Letter of Support & Justification for Approval

Applicant: Meridian Solar Farm Ltd Subject: Planning Approval & Secretary of State Consideration – Security & Infrastructure Justification

Dear Planning Team,

We write in support of the planning application submitted by Meridian Solar Farm Ltd, and to outline the clear, compelling reasons why this project should receive approval at both the local planning authority level and, where applicable, consideration by the Secretary of State under Nationally Significant Infrastructure Project (NSIP) criteria.

Meridian Solar Farm represents a strategically important renewable energy development that aligns directly with the UK's national commitments to decarbonisation, energy security, and long-term infrastructure resilience. The project delivers measurable environmental, economic, and social value while maintaining full compliance with planning, ecological, and security requirements through MK

Meridian Solar Farm Ltd has demonstrated:

- Strong alignment with national renewable energy policy**
- Full compliance with environmental and planning requirements**
- A robust security and operational plan delivered by MK to Meridian**
- Clear long-term benefits to the community, environment, and national energy infrastructure**

For these reasons, we respectfully submit that Meridian Solar Farm should receive planning approval and, where applicable, Secretary of State endorsement as a project that materially contributes to the UK's renewable energy strategy and infrastructure resilience.

MK remains fully committed to supporting Meridian Solar Farm Ltd through planning, construction, and operational phases

kind regards

Mark Humphrey
