## 1 Introduction

### 1.1 Purpose of the Document

- 1.1.1 This document has been prepared to provide the Examining Authority (ExA) with the latest position on Statements of Common Ground (SoCG) between Island Green Power (IGP) (the 'Applicant') and statutory consultees, statutory undertakers and other Interested Parties (the 'parties') in relation to the proposed Green Hill Solar Project (the 'Scheme').
- 1.1.2 This document provides a position on the commonality on specific points between SoCGs at Deadline 2 (being 19 November 2025).
- 1.1.3 The Applicant will, for each deadline during the course of the Examination, update this Statement as a record of the progress being made with the various parties. When sufficient progress has been made on agreements between parties, this document will also discuss those areas of commonality between parties to enable the efficient resolution and focusing in on the remaining issues.

### 1.2 Structure of this Document

- 1.2.1 This Statement of Commonality is structured as follows:
- Section 2 details the structure of each SoCG document. **Table 2.1** provides a full list of SoCGs being produced and offers an overview of the status of each SoCG being submitted to Deadline 2;
  - Section 3 sets out the commonality between SoCGs; and
  - Section 4 provides a narrative on specific topic areas for each SoCG being progressed.

## **2 Statement of Common Ground**

### **2.1 Structure of SoCGs**

2.1.1 Each SoCG adopts a standard format to ensure consistency in the approach taken to documenting those matters agreed, matters subject to ongoing discussion or matters not agreed.

2.1.2 Each SoCG is structured as follows:

- Section 1 provides an introduction to the SoCG, identifies the relevant parties and describes the purpose of the document;
- Section 2 summarises the parties' engagement undertaken to date; and
- Section 3 details those matters agreed, those matters under discussion and those matters which have not been agreed.

### 3 Commonality

#### 3.1 Overview

3.1.1 This section of the Statement provides an overview of the topics covered in the SoCGs. **Table 3.2** presents, at a high level, where there is commonality in the topics discussed between the Applicant and the parties, or where matters are progressing through discussion, or where matters discussed have reached a final position of 'Not Agreed'.

3.1.2 Where a topic is not relevant to a particular party, the cell has been greyed out. Where the topic is relevant to the party, the status is shown as follows:

**Table 3.1: Summary of Commonality Key**

Cell	Status
	Matter agreed
	Matter subject to ongoing discussion
	Matter not agreed
	Matter not relevant to parties

3.1.3 The colour of each cell corresponds to the status figure (as above) in each individual SoCG.

3.1.4 At Deadline 2, the Applicant has shared draft SoCGs with a number of parties and is awaiting feedback from them. Therefore, where the Applicant considers there to be a high degree of certainty over matters being agreed and is waiting for confirmation, they are marked as green in **Table 3.2**.

3.1.5 Following the Summary of Commonality in **Table 3.2**, **Section 3.2** outlines the principal outstanding matters which are subject to further discussion before a final position can be reached.
