## Island Green Power - Green Hill Solar Farm - Launch of Targeted Consultation 13 March – 10 April 2025

11 March 2025

Dear Sir/Madam,

We are writing to notify you that we are carrying out a targeted consultation about proposed changes to Green Hill Solar Farm since we completed our statutory consultation in December. The targeted consultation will run for 28 days, from 13 March to 10 April 2025.

### About Green Hill Solar Farm

Green Hill Solar Farm (the Scheme) is proposed on land that is in the administrative boundaries of North Northamptonshire, West Northamptonshire and Milton Keynes City councils. In total, it would cover approximately 1,200 hectares of land across 9 separate sites, referred to as Green Hill A-G and Green Hill BESS (Battery Storage Energy System). The BESS element of the Scheme is proposed to be located on Green Hill BESS, adjoining Grendon Substation to the west and south-east, parallel to Station Road, Grendon, and/or within Green Hill C.

### Changes Being Consulted on

As part of the design refinement, additional areas of land, predominantly within highways land, have been identified beyond the scheme boundary limits that were presented as part of the statutory consultation process. The proposed changes are transport-related and are for ensuring sufficient land is available to facilitate vehicle access to the sites and the cable route corridor.

The land may be required for traffic management measures during the construction, operational or decommissioning phases.

There are 25 changes in total to the scheme boundary, and they are situated along [REDACTED] Road, Red House Lane, Moonshine Gap, Highfield Road, Mears [REDACTED] Road, B573, Station Road, A509, Easton Lane, A510 and A428.

More details, including maps of the boundary changes, are available in the Targeted [REDACTED] Information Brochure, which can be accessed online along with the Targeted Consultation Feedback Form at [www.greenhillsolar.co.uk](http://www.greenhillsolar.co.uk).

## **Providing feedback**

If you would like to provide feedback on any of these changes, a consultation feedback form is available on our website, or you can send your comments to us directly by email at [info@greenhillsolar.co.uk](mailto:info@greenhillsolar.co.uk) or by post to FREEPOST GREEN HILL SOLAR FARM (no stamp or further details required).

## **Materials Available at Moulton Library**

We have identified that a distribution error occurred during the statutory consultation last year resulting in the PEIR, Non-technical Summary, and Statement of Community Consultation not being available in hard-copy at Moulton Library. These documents and the public consultation feedback form will be available at Moulton Library during this targeted consultation for you to review. If you have any questions or comments, please contact the team directly.

Hard copies of the Targeted Consultation Information Brochure and the Targeted Consultation Feedback Form will also be available at Moulton Library to take away.

## **Consultation**

This targeted consultation will run for 28 days, from 13 March until 23:59 on 10 April 2025. During this time, we are inviting feedback on the changes to the Scheme detailed above.

Throughout this targeted consultation, we will continue to engage with stakeholders, including parish councils, Local Planning Authorities, and MPs, to provide project updates and address any concerns. We are committed to gathering and reviewing all the feedback we receive from stakeholders, following the same process we actioned during the statutory consultation.

In the meantime, if you have any questions, please email us at [info@greenhillsolar.co.uk](mailto:info@greenhillsolar.co.uk) or call our community relations freephone at 0800 0129 882.

Kind regards,

Project Development Manager – Island Green Power

## Targeted Consultation Regarding Changes to Green Hill Solar Farm

6 March 2025

Dear Sir/Madam,

### **Section 42 of the Planning Act 2008 (“the 2008 Act”) and Regulations 11 and 13 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (“the 2017 Regulations”)**

We would like to thank everyone who engaged with us during our statutory consultation between 7 November and 19 December 2024. Following the close of statutory consultation in December 2024, we are reviewing and considering all consultation feedback and continuing to carry out further assessments and survey work to inform our proposals.

As a result, we are launching a targeted consultation to gather your input on specific changes to the Scheme. This consultation is an important step as we move towards finalising our application for a Development Consent Order (DCO). The targeted consultation will run from 13 March - 10 April 2025.

Green Hill Solar Farm (the Scheme) is proposed on land that is in the administrative boundaries of North Northamptonshire, West Northamptonshire and Milton Keynes City councils. In total, it would cover approximately 1,200 hectares of land across 9 separate sites, referred to as Green Hill A-G and Green Hill BESS (Battery Storage Energy System). The BESS element of the Scheme is proposed to be located on Green Hill BESS, adjoining Grendon Substation to the west and south-east, parallel to Station Road, Grendon, and/or within Green Hill C.

We are writing to you as you have been identified as a consultee for the purpose of section 42 of the Planning Act 2008 or Regulation 11 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017, or we have decided that it would be appropriate to consult you.

### **Changes Being Consulted On**

As part of the design refinement, additional areas of land, predominantly within highways land, have been identified beyond the scheme boundary limits that were presented as part of the statutory consultation process. The proposed changes are transport-related and are for ensuring sufficient land is available to facilitate vehicle access to the sites and the cable route corridor.

The land may be required for traffic management measures during the construction, operational or decommissioning phases.

There are 25 changes in total to the scheme boundary, and they are situated along Broughton Road, Kettering Road, Red House Lane, Moonshine Gap, Highfield Road, Mears Ashby Road, Earls Barton Road, B573, Station Road, A509, Easton Lane, A510 and A428.

More details, including maps of the boundary changes, are available in the Targeted Consultation Information Brochure, which can be accessed online along with the Targeted Consultation Feedback Form at [www.greenhillsolar.co.uk](http://www.greenhillsolar.co.uk).

### **Consultation materials**

We have identified that a distribution error occurred during the statutory consultation last year, resulting in the Preliminary Environment Information Report (PEIR), Non-technical Summary, and Statement of Community Consultation not being available in hard-copy at Moulton Library. These documents and the public consultation feedback form will be available at Moulton Library during this targeted consultation for you to review. If you have any questions or comments, please contact the team directly.

Hard copies of the Targeted Consultation Information Brochure and the Targeted Consultation Feedback Form will also be available at Moulton Library to take away.

### **How to respond to this consultation**

Responses must be received no later than 23:59 on **10 April 2025**.

When providing your response, please include your name and contact details (a postal or email address) and confirm the nature of your interest in the Green Hill Solar Farm. Completed responses can be submitted:

- a) By email to [info@greenhillsolar.co.uk](mailto:info@greenhillsolar.co.uk)
- b) Online at [www.greenhillsolar.co.uk](http://www.greenhillsolar.co.uk)
- c) By returning a hard copy feedback form to FREEPOST GREEN HILL SOLAR FARM

### **Further information**

If you would like further information about this letter, the consultation or Green Hill Solar Farm, please contact the project team by using one of the contact methods provided below:

# Green Hill Solar Farm

## Newsletter

**Thank you to all our stakeholders and the public for your collaboration and participation in the public consultation last year.**

Following the public consultation, Green Hill Solar Farm Limited is launching this targeted consultation to gather input on specific proposed changes and provide an update on Green Hill Solar Farm (the "Scheme").

As previously outlined, the Scheme will comprise the construction, operation (including maintenance), and decommissioning of a solar photovoltaic (PV) energy-generating station and energy storage system within the administrative boundaries of West Northamptonshire Council, North Northamptonshire Council, and Milton Keynes City Council.

## Targeted consultation information

The proposed changes are transport-related and are for ensuring sufficient land is available to facilitate vehicle access to the sites and the cable route corridor.

The land may be required for traffic management measures during the construction, operational or decommissioning phases.

There are 25 changes in total to the scheme boundary, and they are situated along Broughton Road, Kettering Road, Red House Lane, Moonshine Gap, Highfield Road, Mears Ashby Road, Earls Barton Road, B573, Station Road, A509, Easton Lane, A510 and A428.

The environmental team has assessed the changes and concluded that they do not introduce new or materially different significant environmental effects compared to the preliminary information already presented.

Detailed maps showcasing these boundary changes are available in our updated brochure and online materials.

**The targeted consultation will run from 13 March - 10 April 2025.**

You can access the Targeted Consultation Brochure and Feedback Form on our website and we encourage you to use these to find out more detailed information as well as leave your feedback.

Targeted consultation materials, such as the Targeted Consultation Information Brochure and Targeted Consultation Feedback Form, will also be available at Moulton Library to take away.

## Preliminary Environmental Information Report (PEIR)

We have identified that a distribution error occurred during the public consultation last year resulting in the Preliminary Environment Information Report (PEIR), Non-technical Summary, and Statement of Community Consultation not being available in hard-copy at Moulton Library. These documents and the public Consultation Feedback Form will be available at Moulton Library during this targeted consultation for you to review. If you have any questions or comments, please contact the team directly.

Hard copies of the Targeted Consultation Information Brochure and the Targeted Consultation Feedback Form will also be available at Moulton Library to take away.

## Providing feedback

You can provide feedback in the following ways:

Completing an online feedback form, available on our website:

**[www.greenhillsolar.co.uk](http://www.greenhillsolar.co.uk)**

Sharing a completed feedback form with us via email or freepost:

**[info@greenhillsolarfarm.co.uk](mailto:info@greenhillsolarfarm.co.uk)**

**FREEPOST GREEN HILL SOLAR FARM**

Write to us via freepost:

**FREEPOST GREEN HILL SOLAR FARM**

Email us at:

**[info@greenhillsolarfarm.co.uk](mailto:info@greenhillsolarfarm.co.uk)**

## Timeline

### Q2 2025

Submission of the DCO to PINS for public examination

### Q1 2026

End of Examination (six months)

### Q4 2026

Decision by Secretary of State

### Q3 2025

Start of Examination

### Q2 2026

Recommendation by PINS  
(three months after Examination)

### 2029

Connection to Grid

### 2027 – 2029

Start of Construction

## How to contact us:

We welcome your feedback and inquiries. Please contact us by email at **[info@greenhillsolar.co.uk](mailto:info@greenhillsolar.co.uk)** or by phone at **0800 012 9882**.

You can also visit our website at **[www.greenhillsolar.co.uk](http://www.greenhillsolar.co.uk)** for more information.

# Green Hill Solar Farm

**Targeted Consultation Information Brochure**

March 2025

## Introduction

We would like to thank everyone who engaged with us during our Public Consultation between 7 November and 19 December 2024. During this period, we held four in-person and three online consultation events, encouraging feedback on our design proposals, preliminary environmental impact assessment and measures to reduce the impact of the Scheme.

Following the close of the Public Consultation in December 2024, we have been reviewing and considering all consultation feedback and continuing to carry out further assessments and survey work to inform our proposals.

We are now considering making specific adjustments to the Scheme's site boundaries along various local roads to facilitate site access, cable route access and traffic management during the construction and decommissioning phases of the Scheme.

This targeted consultation will run for 28 days from 13 March until 10 April 2025 and is your opportunity to comment on these proposed changes and let us know your views. We will use this feedback to finalise our proposals before we submit our application for Development Consent to the Secretary of State for Energy Security and Net Zero.

You can provide feedback in the following ways:

- completing an online feedback form, available on our website: [greenhillsolar.co.uk](https://greenhillsolar.co.uk)
- sharing a completed feedback form with us via email or freepost:
  - [info@greenhillsolarfarm.co.uk](mailto:info@greenhillsolarfarm.co.uk)
  - FREEPOST GREEN HILL SOLAR FARM
- write to us via freepost: FREEPOST GREEN HILL SOLAR FARM
- email us at: [info@greenhillsolarfarm.co.uk](mailto:info@greenhillsolarfarm.co.uk).

Please note that the deadline for responses is **11:59pm on 10 April 2025**. Responses submitted after this date may not be considered.

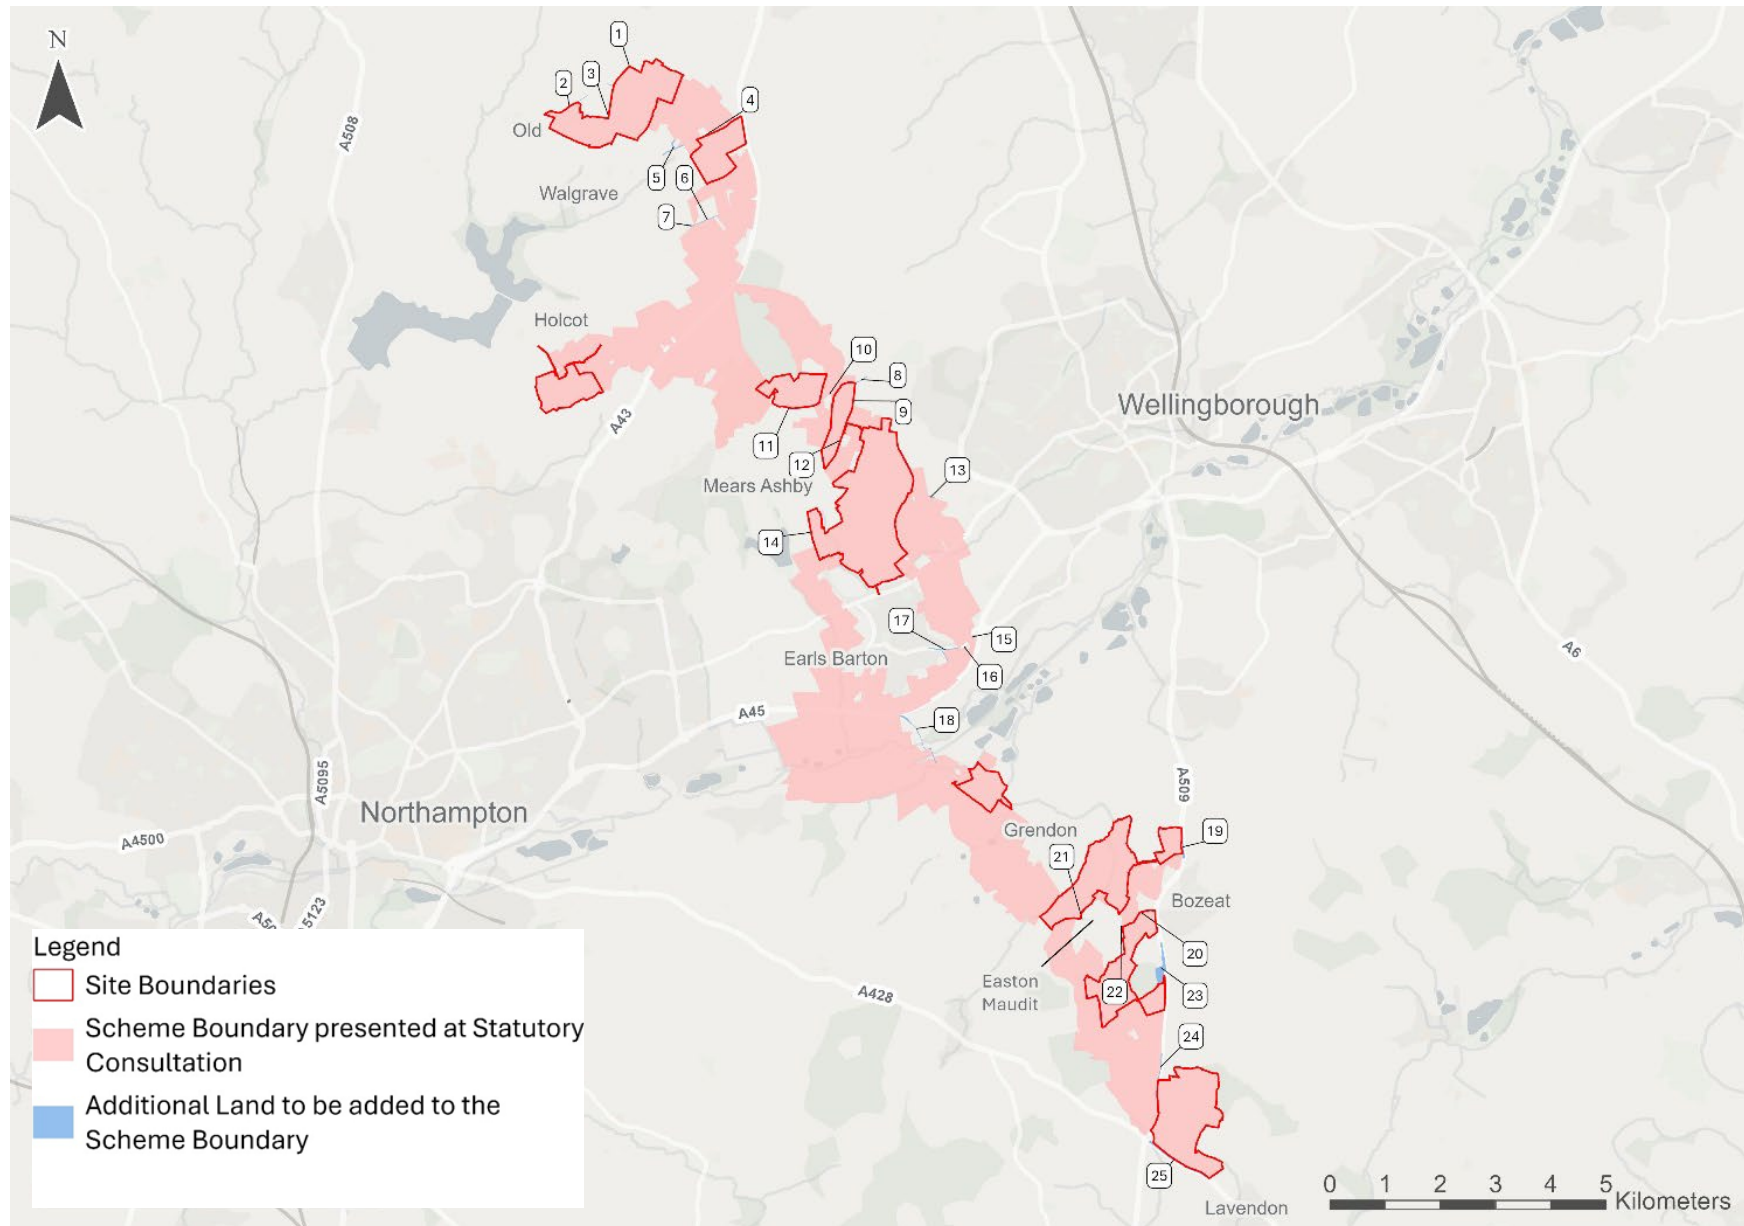

## Changes included in this consultation

The Applicant has identified a total of 25 changes overall. These changes are shown in Figure 1 and outlined in more detail in Table 1.

**Figure 1: Overview of the proposed changes to the site boundaries in the Scheme.**

**Table 1: Details of individual proposed changes to the Scheme Boundary**

The table below describes the individual changes proposed in more detail. All plans can be found on the Scheme's website ([greenhillsolar.co.uk/#documents](https://greenhillsolar.co.uk/#documents)).

We recommend you view the plans on the website for a detailed view.

Proposed change	Description
1. Inclusion of an approximately 580 metre section of Broughton Road	<p>The Scheme Boundary has been extended at this location adjacent to the northern boundary of Green Hill A at a distance of 1.6km north of Walgrave and 1.2km east of Old. The extension here is for a section of the public highway (Broughton Road) for site access design requirements, such as an appropriate visibility splay, and any associated traffic management measures that may be needed.</p> 

2. Inclusion of an approximately 900 metre section of Broughton Road

The Scheme Boundary has been extended at this location adjacent to the northern boundary of Green Hill A (60 metres to the east of Old) to include a section of the public highway (Broughton Road) for site access design requirements, such as an appropriate visibility splay, and any associated traffic management measures that may be needed.

3. Inclusion of an approximately 90 metre section of Newland Road

The Scheme Boundary has been extended at this location adjacent to the northern boundary of Green Hill A (1.5km east of Old) to include a section of the public highway (Newland Road) for site access design requirements, such as an appropriate visibility splay, and any associated traffic management measures that may be needed.

4. Inclusion of an approximately 130 metre section of Kettering Road

The Scheme Boundary has been extended at this location adjacent to the northern boundary of Green Hill A.2 (approximately 1.7km east of Walgrave) to include a section of the public highway (Kettering Road) for site and cable route access design requirements along with any associated traffic management measures that may be needed.

5. Inclusion of an approximately 420 metre section of Kettering Road

The Scheme Boundary has been extended at this location approximately 1.1km east of Walgrave (to the west of Green Hill A.2) to include a section of the public highway (Kettering Road) for site and cable route access requirements along with any associated traffic management measures that may be needed

6. Inclusion of an approximately 440 metre section of Red House Lane

The Scheme Boundary has been extended at this location to the south of Green Hill A.2 (approximately 1.8km southeast of Walgrave) to include a section of the public highway for site and cable route access requirements along with any associated traffic management measures that may be needed.

7. Inclusion of an approximately 130 metre section of Red House Lane

The Scheme Boundary has been extended at this location to the south of Green Hill A.2 (1.6km southeast of Walgrave) to include a section of the public highway (Red House Lane) for site and cable route access requirements along with any associated traffic management measures that may be needed.

8. Inclusion of an approximately 240 metre section of Moonshine Gap

The Scheme Boundary has been extended at this location to the north of Green Hill D (approximately 1.2km south of Hardwick) to include a section of the public highway (along Moonshine Gap) for site and cable route access requirements along with any associated traffic management measures that may be needed.

9. Inclusion of an approximately 260 metre section of Highfield Road

The Scheme Boundary has been extended at this location adjacent to Green Hill D (approximately 2.4km east of Sywell and 1.8km south of Hardwick) to include a section of the public highway for site and cable route access requirements along with any associated traffic management measures that may be needed.

10. Inclusion of an approximately 50 metre section of Moonshine Gap

The Scheme Boundary has been extended at this location on Sywell Road between the Green Hill C and D sites (approximately 2.3km northeast of Sywell) to include a section of the public highway for site and cable route access requirements along with any associated traffic management that may be needed.

11. Inclusion of an approximately 630 metre section of Moonshine Gap

The Scheme Boundary has been extended at this location along Sywell Road, along the southern boundary of Green Hill C (approximately 1.45km northeast of Sywell), to include a section of the public highway for site access requirements along with any associated traffic management measures that may be needed.

12. Inclusion of an approximately 210 metre section of Highfield Road

The Scheme Boundary has been extended at this location along the eastern boundary of the Green Hill D site (approximately 2.1km east of Sywell) to include a section of the public highway (Highfield Road) for site and cable route access requirements along with any associated traffic management measures that may be needed.

13. Inclusion of an approximately 135 metre section of Mears Ashby Road

The Scheme Boundary has been extended at this location (approximately 0.9km west of Wilby, 2.1km east of Mears Ashby and 2.7km north of Earls Barton) to include a section of the public highway (Mears Ashby Road) for site and cable route access requirements along with any associated traffic management measures that may be needed.

14. Inclusion of an approximately 635 metre section of Earls Barton Road

The Scheme Boundary has been extended at this location adjacent to the western boundary of the Green Hill E site (approximately 1.2km south of Mears Ashby) to include a section of the public highway for site access requirements during the construction and/or decommissioning phases, along with any associated traffic management measures that may be needed.

15. Inclusion of an approximately 95 metre section of the B573 road

The Scheme Boundary has been extended at this location (approximately 1.1km east of Earls Barton) to include a section of the public highway for cable route access requirements during the construction and/or decommissioning phases, along with any associated traffic management measures that may be needed.

<p>16. Inclusion of an approximately 70 metre section of the B573 (Doddington Road) and field to the south</p>	<p>The Scheme Boundary has been extended at this location (1.3km east of Earls Burton) to include a section of the public highway for cable route access requirements during the construction and/or decommissioning phases, along with any associated traffic management measures that may be needed.</p> <p>The additional land within the field is to ensure that the largest vehicles have sufficient space to navigate the field to the cable route corridor.</p> 
<p>17. Inclusion of an approximately 540 metre section of the B573 (Doddington Road) and a 240 metre section of Public Right of Way TC14 (Mill Lane and Nene Way).</p>	<p>The Scheme Boundary has been extended at this location (approximately 600 metres of Earls Burton) to include a section of the public highway for cable route access requirements along with any associated traffic management measures that may be needed. Public Right of Way TC14 (which is a Byway Open to All Traffic) may be used as an access road to the cable route corridor.</p> 

18. Inclusion of an approximately 1.2 km length of Station Road

The Scheme Boundary has been extended at this location (approximately 2km south of Earls Barton) to include a section of the public highway for site and cable route access requirements during the construction and/or decommissioning phases, along with any associated traffic management measures that may be needed.

19. Inclusion of an approximately 550 metre section of the A509

The Scheme Boundary has been extended at this location adjacent to the eastern boundary of the Green Hill F site (approximately 2.5km east of Grendon), to include a section of the public highway for site and cable route access requirements during the construction and/or decommissioning phases, along with any associated traffic management measures that may be needed.

20. Inclusion of an approximately 20 metre section of Easton Lane

The Scheme Boundary has been extended at this location near the Green Hill G site (800 metres west of Bozeat) to include a section of the public highway for site access requirements during the construction and/or decommissioning phases, along with any associated traffic management measures that may be needed.

21. Inclusion of an approximately 250 metre section of Easton Lane

The Scheme Boundary has been extended at this location near the Green Hill F site (approximately 1.9km west of Bozeat) to include a section of the public highway for site and cable route access requirements during the construction and/or decommissioning phases, along with any associated traffic management measures that may be needed.

22. Inclusion of an approximately 55 metre section of Easton Lane

The Scheme Boundary has been extended at this location (approximately 1.4km west of Bozeat) to include a section of the public highway for site access requirements during the construction and/or decommissioning phases, along with any associated traffic management measures that may be needed.

23. Inclusion of an approximately 500 metre section of the A509

The Scheme Boundary has been extended at this location near the Green Hill F site (approximately 1.2km south of Bozeat) to include a section of the public highway for site and cable route access requirements during the construction and/or decommissioning phases, along with any associated traffic management measures that may be needed.

24. Inclusion of an approximately 500 metre section of A509

The Scheme Boundary has been extended at this location near the Green Hill G site (approximately 1.6km north of Warrington) to include a section of the public highway for cable route access requirements during the construction and/or decommissioning phases, along with any associated traffic management measures that may be needed.

25. Inclusion of approximately 1.28 km of the A428

The Scheme Boundary has been extended at this location along the southern boundary of the Green Hill G site (approximately 970 metres southeast of Warrington) to include a section of the public highway for site access requirements during the construction and/or decommissioning phases, along with any associated traffic management measures that may be needed.

## Environmental effects of these changes

The changes detailed in this brochure have been considered and assessed by our environment team. We presented our preliminary environmental assessment in our Preliminary Environmental Impact Report (PEIR) at Statutory Consultation. The changes presented in this brochure do not affect the conclusions of that report and no new or materially different significant environmental effects have been introduced as a result.

A full assessment of the scheme with the changes presented here will be reported within the Environmental Statement accompanying the Development Consent Order (DCO) application. Our PEIR can still be viewed on our website at [greenhillsolar.co.uk/#consultation](https://greenhillsolar.co.uk/#consultation).

## Next steps

Feedback received in response to this targeted consultation will be considered alongside our ongoing design and environmental work as we finalise the design of the Scheme for the DCO application.

The feedback we receive will be summarised as part of our application for a DCO in a Consultation Report. The Consultation Report will set out how the feedback from the statutory consultation has shaped and influenced the final proposals.

You can find more information about the Development Consent process and Nationally Significant Infrastructure Projects on the Planning Inspectorate website: [national-infrastructure-consenting.planninginspectorate.gov.uk/](https://national-infrastructure-consenting.planninginspectorate.gov.uk/).

# Green Hill Solar Farm

Targeted Consultation Feedback Form

# Targeted consultation

Thank you for all your feedback during our recent public consultation last year on the proposed Green Hill Solar Farm. Following that consultation we’re launching a targeted consultation to provide an update on the Scheme and gather your input on specific changes to the Scheme. This consultation is an important step as we move forward towards finalising our application for a Development Consent Order (DCO).

## The targeted consultation will run from 13 March until 23:59 on 10 April 2025.

We are proposing changes to the Scheme’s boundaries to facilitate site access, cable routing and essential traffic management during the construction and decommissioning phases.

To understand more about the specific adjustments to the Scheme’s site boundaries, please visit our website: <https://greenhillsolar.co.uk/>.

Alternatively, hard copies of the targeted consultation materials are available to view at Moulton Library, Northamptonshire, NN3 7AX.

# How to provide feedback

Please use this questionnaire to provide your response to the specific changes being proposed. If you are completing a hard copy questionnaire, you can send it back to us by:

- Writing ‘FREEPOST GREEN HILL SOLAR FARM’ on a blank envelope (please note you do not need a stamp).
- Scanning a copy of your completed questionnaire and sending it by email to:

**info@greenhillsolar.co.uk**

Alternatively, please complete an online version of this questionnaire, which can be accessed at: **<https://greenhillsolar.co.uk/>**.

If you would like help completing this questionnaire, or information about our proposals you can:

Call us on: **0800 012 9882**

Email us at: **info@greenhillsolar.co.uk**

Visit our website: **<https://greenhillsolar.co.uk/>**

## Our targeted consultation is running from Thursday 13 March until 23:59 on Thursday 10 April 2025.

It is important that you submit your feedback to us before the closing date, so that it can be considered in our proposals.

# Section 1: About you

**You do not have to supply personal details; however if you do, it will enable us to contact you regarding your feedback if necessary.**

**Your personal details will be stored in compliance with GDPR by Copper Consultancy, acting on behalf of Green Hill Solar Farm Limited, and will not be shared with any third parties.**

**The project’s privacy policy can be viewed via the website.**

## Section 2: Views on the Scheme’s adjustments

1. Do you have any comments on the proposed changes to the Scheme? Please specify the change or changes you are commenting on.

## What happens next?

We will consider the feedback on our proposed changes to the Scheme that we receive during the targeted consultation period.

Feedback we receive will be submitted as part of our DCO application in a Consultation Report. The Consultation Report will set out how the feedback from our consultations has shaped and influenced the final proposals.

If you would like this document in large text or an alternative format, please contact us.

## Data Privacy Notice

Any personal details will be held securely and only used for purposes in connection with the consultation prescribed in the Planning Act 2008 and the development of Green Hill Solar Farm. Outside of these purposes, the Applicant may be required to provide personal details if specifically requested as part of an Environmental Information Regulations request or if the Planning Inspectorate requests copies of the original responses.

For further details, please see the Green Hill Solar Farm privacy notice at:

# Green Hill Solar Farm

## Targeted Consultation on Green Hill Solar Farm

The Green Hill Solar Farm Scheme is proposed for development on land that is within the administrative boundaries of North Northamptonshire, West Northamptonshire and Milton Keynes local planning authorities.

In total, it would cover approximately 1,200 hectares across 9 separate sites, referred to as Green Hill A-G and Green Hill BESS (Battery Energy Storage System).

Thank you for all your feedback during our recent public consultation last year on the proposed Green Hill Solar Farm. We have been reviewing and considering all consultation feedback and continuing to carry out further assessments and survey work to inform our proposals.

We are proposing changes to the Scheme's boundaries to facilitate site access, cable routing and essential traffic management.

This consultation is an important step as we move forward towards finalising our application for a Development Consent Order (DCO).

We are now launching a targeted consultation to gather your input on specific changes to the Scheme.

**Our targeted consultation will run from Thursday 13 March, until 23:59 on Thursday 10 April 2025.**

Please turn over to find out how you can view the changes and have your say.

## How to get involved in our Targeted Consultation

Your feedback on the proposed changes is important to us.

You can also find out about the proposed changes by visiting our website:

<https://greenhillsolar.co.uk/>

Alternatively, the following Targeted Consultation materials will be available to view and take away at Moulton Library, Northamptonshire, NN3 7AX:

- Targeted Consultation Information Brochure
- Targeted Consultation Feedback Form

### You can provide feedback on the specific adjustments to the Scheme by:

- completing our online Green Hill Solar Farm - Targeted Consultation Feedback Form, available on our website: <https://greenhillsolar.co.uk/>
- returning a hard copy of the Green Hill Solar Farm - Targeted Consultation Feedback Form to FREEPOST GREEN HILL SOLAR FARM (a stamp is not required); or
- emailing your comments and/or a scanned copy of your Green Hill Solar Farm - Targeted Consultation Feedback Form.

## Public consultation materials

A distribution error meant that during the earlier round of public consultation, hard copies of the Preliminary Environmental Information Report (PEIR), Non-Technical Summary (NTS), and Statement of Community Consultation (SoCC) were not available at Moulton Library. To rectify this, these documents will now be available during this targeted consultation in this location.

If you would like to submit specific feedback about the information provided in the public consultation materials, please complete a hard copy of the public consultation feedback form, available to take away from Moulton Library.

Where possible, please include reference numbers from the PEIR in your comments.

### You can send your comments to us by:

- returning a hard copy of the Green Hill Solar Farm - Statutory Consultation Feedback Form to FREEPOST GREEN HILL SOLAR FARM (a stamp is not required); or
- emailing your comments and/or a scanned copy of your Green Hill Solar Farm - Public Consultation Feedback Form.

## How to contact us

To find out more about our targeted consultation:

Email: [info@greenhillsolar.co.uk](mailto:info@greenhillsolar.co.uk)

Call: **0800 012 9882**

Website: <https://greenhillsolar.co.uk/>

## Update on Green Hill Solar Farm

Following the public consultation between 7 November and 19 December 2024, Green Hill Solar Farm Limited has launched a targeted consultation to gather input on specific proposed changes and provide an update on the Green Hill Solar Farm (the "Scheme").

The Scheme will comprise the construction, operation (including maintenance), and decommissioning of a solar photovoltaic (PV) energy-generating station and energy storage system within the administrative boundaries of West Northamptonshire Council, North Northamptonshire Council, and Milton Keynes City Council.

**This targeted consultation will run for 28 days, from 13 March to 10 April 2025.**

The proposed boundary changes, which are the primary subject of this targeted consultation, aim to facilitate site access, cable route access, and traffic management during the construction, operational and decommissioning phases. Further information about the proposed changes can be found in the targeted consultation materials.

### Targeted consultation information

Targeted consultation materials such as the Targeted Consultation Information Brochure and Targeted Consultation Feedback Form are available on our website [www.greenhillsolar.co.uk](http://www.greenhillsolar.co.uk) and available to take away at Moulton Library, Moulton Community Centre, Reedings, Moulton, NN3 7AX.

We have identified that a distribution error occurred during the statutory consultation last year resulting in the Preliminary Environment Information Report (PEIR), Non-technical Summary, and Statement of Community Consultation not being available in hard-copy at Moulton Library. These documents and the public consultation feedback form will be available at Moulton Library during this targeted consultation for you to review.

### Providing feedback

Any person may comment on the proposed changes to the Scheme. Responses must be received no later than 23:59 on 10 April 2025. When providing your response, please include:

- Your name and contact details (postal or email address)
- Confirmation of the nature of your interest in the Green Hill Solar Farm.

#### Responses can be submitted via:

Email: [info@greenhillsolar.co.uk](mailto:info@greenhillsolar.co.uk)

Online: [www.greenhillsolar.co.uk](http://www.greenhillsolar.co.uk)

Post: FREEPOST GREEN HILL SOLAR FARM
