1 Introduction

1.1 Purpose of this document

1.1.1 An application (the 'Application') was made to the Secretary of State for Energy Security and Net Zero for a Development Consent Order (DCO) under section 37 of the Planning Act 2008 (PA 2008) for the Lime Down Solar Park (the 'Scheme'). The Application was submitted by Lime Down Solar Park Limited (the 'Applicant') on 19 September 2025 and was accepted for examination on 17 October 2025. The examination into the Application is due to commence on 21 April 2026.

1.1.2 As requested in the Rule 6 letter **[PD-006]** (issued on 9 February 2026), the Examining Authority (ExA) requires the Applicant to provide a draft itinerary for an Accompanied Site Inspection (ASI) for submission at Procedural Deadline B (1 April 2026) which should focus on private land to which access is required, taking account of:

- Locations referred to in the relevant representations received;
- Any other locations at which the Applicant has predicted likely significant environmental effects; and,
- The locations suggested by the interested parties submitted at Procedural Deadline A.

1.1.3 Accordingly, the purpose of this document is to provide a draft itinerary for an ASI, taking into account the above, for consideration by the ExA for an ASI to be undertaken on 11 June 2026 as confirmed in the Rule 8 Letter **[PD-007]**.

1.2 Approach to identify the ASI route

1.2.1 The Applicant has taken relevant representations and likely significant effects into account when identifying the locations set out within this draft itinerary. Table 2-1 sets out a list of locations which the Applicant considers important for the ExA to visit in understanding the Scheme.

1.2.2 It is recognised that the ExA has undertaken Unaccompanied Site Inspections (USI) between 24 February 2026 to 26 February 2026 **[EV1-001]** and on 23 April 2026¹, and accordingly the Applicant has sought to identify a route that does not duplicate locations already visited, albeit it is acknowledged that the USI undertaken was comprehensive.

¹ No Examination Library reference number at the time of writing.

1.2.3 The Applicant welcomes further comments from the ExA and other interested parties to finalise an agreed route and itinerary for the ASI.

1.2.4 Comments made by the ExA within the Rule 8 letter **[PD-007]** have been considered within this revision.

1.3 Structure of this document

1.3.1 This document is structured as follows:

- Section 1: Introduction
- Section 2: Draft Itinerary for the ASI
- Annex A: Sign-in Sheet
- Annex B: Route Map

2 Draft Itinerary for the ASI

2.1 Overview

- 2.1.1 The draft itinerary for the ASI is set out in Table 2-1. The ASI comprises a combination of stops and circular walks to observe the Scheme. Proposed timings are set out along with a description of what is to be observed at each location. While the Applicant will endeavour to follow the proposed route and timings as closely as possible, external factors such as weather, traffic, and land access may slightly affect these timings. Those who intend to join the ASI at a specific location along the route should inform the Planning Inspectorate's case team via email or telephone in advance.
- 2.1.2 It is important to note that access to some inspection points on the ASI will be subject to the landowner's approval. While the Applicant is responsible for requesting that such access be granted for the purpose of the ASI, it may not be possible to access parking or inspection points where the landowner's consent is withheld. In the event that a request to access the parking or inspection point proposed for the ASI is declined by the landowner, the Applicant will inform the ExA at the earliest opportunity and suggest alternative arrangements to replicate the routing as closely as practicable.
- 2.1.3 A plan showing the proposed route and comfort breaks is provided in Annex B.

2.2 Health and Safety

- 2.2.1 It will be necessary to wear a high visibility vest during the ASI. The Applicant will provide a high visibility vest to attendees for use during the course of the ASI.
- 2.2.2 The ASI will involve walking on terrain that may be uneven. Anyone who may find it challenging to walk in these conditions is advised to assess whether it is suitable for them to attend the ASI, either partially or in its entirety.
- 2.2.3 Some obstructions on public rights of way (PRoWs) and at field entrances may require attendees to crouch down to pass.
- 2.2.4 A first aid kit will be provided on the minibus.
- 2.2.5 The Applicant will carry out a walk of the route ahead of the ASI to identify potential hazards in advance in order to inform a Health and Safety Briefing that will be provided to all attendees at the start of the ASI.

2.3 Transport

- 2.3.1 Given the dispersed nature of the inspection points, it is considered more efficient and safer for all parties to travel in minibuses. Therefore, the Applicant proposes to hire minibuses to aid transit around the site.
- 2.3.2 The Applicant will provide transport for all attendees of the ASI. The meeting place to board the transport (and hence also the starting point for the ASI) is Stanton St Quintin Parish Hall.
- 2.3.3 The minibuses provided by the Applicant will return to Stanton St Quintin Parish Hall at the conclusion of the ASI.

2.4 Clothing

- 2.4.1 The ASI may include some walking on uneven or wet ground. It is therefore advised that attendees bring sturdy footwear and wear clothing that is appropriate for the weather and conditions on the day.
- 2.4.2 Foliage on Public Rights of Way and at field boundaries/entrances can be tall and overgrown. All attendees are requested to wear clothing that keeps their arms and legs covered at all times.

2.5 Comfort Breaks

- 2.5.1 Comfort breaks will be available at Stanton St Quintin Parish Hall in the morning before departing for the ASI, during lunch at Waitrose and after the ASI at Stanton St Quintin Hall.

2.6 On the day

- 2.6.1 With regards to the proposed comfort breaks and lunch break, please note that food and refreshments will not be provided by the Applicant. The route proposes to stop at Waitrose in Malmesbury for attendees to purchase their own lunch and to provide a comfort break.
- 2.6.2 The Applicant will provide paper copies of the itinerary and the route map to aid navigation.

2.7 Draft itinerary for an Accompanied Site Inspection

2.7.1 Table 2-1 sets out the draft itinerary for an ASI, alongside timings and the reason for the selection of the location.
