drawing
3. Surface water drainage for BESS and substation subject to detailed design and technical approval from LLFA and IDB.
4. Drawing has been prepared only for Planning purposes and should not be used for Construction.

KEY

- Bess and Substation Site Boundary
- Indicative Levels (6.20+)
- Perforated Pipe
- Filter Drain
- Surface Water Collector Pipe
- Flow Control Chamber (FCC)
- Catch Pit (CP)
- Exceedance Flow Path
