Notice publicising a Statement of Community Consultation (SoCC) in accordance with Section 47(6) of the Planning Act 2008.

Notice is hereby given that Green Hill Solar Farm Limited (Company Number 13362769), whose registered office is at Unit 25.7 Coda Studios 189 Munster Road, London, England, SW6 6AW (the Applicant) has produced a Statement of Community Consultation (SoCC) in accordance with section 47 of the Planning Act 2008.

The Project

The Applicant is proposing a new solar project located between Northampton, Wellingborough and Milton Keynes. The Green Hill Solar Farm will produce around 500MW of renewable energy, support regional and national targets for reducing carbon emissions to net zero, contribute to improvements to local ecology and biodiversity and deliver affordable, subsidy-free energy. The Applicant will work closely with stakeholders and the local community to develop the project having regard to the feedback received during public consultation.

Green Hill Solar Farm is a Nationally Significant Infrastructure Project (NSIP) as it has a proposed generation capacity of over 50MW. As an NSIP the project must submit an application for a Development Consent Order (DCO) to the Secretary of State for Energy Security and Net Zero, under section 37 of the Planning Act 2008.

The Applicant is part of Island Green Power (IGP).

Statement of Community Consultation (SoCC)

As part of the Green Hill Solar Farm proposal, the Applicant has a duty to consult the local community under Section 47 of the Planning Act 2008. The Applicant has therefore prepared a SoCC that explains how people living in the vicinity of the proposed project boundary will be consulted throughout the pre-application process and how it intends to consult on the Preliminary Environmental Information Report (PEIR) which will inform the final Environmental Statement (ES). The consultation process is designed to provide information about the Green Hill Solar Farm and give the opportunity for local communities to have their say and help develop the final design for the project.

This notice provides formal notification of the publication of the SoCC which can be viewed, free of charge, on the document library at www.greenhillsolar.co.uk. Hard copies of the SoCC are also available to inspect at the information points sites listed below.

The Consultation Process

The Applicant will be holding its statutory consultation between 7 November and 19 December 2024. The Applicant will host a series of consultation activities, which will be available and accessible to all interested members of the local community. All consultation materials will be available to view, free of charge, during the statutory consultation period on our website www.greenhillsolar.co.uk.

Hard copies of the SoCC, PEIR and Non-Technical Summary will be available for inspection from 7 November 2024 until 19 December 2024 at the following information points. PLANNING NOTICES

Notice publicising a Statement of Community Consultation (SoCC) in accordance with Section 47(6) of the Planning Act 2008.

Notice is hereby given that Green Hill Solar Farm Limited (Company Number 13362769), whose registered office is at Unit 25.7 Coda Studios 189 Munster Road, London, England, SW6 6AW (the Applicant) has produced a Statement of Community Consultation (SoCC) in accordance with section 47 of the Planning Act 2008.

The Project

The Applicant is proposing a new solar project located between Northampton, Wellingborough and Milton Keynes. The Green Hill Solar Farm will produce around 500MW of renewable energy, support regional and national targets for reducing carbon emissions to net zero, contribute to improvements to local ecology and biodiversity and deliver affordable, subsidy-free energy. The Applicant will work closely with stakeholders and the local community to develop the project having regard to the feedback received during public consultation.

Green Hill Solar Farm is a Nationally Significant Infrastructure Project (NSIP) as it has a proposed generation capacity of over 50MW. As an NSIP the project must submit an application for a Development Consent Order (DCO) to the Secretary of State for Energy Security and Net Zero, under section 37 of the Planning Act 2008.

The Applicant is part of Island Green Power (IGP).

Statement of Community Consultation (SoCC)

As part of the Green Hill Solar Farm proposal, the Applicant has a duty to consult the local community under Section 47 of the Planning Act 2008. The Applicant has therefore prepared a SoCC that explains how people living in the vicinity of the proposed project boundary will be consulted throughout the pre-application process and how it intends to consult on the Preliminary Environmental Information Report (PEIR) which will inform the final Environmental Statement (ES). The consultation process is designed to provide information about the Green Hill Solar Farm and give the opportunity for local communities to have their say and help develop the final design for the project.

This notice provides formal notification of the publication of the SoCC which can be viewed, free of charge, on the document library at www.greenhillsolar.co.uk. Hard copies of the SoCC are also available from the information points sites listed below.

The Consultation Process

The Applicant will be holding its statutory consultation between 7 November and 19 December 2024. The Applicant will host a series of consultation activities, which will be available and accessible to all interested members of the local community. All consultation materials will be available to view, free of charge, during the statutory consultation period on our website www.greenhillsolar.co.uk.

Hard copies of the PEIR and Non-Technical Summary will be available for inspection from 7 November 2024 until 19 December 2024 at the following information points. Hard copies of the Consultation Information Booklet and the Consultation Feedback Form will be available to take away free of charge. We recommend contacting the venues to check the opening times prior to visiting.

Electronic copies of the PEIR and Non-Technical Summary may be viewed on a computer at the following information points from 7 November 2024 until 19 December 2024. While access to computers at these information points is free, a membership for the library may be required. Hard copies of the Consultation Information Booklet and the Consultation Feedback Form will be available to take away free of charge. We recommend contacting the venues to check the opening times and membership requirements prior to visiting.

A hard copy of the PEIR can be printed and delivered at a cost of £750 per copy. All other consultation documents can be made available in hard copy, large print, audio or braille format, free of charge upon request to the Applicant on 0800 012 9882 (free of charge) or by email at info@greenhillsolar.co.uk. Requests for translated documents will be considered on a case-by-case basis.

Feedback can be provided through the consultation feedback form on the Applicant's website at www.greenhillsolar.co.uk. Hardcopy feedback forms will also be available at the information points listed above and at the in person consultation events.

The consultation feedback form, responses to or other representation in respect of the Green Hill Solar Farm can also be sent to the Applicant by email to info@greenhillsolar.co.uk or by post to FREEPOST GREEN HILL SOLAR FARM (no stamp or further details required).

Any response or representation in respect of the proposed DCO must be received by the Applicant on or before **11.59PM on Thursday 19 December 2024**.

SECTION 48 PLANNING ACT 2008

Regulation 4 of The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009.

Notice publicising a proposed application for a Development Consent Order (“DCO”) to construct, operate, maintain and decommission a solar photovoltaic (PV) generating station, with a generating capacity of more than 50MW and associated infrastructure on land in Northamptonshire and Milton Keynes (Green Hill Solar Farm).

1. Notice is hereby given that Green Hill Solar Farm Limited (Company registration number 13362769) of Unit 25.7 Coda Studios, 189 Munster Road, London, England SW6 6AW (the Applicant), proposes to apply to the Secretary of State for Energy Security and Net Zero under section 37 of the Planning Act 2008 for a Development Consent Order for the Green Hill Solar Farm (the Application).
2. The Green Hill Solar Farm will cover a combined area of approximately 1,200 hectares and will consist of the following sites:
 - a. Green Hill A, A.2, B, C, D, E, F, G, and Green Hill BESS: eight solar array sites and a dedicated battery energy storage system site, located between Northampton, Wellingborough and Milton Keynes. The solar array sites will include solar panels, conversion units, inverters, and 132kV substations in Green Hill A, B, E, F and G and up to two 400kV substations in Green Hill C and/or Green Hill BESS.
 - b. An energy storage system located within Green Hill C or Green Hill BESS.
 - c. A cable route search area has been identified for the underground electricity cables connecting the Green Hill A to G solar array sites, substations and the energy storage system located on Green Hill C or Green Hill BESS to the National Grid substation at Grendon; and
 - d. Associated infrastructure, mitigation and enhancement measures, and other ancillary works, for example, fencing, security, local grid connections, temporary access roads, permanent means of access, highway works, temporary works compounds and work sites.
3. The sites are located across several parishes and administrative areas:
 - Green Hill A and A.2 are located in the parishes of Old and Walgrave and in the administrative area of West Northamptonshire, approximately 600m south of Walgrave.
 - Green Hill B is located within the parish of Holcot and in the administrative area of West Northamptonshire, approximately 1.2km north of Moulton.
 - Green Hill C is located within parishes of Sywell and Mears Ashby and in the administrative area of North Northamptonshire, approximately 2km west of Wellingborough.
 - Green Hill D is located within the parish of Mears Ashby and in the administrative area of North Northamptonshire, approximately 2km west of Wellingborough.

- Green Hill E is located within the parishes of Mears Ashby and Wilby in the administrative area of North Northamptonshire, approximately 500m north of Earls Barton.
 - Green Hill F is located within the parishes of Easton Maudit and Bozeat in the administrative area of North Northamptonshire, approximately 300m west of the village of Bozeat.
 - Green Hill G is located within the parishes of Warrington and Lavendon in the administrative area of Milton Keynes, approximately 600m north of Lavendon.
 - Green Hill BESS is located within the parish of Grendon and in the administrative area of North Northamptonshire, approximately 600m north of Grendon.
4. The proposed DCO will, among other things, authorise:
- Construction, operation, maintenance and decommissioning of the solar PV electricity generating station and associated development including grid connection and energy storage facility;
 - Compulsory acquisition of land, including interests in land, rights over land and imposition of restrictions, powers to override, suspend or extinguish rights over land and powers for the temporary use of land;
 - The application, modification and/or disapplication of legislation including legislation relating to compulsory purchase and landlord and tenant; and
 - Such ancillary, incidental and consequential provisions, licenses, property rights, permits and consents as are necessary and/or convenient.
5. Green Hill Solar Farm is an Environmental Impact Assessment (EIA) development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed works involved constitute development for which an EIA is required and the proposed application for a DCO will therefore be accompanied by an Environmental Statement. The Environmental Statement will provide a detailed description of the Green Hill Solar Farm and its likely significant environmental impacts. Information compiled so far about the Green Hill Solar Farm's likely significant environmental effects is set out for consultation in a Preliminary Environmental Information Report (the PEIR) and summarised in a Non-Technical Summary.

Statutory consultation

6. The Applicant is undertaking a statutory consultation on the proposals for the Green Hill Solar Farm between **Thursday 7 November 2024 and Thursday 19 December 2024**.
7. A copy of the PEIR, together with a Non-Technical Summary, our Statement of Community Consultation (SoCC), and other consultation documents, plans and maps explaining our consultation process and details of the nature and location of the Green Hill Solar Farm can be found on the Applicant's website in the

documents library at www.greenhillsolar.co.uk. These documents will be free to read, download and print from 7 November 2024 until 19 December 2024.

8. Hard copies of the PEIR and Non-Technical Summary will be available for inspection from 7 November 2024 until 19 December 2024 at the following information points. SECTION 48 PLANNING ACT 2008

REGULATION 4 OF THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009.

Notice publicising a proposed application for a Development Consent Order ("DCO") to construct, operate, maintain and decommission a solar photovoltaic (PV) generating station, with a generating capacity of more than 50MW and associated infrastructure on land in Northamptonshire and Milton Keynes (Green Hill Solar Farm).

1. Notice is hereby given that Green Hill Solar Farm Limited (Company registration number 13362769) of Unit 25.7 Coda Studios, 189 Munster Road, London, England SW6 6AW (the Applicant), proposes to apply to the Secretary of State for Energy Security and Net Zero under section 37 of the Planning Act 2008 for a Development Consent Order for the Green Hill Solar Farm (the Application).

2. The Green Hill Solar Farm will cover a combined area of approximately 1,200 hectares and will consist of the following sites:

a. Green Hill A, A.2, B, C, D, E, F, G, and Green Hill BESS: eight solar array sites and a dedicated battery energy storage system site, located between Northampton, Wellingborough and Milton Keynes. The solar array sites will include solar panels, conversion units, inverters, and 132kV substations in Green Hill A, B, E, F and G and two 400kV substations in Green Hill C and Green Hill BESS.

b. A battery energy storage system located within Green Hill BESS. A second location for energy storage is also being considered at Green Hill C.

c. A cable route search area has been identified for the underground electricity cables connecting the Green Hill sites, substations and the energy storage system to the National Grid substation at Grendon; and

d. Associated infrastructure, mitigation and enhancement measures, and other ancillary works, for example, fencing, security, local grid connections, temporary access roads, permanent means of access, highway works, temporary works compounds and work sites.

3. The sites are located across several parishes and administrative areas:

- Green Hill A and A.2 are located in the parishes of Old and Walgrave and in the administrative area of West Northamptonshire, approximately 600m south of Walgrave.

- Green Hill B is located within the parish of Holcot and in the administrative area of West Northamptonshire, approximately 1.2km north of Moulton.

- Green Hill C is located within parishes of Sywell and Meers Ashby and in the administrative area of North Northamptonshire, approximately 2km west of Wellingborough.

- Green Hill D is located within the parish of Meers Ashby and in the administrative area of North Northamptonshire, approximately 2km west of Wellingborough.

- Green Hill E is located within the parishes of Meers Ashby and Wilby in the administrative area of North Northamptonshire, approximately 500m north of Earls Barton.

- Green Hill F is located within the parishes of Easton Mauduit and Bozeat in the administrative area of North Northamptonshire, approximately 300m west of the village of Bozeat.

- Green Hill G is located within the parishes of Warrington and Lavendon in the administrative area of Milton Keynes, approximately 600m north of Lavendon.

- Green Hill BESS is located within the parish of Grendon and in the administrative area of North Northamptonshire, approximately 600m north of Grendon.

4. The proposed DCO will, among other things, authorise:

- Construction, operation, maintenance and decommissioning of the solar PV electricity generating station and associated development including grid connection and energy storage facility;

- Compulsory acquisition of land, including interests in land, rights over land and imposition of restrictions, powers to override, suspend or extinguish rights over land and powers for the temporary use of land;

- The application, modification and/or disapplication of legislation including legislation relating to compulsory purchase and landlord and tenant; and

- Such ancillary, incidental and consequential provisions, licenses, property rights, permits and consents as are necessary and/or convenient.

5. Green Hill Solar Farm is an Environmental Impact Assessment (EIA) development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed works involved constitute development for which an EIA is required and the proposed application for a DCO will therefore be accompanied by an Environmental Statement. The Environmental Statement will provide a detailed description of the Green Hill Solar Farm and its likely significant environmental impacts. Information compiled so far about the Green Hill Solar Farm's likely significant environmental effects is set out for consultation in a Preliminary Environmental Information Report (the PEIR) and summarised in a Non-Technical Summary.

SECTION 48 PLANNING ACT 2008

Regulation 4 of The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009.

Notice publishing a proposed application for a Development Consent Order ("DCO") to construct, operate, maintain and decommission a solar photovoltaic (PV) generating station, with a generating capacity of more than 50MW and associated infrastructure on land in Northamptonshire and Milton Keynes (Green Hill Solar Farm).

1. Notice is hereby given that Green Hill Solar Farm Limited (Company registration number 13362769) of Unit 25.7 Coda Studios, 189 Munster Road, London, England SW6 6AW (the Applicant), proposes to apply to the Secretary of State for Energy Security and Net Zero under section 37 of the Planning Act 2008 for a Development Consent Order for the Green Hill Solar Farm (the Application).
2. The Green Hill Solar Farm will cover a combined area of approximately 1,200 hectares and will consist of the following sites:
 - a. Green Hill A, A.2, B, C, D, E, F, G, and Green Hill BESS: eight solar array sites and a dedicated battery energy storage system site, located between Northampton, Wellingborough and Milton Keynes. The solar array sites will include solar panels, conversion units, inverters, and 132kV substations in Green Hill A, B, E, F and G and two 400kV substations in Green Hill C and Green Hill BESS.
 - b. A battery storage system located within Green Hill BESS. A second location for energy storage is also being considered at Green Hill C.
 - c. A cable route search area has been identified for the underground electricity cables connecting the Green Hill sites, substations and the energy storage system to the National Grid substation at Grendon, and
 - d. Associated infrastructure, mitigation and enhancement measures, and other ancillary works, for example: fencing, security, local grid connections, temporary access roads, permanent means of access, highway works, temporary works compounds and work sites.
3. The sites are located across several parishes and administrative areas:
 - Green Hill A and A.2 are located in the parishes of Old and Walgrave and in the administrative area of West Northamptonshire, approximately 600m south of Walgrave.
 - Green Hill B is located within the parish of Holcot and in the administrative area of West Northamptonshire, approximately 1.2km north of Moulton.
 - Green Hill C is located within parishes of Sywell and Mears Ashby and in the administrative area of North Northamptonshire, approximately 2km west of Wellingborough.
 - Green Hill D is located within the parish of Mears Ashby and in the administrative area of North Northamptonshire, approximately 2km west of Wellingborough.
 - Green Hill E is located within the parishes of Easton Mauditt and Bozeat in the administrative area of North Northamptonshire, approximately 500m north of Earls Barton.
 - Green Hill F is located within the parishes of Easton Mauditt and Bozeat in the administrative area of North Northamptonshire, approximately 300m west of the village of Bozeat.
 - Green Hill G is located within the parishes of Warrington and Lavendon in the administrative area of Milton Keynes, approximately 600m north of Lavendon.
 - Green Hill BESS is located within the parish of Grendon and in the administrative area of North Northamptonshire, approximately 600m north of Grendon.
4. The proposed DCO will, among other things, authorise:
 - Construction, operation, maintenance and decommissioning of the solar PV electricity generating station and associated development including grid connection and energy storage facility;
 - Compulsory acquisition of land, including interests in land, rights over land and imposition of restrictions, powers to override, suspend or extinguish rights over land and powers for the temporary use of land;
 - The application, modification and/or discontinuation of legislation including legislation relating to compulsory purchase and landlord and tenant; and
 - Such ancillary, incidental and consequential provisions, licenses, property rights, permits and consents as are necessary and/or convenient.
5. Green Hill Solar Farm is an Environmental Impact Assessment (EIA) development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed works involved constitute development for which an EIA is required and the proposed application for a DCO will therefore be accompanied by an Environmental Statement. The Environmental Statement will provide a detailed description of the Green Hill Solar Farm and its likely significant environmental impacts. Information compiled so far about the Green Hill Solar Farm's likely significant environmental effects is set out for consultation in a Preliminary Environmental Information Report (the PEIR) and summarised in a Non-Technical Summary.

Statutory consultation

6. The Applicant is undertaking a statutory consultation on the proposals for the Green Hill Solar Farm between **Thursday 7 November 2024 and Thursday 19 December 2024**.

Notice publicising a proposed application for a Development Consent Order ("DCO") to construct, operate, maintain and decommission a solar photovoltaic (PV) generating station, with a generating capacity of more than 50MW and associated infrastructure on land in Northamptonshire and Milton Keynes (Green Hill Solar Farm).

1. Notice is hereby given that Green Hill Solar Farm Limited (Company registration number 13362750) of Unit 25.7 Coda Studios, 199 Munster Road, London, England SW6 6AW (the Applicant), proposes to apply to the Secretary of State for Energy, Security and NetZero under section 37 of the Planning Act 2008 for a Development Consent Order for the Green Hill Solar Farm (the Application).

2. The Green Hill Solar Farm will cover a combined area of approximately 1,200 hectares and will consist of the following sites:

- a. Green Hill A, A.2, B, C, D, E, F, G, and Green Hill BESS: eight solar array sites and a dedicated battery energy storage system site, located between Northampton, Wellingborough and Milton Keynes. The solar array sites will include solar panels, conversion units, inverters, and 132kV substations in Green Hill A, B, E, F and G and two 400kV substations in Green Hill C and Green Hill BESS.
- b. A battery energy storage system located within Green Hill BESS. A second location for energy storage is also being considered at Green Hill C.
- c. A cable route search area has been identified for the underground electricity cables connecting the Green Hill sites, substations and the energy storage system to the National Grids substation at Grendon; and
- d. Associated infrastructure, mitigation and enhancement measures, and other ancillary works, for example, fencing, security, local grid connections, temporary access roads, permanent means of access, highway works, temporary works compounds and work sites.

3. The sites are located across several parishes and administrative areas:

- Green Hill A and A.2 are located in the parishes of Old and Walgrave and in the administrative area of West Northamptonshire, approximately 600m south of Walgrave.
- Green Hill B is located within the parish of Holcot and in the administrative area of West Northamptonshire, approximately 1.2km north of Moulton.
- Green Hill C is located within parishes of Sywell and Mears Ashby and in the administrative area of North Northamptonshire, approximately 2km west of Wellingborough.
- Green Hill D is located within the parish of Mears Ashby and in the administrative area of North Northamptonshire, approximately 2km west of Wellingborough.
- Green Hill E is located within the parishes of Mears Ashby and Wilby in the administrative area of North Northamptonshire, approximately 500m north of Earls Barton.
- Green Hill F is located within the parishes of Easton Mauduit and Bozeat in the administrative area of North Northamptonshire, approximately 300m west of the village of Bozeat.
- Green Hill G is located within the parishes of Warrington and Lavendon in the administrative area of Milton Keynes, approximately 600m north of Lavendon.
- Green Hill BESS is located within the parish of Grendon and in the administrative area of North Northamptonshire, approximately 600m north of Grendon.

4. The proposed DCO will, among other things, authorise:

- Construction, operation, maintenance and decommissioning of the solar PV electricity generating station and associated development including grid connection and energy storage facility;
- Compulsory acquisition of land, including interests in land, rights over land and imposition of restrictions, powers to override, suspend or extinguish rights over land and powers for the temporary use of land;
- The application, modification and/or discontinuation of legislation including legislation relating to compulsory purchase and land and powers for the temporary use of land; and
- Such ancillary, incidental and consequential provisions, licences, property rights, permits and consents as are necessary and/or convenient.

5. Green Hill Solar Farm is an Environmental Impact Assessment (EIA) development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. This means that the proposed works involved constitute development for which an EIA is required and the proposed application for a DCO will therefore be accompanied by an Environmental Statement. The Environmental Statement will provide a detailed description of the Green Hill Solar Farm and its likely significant environmental impacts. Information compiled so far about the Green Hill Solar Farm's likely significant environmental effects is set out for consultation in a Preliminary Environmental Information Report (the PEIR) and summarised in a Non-Technical Summary.

Statutory consultation

6. The Applicant is undertaking a statutory consultation on the proposals for the Green Hill Solar Farm between Thursday 7 November 2024 and Thursday 19 December 2024.
