Earth Viewshed – Overhead
Line Inter-Array Connections

APFP Regulation 5(2)(a)

Infrastructure Planning (Applications:
Prescribed Forms and Procedure)
Regulations 2009

March 2026

- NOTES:**
1. The Zone of Theoretical Visibility (ZTV) is based upon points along the external boundary to the Inter Array (Overground), with an anticipated height of 15m and an observer height of 1.6m.
 2. The ZTV has been generated using Environment Agency Digital Terrain Model (DTM) with a 2m resolution.
 3. The ZTV has been produced in order to inform 'on the ground' visual assessment and is based on a 'bare earth' model that does not include effects of screening derived from buildings or vegetation.
 4. ZTV calculated using ArcPro Viewshed tool.

This drawing has been prepared for the use of AECOM's client. It may not be used, modified, reproduced or relied upon by third parties, except as agreed by AECOM or as required by law. AECOM accepts no responsibility, and denies any liability whatsoever, to any party that uses or relies on this drawing without AECOM's express written consent. Do not scale this document. All measurements must be obtained from the stated dimensions.
