Submission ID: S21FD8425

We would also like to ask the following questions following discussions that were had during the prelim meetings:
1. we are concerned that from what we understand there is no active grid offer available
2. we have ongoing concerns over the lack of clarity on the deliverability of the community fund and how it would be administrated
3. other than points raised before we have continued concerns over the lack of residential visual amenity assessment and the lack of further information regarding the exploration of a hybrid approach to the grid infrastructure cable route
