1 Introduction

1.1.1 This Book of Reference ('BoR') relates to the powers of compulsory acquisition sought in the development consent order ('DCO') application by Lime Down Solar Park Limited ('the Applicant'), to the Secretary of State ('SoS') under the Planning Act 2008 ('the PA 2008').

1.1.2 Lime Down Solar Park (the Scheme) comprises a solar photovoltaic (PV) electricity generating station of over 50MW and associated development comprising Battery Energy Storage System (BESS), substations, grid connection infrastructure, and other infrastructure integral to the construction, operation and maintenance, and decommissioning phases.

1.1.3 The PV electricity generating station, substations and BESS would be contained within five land parcels referred to as Lime Down A, B, C, D and E (the 'Solar PV Sites').

1.1.4 The Cable Route Corridor is the area within which the export connection cables (the 'Grid Connection Cables') would be located to connect the Solar PV Sites to the National Grid at the existing Melksham Substation and the area within which cables connecting the Solar PV Sites would be located (the 'Interconnecting Cables'). A full description of the proposed Scheme is provided in **ES Volume 1, Chapter 3: The Scheme (EN010168/APP/6.1).**

1.1.5 Development consent is required to the extent that the development is or forms part of a Nationally Significant Infrastructure Project ('NSIP') pursuant to sections 14(1)(a) and 15(2) of the PA 2008. The Project comprises a generating station of over 50 megawatts (MW) and is therefore classified as a NSIP. Further details are set out in Chapter 3: The Scheme.

1.1.6 The Order limits comprise a total area of 1,237 hectares (ha) of land. Of this, the Solar PV Sites comprise a total area of approximately 749 ha and the Cable Route Corridor covers a total area of approximately 463 ha. The Scheme also includes land required for the Highway Improvement Areas (approximately 18 ha (noting that approximately 6 ha overlaps with the Cable Route Corridor)) and land required for works to the Existing National Grid Melksham Substation (approximately 13 ha). and land required for Temporary Construction Compounds. These areas of land cover a total area of approximately 31 ha.

1.1.7 In order to construct, operate, maintain and decommission the Scheme, a series of land rights and interests in land will be required on a permanent and temporary basis. In the event it is not possible to acquire the land rights and interests by agreement, it will be necessary to compulsorily acquire land and rights for the purposes of developing the Scheme and as such, the DCO includes powers to compulsorily acquire land and rights over land.

2 Purpose of Document

2.1.1 Section 122 of the PA 2008 allows development consent orders to be granted with powers to compulsorily acquire land included within them. The DCO seeks powers to acquire land and to acquire new and existing rights over land, as well as powers to override existing easements and other rights and for the extinguishment of private rights in land which is compulsorily acquired. The DCO also seeks powers to take temporary possession of land. The purpose of these powers is to enable the construction, operation, maintenance and decommissioning of the Scheme.

2.1.2 The purpose of this BoR is to describe the land (referred to as 'the Order Land') subject to compulsory acquisition and temporary possession powers pursuant to the DCO and to provide details of persons with an interest in the Order Land and any persons who may be able to make a relevant claim. This BoR has been prepared in accordance with the requirements of Regulation 5(2)(d) of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 ('APFP Regulations').

2.1.3 The Order Land is required to deliver the authorised development, as described in detail in Schedule 1 of the DCO and shown on the Works Plans.

2.1.4 Every parcel of the Order Land is identified on a plot-by-plot basis and a unique number has been ascribed to each plot. The plots are shown on the Land Plans and the Crown Land Plan which are submitted with the Application.

2.1.5 The BoR provides the area in square metres of the Order Land. Each measurement is rounded up to the nearest whole square metre.

2.1.6 Each plot is coloured on the Land Plans. The colour of the plot indicates the purpose for which the land in that plot is required:

- **Pink:** Freehold to be compulsorily acquired and temporary use of land and in relation to which it is proposed to extinguish easements, servitudes and other private rights;
- **Blue:** New rights (including restrictions) to be compulsorily acquired and temporary use of land and in relation to which it is proposed to suspend or extinguish easements, servitudes and other private rights;
- **Yellow:** Temporary use of land and in relation to which it is proposed to temporarily suspend easements, servitudes and other private rights; and
- **Grey:** No rights are to be sought.

2.1.7 By virtue of Article 32 (Temporary use of land for maintaining the authorised project) of the DCO, any land within the Order limits which is reasonably required for the purpose of maintaining the authorised development may be entered and/or temporarily possessed.

2.1.8 This BoR is comprised of five Parts, in accordance with Regulation 7(1) of the APFP Regulations as detailed in Section 3.

3.2.3 It is considered that Category 3 contains parties with legal rights or interests over the land within the Order Land. Category 3 also contains persons with interests in land outside the Order Land who, it is considered, might be able to make a relevant claim (as defined above). Certain relevant persons included within Part 1 of the BoR have also been included within Part 2 where their rights may be affected.
