<b>Status of Negotiations with Individual Landowners</b>									
88302	Alan Robert Gray	Yes	No	Yes	No	CAL	03/08	As part of the Early Informal Consultation, land within the ownership of the Watkins was included as land to be investigated. As part of the initial discussions with the Watkins it was noted that the inclusion of the Watkins land "islanded" circa 20 acres within a different ownership. As a result, negotiations also commenced with the Grays. Negotiations have been ongoing since October 2023 and Heads of Terms have been agreed. A voluntary agreement is currently with the respective solicitors for progression. Whilst the Applicant considers that there is high certainty agreement will be reached, whether this is resolved during examination is less likely. The Applicant will continue to engage with the affected party after close of examination.	Medium

Engagement with representatives of SNSE commenced in mid-2022 focused on the possibility of utilising a proportion of the Sturton Estate for the development of a renewable energy scheme. These negotiations continued, periodically, through early 2023 as the extent of land requirements was developed in conjunction with SNSE. Early Informal Consultation was undertaken October - December 2023 based upon desk-based assessments. The outcome of the consultation allowed for the development of the Authorised Development and provided enough information to enable a voluntary agreement to be reached with SNSE in May 2024.
