1 Land and Rights Negotiations Tracker Introduction

1.1 Summary

- 1.1.1 This Land Rights Tracker (“LRT”) has been prepared by Lime Down Solar Park Limited (“the Applicant”) as part of its application for a development consent order (“DCO”) under the Planning Act 2008 for the Lime Down Solar Park (the “Scheme”)
- 1.1.2 The LRT provides the details of category 1 land interests owning land within the Order Limits and explains the status of the negotiations with these affected parties. It will be updated throughout Examination to provide an overview of negotiations as these progress with affected parties.
- 1.1.3 In addition to landowners, the LRT includes interests held by statutory undertakers and other utility owners and provides a summary of negotiations and progress made towards agreeing a form of protective provisions to be included in the DCO and/or side agreement.
- 1.1.4 The Applicant is engaging with Crown authorities to ascertain if consent pursuant to section 135 of the Planning Act 2008 is required.

1.2 Part 1 – Category 1 Interests (Owners)

- 1.2.1 Part 1 of the LRT includes category 1 owners identified within the **Book of Reference [EN010168/APP/4.3]**, where the acquisition of freehold land, permanent rights and temporary possession is required, and the land interest is able to provide proof of title.
- 1.2.2 Where no interest has come forward declaring ownership or proving ownership of unregistered plots, negotiations are not ongoing. These plots will be kept under review during the Examination and if an interest comes forward, or evidence of ownership is provided, the LRT will be updated accordingly.
- 1.2.3 Where a land interest is identified within the **Book of Reference [EN010168/APP/4.3]**, as having an interest in respect of the subsoil beneath a publicly adopted highway, these plots have not been included as no voluntary land rights are being sought other than engaging with the relevant highways authority as part of the DCO process.
- 1.2.4 Category 1 occupiers, lessees and tenants identified within the **Book of Reference [EN010168/APP/4.3]**, have not been included within the LRT. The Applicant is requesting such interests are signatories to voluntary agreements being sought with category 1 owners where required.

1.3 Part 2 – Statutory Undertakers and Crown Authorities

- 1.3.1 Part 2 of the LRT includes interests identified as statutory undertakers and other utility owners within Part 1 of the **Book of Reference [EN010168/APP/4.3]**, and

provides commentary in respect of protective provisions and/or any side agreements.

1.3.2 Crown authorities have been included where the Applicant understands consent is required pursuant to section 135 of the Planning Act 2008.

1.4 **Part 3 – Tenants**

1.4.1 Part 3 of the LRT includes interests identified as tenants, as confirmed by desktop referencing and/or direct communication.

1.5 **Part 4 – Overview Table**

1.5.1 Part 4 of the LRT comprises an overview table which sets out the total area (ha), total number of plots and total number of affected parties by each land type.

1.6 **Other Interests**

1.6.1 The Applicant is not seeking to enter into any voluntary property agreements with Category 3 interests identified in the Book of Reference [APP/4.3] located outside of the Order Limits. Category 3 interests have therefore been excluded from the LRT.

1.7 **Status Key**

The table below explains the status colour provided in the Status of Negotiations column to reflect the following:

Status colour	Comment
	Option agreement signed
	Heads of Terms agreed and option agreement in negotiation
	Heads of Terms negotiations ongoing
	Heads of Terms negotiations not commenced
	Heads of Terms agreement unlikely before close of examination
	Heads of Terms negotiations unsuccessful
	No landowner response to correspondence from the Applicant
	No voluntary agreement being sought

2 Explanatory Notes

2.1 Note on Temporary Possession

2.1.1 Until the detail design stage, it is not possible to define specific periods or durations for which temporary possession is required over individual plots. Paragraph 5.5.3 of the Statement of Reasons **[APP-018]** sets out the requirements for temporary possession and use of land for the Scheme as per Article 31 of the draft DCO **[APP-016]**. The duration of temporary possession will depend on a number of factors, including but not limited to:

- the final construction programme; and
- site specific issues such as ground conditions or details of construction methodology, none of which will be known until post consent.

2.1.2 *Consequently, owing to the need for flexibility, the worst-case estimate for temporary possession for all plots is the full construction period as set out in to Chapter 3 of the ES [APP-055] and in Chapters 7 to Chapter 20 of the ES [APP-059 to APP-072] plus a period of up to one year following completion of that part of the authorised development as set out in Article 31 of the draft DCO [APP-016].*

2.1.3 For periods where plots are occupied temporarily, Affected Parties will be compensated for reasonable and evidenced losses or damage as set out in Schedule 10 of the draft DCO **[APP-016]**.

Cable Route Corridor Construction Access Points

2.1.4 During construction, 28 access points will be used to get into and out of the land within the Cable Route Corridor (refer to **Environmental Statement (ES) Volume 2, Figure 3-2 Key Construction Phase Features [APP-082]**). These access points are planned at approximately 1 km intervals so that workers, materials, and equipment can reach each section of the site using a temporary haul road inside the Cable Route Corridor (refer to paragraph 13.10.66 of **ES Volume 1, Chapter 13: Transport and Access [APP-065]** for anticipated traffic movements). The access points have been chosen to allow for locations where trenchless methods may be needed to install cables to avoid engineering or environmental constraints, these locations are known as Avoidance Areas. Because the temporary haul road will not pass through key constraints (such as the M4 crossing, railway crossings and sensitive watercourses) within a number of the Avoidance Areas, access points are needed on both sides of these areas. In addition, where the Cable Route Corridor crosses the Great Western Main Line, a number of access points have been identified to enable flexibility in crossing the railway by trenchless methods or by using the existing bridges..

Abnormal Indivisible Load (AIL)

- 2.1.5 To safely accommodate AIL vehicle movements along construction routes, temporary mitigation at nine locations has been identified. The temporary mitigation includes the removal of street furniture, minor widening of junctions, and vegetation removal (refer to paragraph 5.4.1 of **Outline Construction Traffic Management Plan (CTMP) [APP-277]**). Where temporary mitigation is implemented, elements that can be replaced (such as street furniture) will be reinstated following the AIL movements. However, the identified locations will be used periodically throughout the duration of the 24 month construction phase to facilitate AILs being brought to the Site.

Temporary Construction Compounds

- 2.1.6 There are 16 Temporary Construction Compounds within the order limits (refer to **Environmental Statement Volume 2, Figure 3-2 Key Construction Phase Features [APP-082]**). Nine Temporary Construction Compounds will become part of the Solar PV Sites following the construction phase. Seven Temporary Construction Compounds are identified within the Cable Route Corridor. The Cable Route Corridor Temporary Construction Compounds will be required for the duration of the construction phase to facilitate the initial duct installation, cable pulling and reinstatement to be carried out efficiently; further details are below.

Timing of construction in the Cable Route Corridor

- 2.1.7 Each section of the Cable Route Corridor will be constructed in approximately 5.5km sections, broadly in two stages: firstly site access, site preparation, trenching and duct installation over an approximate eight to nine month period, followed by cable pulling and reinstatement over an approximate four to five month period. Typically, there are a number of months in between these two stages depending on other aspects of the Scheme, such as trenchless installation of cables and 400 kV Substation commissioning. Therefore, Cable Route Corridor access points and compounds will be used throughout the 18 month construction phase. When not in active use, temporary accesses from the highway will be made secure to prevent entry to the site by members of the public.

Access Notification

- 2.1.8 Where access is required to land for temporary construction work, landowners will be notified a minimum of 14 days in advance of enabling and installation works. Communication with landowners will be ongoing and maintained by the Community Liaison Officer.

266498, 266503	Alexander William Martin Mitchell, Burges Salmon Trustees Limited, James Fuller Bt	Georgina Bush	Cat 1 - Owner	15-014	15	As described in the Book of Reference	Land is subject to Acquisition of Rights	5A - 400kV cable corridor	n/a			<p>Negotiations for rights</p> <p>The Applicant issued populated Heads of Terms to the landowner on 8 September 2025. The Applicant will continue to engage with the landowner and is confident the necessary land rights can be acquired by voluntary agreement.</p> <p>Procedural Deadline A</p> <p>The Applicant continues to engage with the landowner and their agent, issuing updated Heads of Terms on 21 October 2025. The Applicant wrote to the landowner 2 December 2025 and understands the landowner and their agent met on 10 December 2025 to discuss the Heads of Terms. The Applicant emailed the agent on 15 January 2026 and 18 February 2026 is currently awaiting feedback from the landowner and their agent. The Applicant will continue to engage and offer meetings and is hopeful the necessary land rights can be acquired by voluntary agreement.</p> <p>Deadline 1</p> <p>The Applicant continues to seek to engage with the landowner and their agent. Since Procedural Deadline A, the Applicant has extended the incentive deadline for signing the Heads of Terms. The Applicant remains committed to engaging with the landowner having issued them an updated response on 24 February 2026, to which The Applicant has not received any feedback. The Applicant will continue to engage and offer meetings and is hopeful the necessary land rights can be acquired by voluntary agreement.</p> <p>Deadline 2</p> <p>The Applicant continues to seek engage with the landowner and their agent, most recently emailing the agent on 19 May 2026. The Applicant is currently awaiting feedback and will continue to offer meetings to discuss the Heads of Terms.</p> <p>Deadline 3</p> <p>The Applicant continues to seek engage with the landowner and their agent, most recently receiving a response from the landowner's agent on 4 June 2026. The Applicant will continue to offer meetings to discuss the Heads of Terms.</p>					
285951	Anna Smith	Ben Compton	Cat 1 - Owner	04-048, 04-049, 04-050, 04-051, 04-052, 04-053, 04-054, 04-062, 04-063, 04-064, 04-065, 04-066, 04-067, 04-068	4	As described in the Book of Reference	Land is subject to Freehold Acquisition	1D, 5A, 5B, 6, 1 - Solar PV cabling, 400 kV cable corridor, 132kV cabling, General works, Solar PV area	n/a			<p>Option Holder</p> <p>Following initial engagement, the Applicant negotiated Heads of Terms, which were agreed on 4 March 2024. The Parties then worked together to agree an option agreement which was signed and entered into on 8 August 2025 for the use of the land as part of the Scheme.</p>					
266494, 266495	Anne Elizabeth Mary Sawtell- Gist, Patricia Alexandra Sawtell	George King	Cat 1 - Owner	15-021	15	As described in the Book of Reference	Land is subject to Acquisition of Rights	5A - 400 kV cable corridor	n/a			<p>Negotiations for rights</p> <p>The Applicant issued populated Heads of Terms to the landowner on 8 September 2025. The Applicant will continue to engage with the landowner and is confident the necessary land rights can be acquired by voluntary agreement.</p> <p>Procedural Deadline A</p> <p>The Applicant continues to engage with the landowner and their agent, issuing updated Heads of Terms on 21 October 2025. The Applicant met with the landowner on 9 October 2025 to discuss the Heads of Terms. The Applicant wrote to the landowner on 2 December 2025 and most recently sent an email to the agent on 3 February 2026. The Applicant is currently awaiting further feedback from the landowner and their agent. The Applicant will continue to engage and offer meetings and is confident the necessary land rights can be acquired by voluntary agreement.</p> <p>Deadline 1</p> <p>The Applicant continues to engage with the landowner and their agent. Since Procedural Deadline A, The Applicant wrote to the agent on 9 March with amended Heads of Terms, with the Landowners agent responding with requested changes. On the 23 March 2026 The Applicant responded with amended Heads of Terms, with only 5 clauses and commercials outstanding. The Applicant met with the Landowners agent on 10 April 2026 to discuss the Heads of Terms and finished the meeting with agreed commercials and only 2 clauses to be agreed in the Heads of Terms. The Applicant will continue to engage and offer meetings and is confident the necessary land rights can be acquired by voluntary agreement.</p> <p>Deadline 2</p> <p>The Applicant continues to engage with the landowner and their agent. Since Deadline 1, the Applicant has continued work towards resolving the final material clause of the voluntary agreement and most recently had a call with the landowner's agent on 19 May 2026. The Applicant will continue to engage with the landowner and their agent and is confident the necessary land rights can be acquired by voluntary agreement.</p> <p>Deadline 3</p> <p>The Applicant continues to engage with the landowner and their agent. Since Deadline 2, the Applicant has continued to work towards resolving the final material clauses of the voluntary agreement. The Applicant most recently emailed the landowner's agent on 11 June 2026 with updated Heads of Terms. The Applicant will continue to engage with the landowner and their agent and is confident the necessary land rights can be acquired by voluntary agreement.</p>					
278876, 278878	Antony Phillip Charles Creed, Sarah Margaret Creed		Cat 1 - Owner	14-015	14	As described in the Book of Reference	Land is subject to Temporary Possession	8A - Temporary access	n/a			<p>Negotiations for temporary possession</p> <p>The Applicant intends to negotiate a temporary licence agreement for the temporary access rights prior to commencement of works post consent. The Applicant is endeavouring to progress negotiations with the landowner on this approach owing to the temporary use and has offered meetings to discuss the rights required.</p> <p>Procedural Deadline A</p> <p>The Applicant is seeking to negotiate a temporary licence agreement for the temporary access rights prior to commencement of works post consent. The Applicant is confident the temporary access rights can be agreed voluntarily.</p> <p>Deadline 1</p> <p>The Applicant is seeking to negotiate a temporary licence agreement for temporary access rights prior to commencement of works post consent. Temporary access will be required for the three years of construction. The Applicant is confident the temporary access rights can be agreed voluntarily.</p> <p>Deadline 2</p> <p>The Applicant is seeking to negotiate a temporary licence agreement for temporary access rights prior to commencement of works post consent. Temporary access will be required for the three years of construction. The Applicant is confident the temporary access rights can be agreed voluntarily.</p> <p>Deadline 3</p> <p>The Applicant is seeking to negotiate a temporary licence agreement for temporary access rights prior to commencement of works post consent. Temporary access will be required for the three years of construction. The Applicant is confident the temporary access rights can be agreed voluntarily.</p>
