This drawing is scaled at paper size A0, therefore any prints taken at smaller sizes will affect accuracy of the measurement units and should not be scaled against.

The local authorities' boundaries and titles are correct at the time of submission.

No historically important hedgerows have been identified within the order limits.

For information on the types of works (i.e. removed / affected managed / potentially impacted) and the removal of trees, refer to the ES Appendix 12-8: Arboricultural Impact Assessment (Doc Ref. 6.3).

Tree categories as defined by BS 5837:2012.

Tree locations are based on aerial imagery and GPS co-ordinates from on site walkover.

*Indicates a tree / group whose position is approximate as based upon aerial photography and on site observations.

The original of this drawing was produced in colour - a monochrome copy should not be relied upon.

Hedgerow loss is shown indicatively; the final location of hedgerow removals may change, however the extent of removal will be consistent with that shown. Where the position of hedgerow loss is subject to change, it will avoid the removal of moderate or high quality tree features.

Tree categories as defined by BS 5837:2012.

Tree locations are based on aerial imagery and GPS co-ordinates from on site walkover.

*Indicates a tree / group whose position is approximate as based upon aerial photography and on site observations.

The original of this drawing was produced in colour – a monochrome copy should not be relied upon.

Hedgerow loss is shown indicatively; the final location of hedgerow removals may change, however the extent of removal will be consistent with that shown. Where the position of hedgerow loss is subject to change, it will avoid the removal of moderate or high quality tree features.
