To Whom It May Concern,

Green Hill Solar Farm – Examination Deadline 4

Environment Agency response

Thank you for consulting the Environment Agency. We are working with the Applicant on the Statement of Common Ground and look forward to progressing this. We provide our current position on this DCO in Appendix 1.

Environment Agency update on disapplication request

We are currently undertaking our review of the Applicant's request to disapply Flood Risk Activity Permits (FRAP) under the Environmental Permitting (England and Wales) Regulations 2016 for the proposed development. We endeavour to provide our formal position on this matter as soon as possible and are confident a decision will be provided prior to the end of Examination. If the request to disapply FRAP is accepted, Protective Provisions in favour of the Environment Agency will be required in the DCO.

Yours faithfully,

Siobhan Martin
Planning Advisor – National Infrastructure team
