## **1      Online feedback form completion page**

# Thank you for taking the time to complete this form and provide us with your feedback. Your views are important to us.

When this initial stage of consultation closes on 26 April 2024 we will review all the comments we receive, together with the findings from our ongoing environmental and technical studies, to help us refine our proposals for Lime Down Solar Park.

We will then carry out a further stage of consultation to ask for your views on our more detailed plans for the project. We anticipate this second consultation will take place later this year.

After this second stage of consultation has closed, we will review our proposals in light of all the feedback submitted, alongside the findings from our ongoing assessments, so we can finalise and submit an application for development consent to the Planning Inspectorate.

As the developer, we have a duty to demonstrate how we have taken your views into account in developing our final proposals.

**Subject:** Thank you for your email

Dear Sender,

Thank you for contacting Lime Down Solar Park. Please accept this as confirmation that we have received your email.

Our Stage One community consultation ran for six weeks and closed on 26 April 2024. We are now reviewing all of the comments we received over the course of the consultation period, and using this feedback, along with the findings from ongoing environmental studies, to help us refine our proposals for Lime Down Solar Park ahead of a further stage of consultation later this year.

We will soon produce a Stage One Consultation Summary Report which will include a summary of the feedback submitted to this consultation along with an overview of how we've taken your views into account as we continue to develop our proposals. If you would like to be notified directly when the Consultation Summary Report is made available, or receive information about future engagement and the next stage of consultation we will carry out on our more detailed proposals for Lime Down Solar Park, please register your details with us by clicking this link

For more information, please visit our website at <https://www.limedownsolar.co.uk/>

Alternatively, please do get in touch using the project-dedicated communications lines listed below, which remain open from Monday to Friday (excluding bank holidays) between 9am and 5pm.

Thank you for getting in touch with Lime Down Solar Park.

Kind regards,

Community Relations Team

**4      Written feedback acknowledgement letter – 15 May  
2024**

15 May 2024

**Lime Down Solar Park – Acknowledgement of receipt of consultation feedback.**

Dear ,

I am writing to confirm and acknowledge receipt of the feedback you submitted in writing to the initial stage of consultation we held in respect of our early stage proposals for Lime Down Solar Park.

Thank you for taking the time to provide us with your views and comments. Further to this consultation closing on 26 April 2024 we are now carefully reviewing all the submissions we received so we can take those views into account as we continue to evolve our plans.

When we have completed our review of all the feedback we received, we will produce a Stage One Consultation Summary Report. This will include a summary of all the issues raised through consultation and our response to how those views have been considered as we continue to shape and refine the scheme's details.

We will then come back later in the year to present our detailed proposals for the project as part of a second statutory consultation, giving you the opportunity to have another say ahead of us finalising and submitting our application for development consent to the Planning Inspectorate.

For this second stage of consultation, we will be asking for your views on:

- Our updated design for the solar park, including the location of equipment;
- The route an underground cable could follow to connect the solar park into the national grid at Melksham substation;
- How we are proposing to build the project; and
- The measures we are proposing to reduce the impact of the project.

While this first stage of consultation has now closed, if you would like to receive updates and information about the ongoing development process and future consultation opportunities directly you can register your details on the project website [www.limesdownsolar.co.uk](http://www.limesdownsolar.co.uk).

In the meantime, should you need any further assistance please do get in touch with the project community relations team by calling us on **0808 175 6656** or emailing us at [info@limesdownsolar.co.uk](mailto:info@limesdownsolar.co.uk). You can also send a letter to **FREEPOST Lime Down Solar**.

T: 0808 175 6656
