

Island Green Power are grossly misrepresenting the negotiations with us as landowners on the cable route. When approached by them, we consistently say that we are not willing to have the cable route destroy our land. When reporting how negotiations with landowners are proceeding, Island Green Power say they are going brilliantly. That is a lie. Their tactic is clearly to ignore us. Then wait until the Secretary of State gives the project the green light. The result is that we are utterly powerless and unheard.
