

I am very concerned about the increase in traffic on the roads around here with all the construction traffic. I regularly ride my pony along the currently quiet roads and I am worried that it will become unsafe to do so. The noise levels will also increase which may upset my pony. I sometimes also ride with friends and we will not be able to do this if the construction of Lime Down goes ahead. I am also concerned about the local wildlife, recently while riding I heard a cuckoo which will never happen again if the countryside is scarred by the construction of Lime Down.
