

Meridian Solar Farm

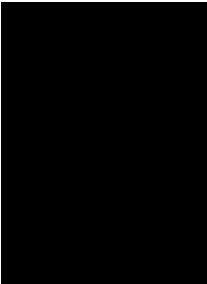

Cllr Sheard

Thank you Sam,

My only other concerns I wished to raise, but more as a holistic comment for the NSIP processes is that to date, all of them in Lincolnshire have been approved by the secretary of state, including the latest one (One Earth Solar), even against the advice/recommendation of the EX to not approve. I believe transparency could be better, such that I have also had grounds to submit a FOI request to ask if any legal advice was taken by the SOS in making an overriding decision to go against the EX, they have confirmed they have, however refused to release the content of that advice. Something that this panel may wish to be aware of or request from their fellow examiners.

No other system has every decision overturned in life, therefore I question the irresponsibility and lack of transparency in making legal and safe decisions when it comes to nsips.

Kind Regards

 Cllr Paul Lock
