Ms Janine Laver
Lead Member of the Examining Authority
The Planning Inspectorate
c/o QUADIENT
69 Buckingham Avenue
Slough
SL1 4PN

1 April 2026

Dear Examining Authority,

**Lime Down Solar Park Development Consent Order – Procedural
Deadline B Submissions**

Planning Inspectorate Case Reference: EN010168

Further to the Rule 6 Letter **[PD-006]**, published on Monday 9 February 2026, I am writing to provide the Applicant's submissions for Procedural Deadline B of the Lime Down Solar Park Development Consent Order Examination.

The documents submitted at Procedural Deadline B are set out in tabulated form in Appendix A of this letter.

Comments on Relevant Representations (RRs)

As set out in a letter to the Planning Inspectorate from the Applicant **[AS-007]**, responses to RRs submitted by members of the public and any non-statutory parties not responded to at Procedural Deadline A, are provided at Procedural Deadline B.

Submissions made at Procedural Deadline A, which were akin to RRs, and additional submissions accepted at the discretion of the Examining Authority (AS-008 to AS-012) have also been addressed in the Applicant's Response to Relevant Representations (Part 2) **[EN010168/EXAM/9.3]**.

Draft Itinerary for an Accompanied Site Inspection

In accordance with the Rule 6 Letter **[PD-006]**, the Applicant has provided a draft Itinerary for an Accompanied Site Inspection which has sought to focus on private land to which access is required, taking account of:

- locations referred to in the relevant representations received;
- any other locations at which the applicant has predicted likely significant environmental effects; and,
- the locations suggested by interested parties submitted by procedural deadline A submissions made at Procedural Deadline A.

Use of Artificial Intelligence

In accordance with the procedural decision made by the Examining Authority about the use of artificial intelligence (AI) in submissions, as set out in Annex F of the Rule 6 Letter **[PD-006]**, we can confirm that there has only been minor use of AI in the Applicant's Responses to Relevant Representations (Part 2) **[EN010168/EXAM/9.3]**, for spelling and grammar checks, consistency checks (including document titles, examination library references and formatting), and to improve the readability of technical text.

All text has been drafted by subject matter experts within the project team before the use of AI. All changes made or suggested by CoPilot have been checked by an appropriately knowledgeable or qualified person before inclusion. This means that all text has been validated for its content and accuracy by the author before submission of the Applicant's Response to Relevant Representations (Part 2) **[EN010168/EXAM/9.3]**.

If there are any queries about the content of this letter, please do not hesitate to contact me.

Yours sincerely,

To contact the community relations team:
