1 Introduction

1.1 Purpose of the Document

- 1.1.1 This document provides a guide to the Development Consent Order (DCO) application for Green Hill Solar Farm. The Application is made by Green Hill Solar Farm Limited (the Applicant) to the Secretary of State for Energy Security and Net Zero (the Secretary of State) pursuant to the Planning Act 2008 (PA 2008).
- 1.1.2 The Applicant is seeking a DCO for the construction, operation (including maintenance), and decommissioning of ground mounted solar photovoltaic (PV) generating stations (incorporating the solar arrays); grid connection infrastructure and energy storage; and the Cable Route Corridors (the Scheme). The Application is required because the Scheme is classified as a Nationally Significant Infrastructure Project (NSIP) under the PA 2008, being an onshore generating station within England of more than 50MW.
- 1.1.3 This Guide provides an overview of the documents that have been submitted in order to satisfy the APFP Regulations, the EIA Regulations and section 37 of the PA 2008.

1.2 Document Referencing

- [1.2.1](#) Each document that forms part of this Application has been assigned a reference number that will allow it to be located within the Application document library. When an Application document refers to another document, then the full reference information is provided, highlighted with bold. This comprises the PINS reference ('EN010170'), followed by an indication that the document forms part of the Application ('APP'), or any deadline within the examination process ('EX1', 'EX2', etc.) and then the specific document number (for example, 'GH6.2.2'); this produces a full reference in the format **[EN010170/APP/GH6.2.2]**.

- ~~1.2.1~~ [1.2.2](#) For documents that have already been submitted as part of the DCO application, or submitted to the examination process following acceptance of the DCO application on 19 June 2025, the 'PINS document reference' referred to is that in the **Green Hill Solar Farm Examination Library** as hosted by PINS. Any documents superseded by latter revisions are highlighted grey.

2 Master Document List

2.1.1 The master document table, provided on the following page at **Table 2.2**; offers a full list of all documents submitted to date, indicating either the latest version (if applicable) or when a new document was submitted. These documents have been grouped and colour-coded in the master document table by volume as follows:

Table 2.1: Guide to Document Volumes

Document Volume	Volume Name	Description
APP /GH1	Application Information	Provides details of the specific application information required by the Planning Inspectorate.
APP /GH2	Plans and Drawings	Contains the plans which show where the Applicant proposes to undertake the work.
APP /GH3	Draft Development Consent Order	Outlines the legal powers the Applicant are seeking from the Government to build the proposed connection.
APP /GH4	Compulsory Acquisition Information	Provides evidence of why the Applicant may require legal powers of compulsory acquisition.
APP /GH5	Consultation Report	Provides details of the pre-application consultation that we have undertaken during the Scheme
APP /GH6	Environmental Statement	A document which shows how the Applicant has assessed the likely significant impacts on the environment. This includes assessment chapters, appendices associated with the likely significant effects, and figures (plan) associated with likely significant effects.
APP /GH7	Other documents	Includes additional documents produced for the application submission.
GH8	Examination Submissions	Documents submitted following Acceptance of the Scheme by PINS, prior to and during the Examination stage
