---

Dear Team -

Please can you ensure Mr Robinson receives these photos of a large group of Linnets - which he asked me to send during the hearing today . The last image is particularly remarkable as my birding friends all say they have never seen such a large grouping .

These were taken by a woman in the village last year I think in late August . Taken down Springs Lane in Sturton - the lane leading up to high house and where the solar panels are proposed .

These flocks are regularly seen . I have many more photos of local wildlife and we are encouraging people to report their sightings to the MBN , I spot or NGBRC . We have found they seem to be slow to process .

Thank you for your interest. Happy to send more .

I just want you to know I am not a [REDACTED] . I am an [REDACTED] and have always voted [REDACTED] .

Please can you let me know that MR Robinson has received this .

Kind regards ,  
Karen Hodgson
