1 Introduction

1.1 Purpose of the Document

- 1.1.1 This Statement of Common Ground (SoCG) has been prepared as part of the proposed Green Hill Solar Farm Development Consent Order (the Application) made by Green Hill Solar Farm Ltd (the Applicant) to the Secretary of State for Energy Security and Net Zero (the Secretary of State) pursuant to the Planning Act 2008 (PA 2008).
- 1.1.2 This SoCG does not seek to replicate information that is available elsewhere within the Application documents. All documents are available on the Planning Inspectorate's website.
- 1.1.3 This SoCG has been produced to confirm to the Examining Authority (ExA) the matters on which agreement has been reached between the parties, and where agreement has not yet been reached. SoCGs are an established means in the DCO consenting process, of allowing all parties to identify and focus on specific issues that may need to be addressed during the examination.

1.2 Parties to this Statement of Common Ground

- 1.2.1 This SoCG has been prepared by (1) Green Hill Solar Farm Ltd as the Applicant and (2) North Northamptonshire Council. North Northamptonshire Council is one of three host authorities for the Application and is specifically the host authority for Green Hill C, D, E, F, BESS, part of the cable route, and the Point of Connection at Grendon National Grid 400 kV Substation.
- 1.2.2 Collectively, Green Hill Solar Farm Ltd. and North Northamptonshire Council are referred to as 'the parties'.

1.3 Terminology and Referencing

- 1.3.1 In the Tables in Section 3 of this SoCG below:
- "Agreed" indicates where the issue has been resolved;
 - "Not Agreed" indicates a final position; and
 - "Under discussion" indicates where these points will be the subject of ongoing discussion to resolve, where possible, or refine, the extent of disagreement between the parties.

1.4 Topic Referencing for All Matters

- 1.4.1 All matters agreed, under discussion and not agreed have been given unique references which relate to the topic matter. The referencing system is defined as follows:

Table 1.1 Topic Referencing

Topic	Unique Identifying Code
Scheme Description	SD
Energy Need	EN
Planning Statement	PS

Topic	Unique Identifying Code
Alternatives and Design Evolution	ALT
Assessment Methodology	AM
Residual Effect	RE
Climate Change	CC
Landscape and Visual Impact Assessment	LVIA
Ecology and Biodiversity	EB
Hydrology, Flood Risk and Drainage	HYD
Minerals	MIN
Cultural Heritage	CH
Transport and Access	TA
Noise and Vibration	NV
Glint and Glare	GG
Air Quality	AQ
Socio-Economics, Tourism and Recreation	STR
Human Health	HH
Arboriculture	ARB
Agricultural Circumstances	ALC
Electromagnetic Fields	EMF
Ground Conditions and Contamination	GCC
Major Accidents and Disasters	MAD
Other Environmental Matters	OEM
Cumulative Effects	CE

2 Record of Engagement

2.1 Summary of Consultation

- 2.1.1 The parties have been engaged in consultation since March 2024.
- 2.1.2 A non-statutory consultation took place in March to May 2024. The statutory consultation process took place between 7th November and 19th December 2024.
- 2.1.3 A summary of the meetings and correspondence that has taken place between Green Hill Solar Farm Ltd and North Northamptonshire Council (NNC) in relation to the Application is outlined in Error! Reference source not found. below.

Table 2.1: Record of Engagement

Date	Form of Correspondence	Key Topics Discussed and Key Outcomes
Project Wide Matters/ Principle, Scope and Description of Development		
13 th December 2023	Meeting (virtual via Teams)	Meeting to introduce the scheme, providing an overview of the Sites, timescales, constraints and opportunities
Monthly meetings	Meetings (virtual via Teams) with Planning Officers	Regular meetings to discuss any project and programme updates.
10 th July 2025	Site Visit	Site Visit with the planning and highways officers to allow them to view Sites C, D, E and F and proposed construction routes.
Landscape and Visual Impact		
15 th April 2024	Meeting (virtual via Teams)	The meeting focused on reviewing suggested additional viewpoints, agreement on using Type 1-2 photographs for scoping, and identified landscape receptors to include in the assessment.
17 th July 2024	Meeting (virtual via Teams)	Meeting to discuss the approach to photomontages and viewpoint locations.
23 rd January 2025	Meeting (virtual via Teams)	Meeting with Landscape Officer to discuss section 42 comments in response to the statutory consultation.
27 th June 2025	Meeting (virtual via Teams)	Meeting with the Landscape consultant and planning officers at North Northamptonshire Council and West Northamptonshire Council as an orientation exercise of the landscape DCO documents.
19 th September 2025	Site Visit	Site Visit with the landscape consultant who is representing both North Northamptonshire Council and West Northamptonshire Council.
19 th December 2025	Meeting	In person meeting with the landscape consultant who is representing both North Northamptonshire Council and West

Date	Form of Correspondence	Key Topics Discussed and Key Outcomes
		Northamptonshire Council to discuss the Statement of Common Ground and the progression of matters. The current position between the Applicant and the landscape consultant are set out in this document.
Ecology and Biodiversity		
29 th February 2024	Meeting (virtual via Teams)	The Applicant's Ecologist and Planning Agent contacted North Northamptonshire Local Planning Authority to discuss the Scheme proposals and gauge initial thoughts from the Local Planning Authority on approach.
19 th December 2024	Meeting (virtual via Teams)	The Applicant introduced the project and Clarkson and Wood's expertise. The meeting focused on the survey scope and design evolution as well as scoping responses. Various queries on species, mitigation, and survey methodologies were addressed.
December 2024	Section 42 Consultation response	<p>Comments related to the scope of the desktop study and suite of protected species surveys.</p> <p>Biodiversity Net Gain and whether the figure is based on the Scheme as a whole or the individual Sites.</p> <p>Clarifications needed on the temporary/permanent effects.</p> <p>Details on boundary treatments and fencing around the Sites to allow movement of wildlife through the countryside.</p> <p>All matters are covered in ES Chapter 9: Ecology and Biodiversity [REP1-033] and ES Appendix 9.1 to 9.13 [APP-084 to APP-096, REP1-045, REP1-047, REP1-049, REP1-051]</p>
Hydrology, Flood Risk and Drainage		
29 th November 2024		Meeting to introduce the scheme and approach to hydrology, flood risk and drainage assessment
December 2024	Section 42 Consultation response	<p>Scope of supporting technical information to include a detailed drainage plan.</p> <p>Matter addressed in Annex A – 10.1.1 – Annex J 10.1.10: Flood Risk Assessment and Drainage Strategy – BESS [REP1-053, APP-098 – APP-107, REP1-055, REP1-057]</p>

Date	Form of Correspondence	Key Topics Discussed and Key Outcomes
		<p>Win DES modelling and pre-development brownfield/greenfield discharge calculations should be provided.</p> <p>Matter addressed in Annex J – 10.1.10: Flood Risk Assessment and Drainage Strategy – BESS [REP1-053, APP-098 – APP-107, REP1-055, REP1-057]</p> <p>BRE365 compliant infiltration testing should be undertaken.</p> <p>Matter addressed in Appendix 10.1 Flood Risk Assessment and Drainage Strategy [REP1-053]</p> <p>Maintenance and management of individual aspects of the drainage system.</p> <p>Matter addressed in Annex J – 10.1.10: Flood Risk Assessment and Drainage Strategy – BESS [REP1-057]</p>
8 th January 2026	Meeting (virtual via Teams)	<p>The Applicant held a meeting with representatives of the Lead Local Flood Authorities (LLFA) from each of the Host Authorities to discuss the disapplication of provisions of the Land Drainage Act 1991. The Applicant is preparing a draft set of protective provisions to share with each of the LLFA's to allow agreement of the disapplication. This meeting was held to address action point 4 of Issue Specific Hearing 3.</p>
Minerals		
07 th October 2024	Meeting (virtual via Teams)	<p>The meeting focused on providing an overview of the Scheme, mineral safeguarding, impacts on current and future sand and gravel supply and mitigation measures</p>
December 2024	Section 47 Consultation response	<p>Assessment should include the cable route corridor.</p> <p>All matters covered in ES Chapter 11: Minerals [APP-048]</p>
Cultural Heritage		
25 th March 2024	North Northamptonshire Conservation Officer	<p>Meeting to introduce the Scheme, provide a high-level review of identified heritage assets and discuss proposed methodology.</p>
December 2024	Section 47 Consultation response	<p>Extent of archaeological field evaluation.</p> <p>Impacts of decommissioning needs to be assessed in the Environmental Statement.</p>

Date	Form of Correspondence	Key Topics Discussed and Key Outcomes
		<p>Matter addressed in Appendix 12.2 to 12.5 [APP-121 – APP-130] for the results of the archaeological assessment, including the interim results of the geophysical survey and the programme of evaluation trial trenching.</p> <p>Appendix 12.6 [EX4/GH6.3.12.6_A] takes into account the results of the archaeological assessment as part of the EIA and provides an Archaeological Mitigation Strategy.</p> <p>ES Chapter 12: Cultural Heritage [APP-049] sets out the assessment of impacts during the decommissioning phase.</p>
28 th January 2025	Meeting (virtual via Teams)	Meeting with the WHNA to discuss potential vibration impact from construction traffic to heritage assets. It was agreed that only Station lodge and Low Farmhouse would be scoped into potential vibration assessment.
10 th March 2025	Meeting (virtual via Teams)	Meeting to discuss methodology and approach to assessment and detail finding in relation to Green Hill A, B, C and the BESS (only C and BESS in relation to NNC boundary).
24 th March 2025	Meeting (virtual via Teams) with County Archaeologist	Meeting to discuss archaeological mitigation options, geophysical survey data and discuss mitigation areas.
30 th April 2025	Meeting (virtual via Teams) with County Archaeologist	Meeting to discuss archaeological evaluation and mitigation options.
14 th May 2025	Meeting (virtual via Teams) with Conservation Officer	Meeting to discuss final Scheme design and proposed mitigation.
25 th September 2025	Meeting (virtual via Teams) with County Archaeologist	Meeting to discuss archaeological evaluation and mitigation options.
27 th October 2025	Site Visit with Conservation Officer	Site Visit with two Conservation Officers. The Applicant's landscape consultant was also present.
30 th October 2025	Meeting (virtual via Teams) with County Archaeologist	Meeting to discuss archaeological evaluation and mitigation options.
Glint and Glare		
18 th December 2025	Meeting (virtual via Teams)	A meeting was held with the Council's highway officer to discuss the assessment of glint and glare on local roads.

Date	Form of Correspondence	Key Topics Discussed and Key Outcomes
Transport and Access		
4 th December 2025	Meeting (virtual via Teams).	Clarification on access arrangements DCO schedules relating to access.
8 th January 2026	Meeting (virtual via Teams).	Access review and confirmation of shuttle bus assumptions.

- 2.1.4 It is agreed that this is an accurate record of the key meetings and consultation undertaken between (1) Green Hill Solar Farm Ltd and (2) North Northamptonshire Council in relation to the issues addressed in this SoCG.

3 Matters of Discussion

3.1 Overview

3.1.1 Tables 3.1 to 3.18 below detail by topic the matters under discussion with North Northamptonshire Council (NNC) at the point of this document being published.

3.2 Scheme Description

Table 3.1 Scheme Description

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
SD-01	Site Description	ES Chapter 3: The Development Site [REP1-029]	The description of the Sites set out in ES Chapter 3: The Development Site [REP1-029] is accurate.	The Council is in agreement on this matter.	Matter Agreed
SD-02	Scheme Description	ES Chapter 4: Scheme Description [REP1-031]	The Scheme description set out in ES Chapter 4: Scheme Description [REP1-031] is provided with sufficient detail to inform assessments.	The Council are in agreement on this matter.	Matter Agreed

3.3 Energy Need

Table 3.2 Energy Need

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
EN-01	Energy Need	Statement of Need [APP-556]	The principle of the need for large scale solar projects is established in national planning policy, as detailed in Section 4 of Planning Statement [EX4/GH7.15_B] and Statement of Need [APP-556] and the principle that large scale solar is an essential part of the UK's generation mix which will bring benefits to national decarbonisation and energy security agendas as well as support the	The Council is in agreement on this matter.	Matter Agreed

			affordability of clean electricity is supported by North Northamptonshire Council.		
--	--	--	--	--	--

3.4 Planning Statement

Table 3.3 Planning Statement

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
PS-01	Local planning policy	Planning Statement [EX4/GH7.15_B]	<p>The Applicant has identified all planning policy documents in Section 5.5 of the Planning Statement [EX4/GH7.15_B] which are relevant and important in relation to the area of the Application. The compliance with relevant local policies is accurately set out in Policy Compliance Document [EX4/GH7.23_B]</p> <p>Applicant Response to Consultee Position</p> <p>The Mears Ashby Village Design Statement Supplementary Planning Document (Adopted February 2017) has been included in the Planning Statement [EX4/GH7.15_B] submitted at Deadline 5.</p>	Please refer to LIR section 6. Mears Ashby Village Design Statement Supplementary Planning Document (Adopted February 2017) to be included.	Matter Agreed

3.5 Alternatives and Design Evolution

Table 3.2 Alternatives and Design Evolution

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
ALT-01	Site Selection	ES Chapter 5: Alternatives and Design Evolution - Appendix 5.1 Site Selection Assessment [REP1-037]	<p>The methodology used in ES Chapter 5: Alternatives and Design Evolution - Appendix 5.1 Site Selection Assessment [REP1-037] is appropriate for the Scheme.</p> <p>The outline design parameters set out in the Concept Design Parameters and Principles [REP1-151] are considered appropriate and secured by a Requirement in the Draft DCO [REP3-024].</p>	The Council is in agreement on this matter.	Matter Agreed
ALT-03	Design Approach	Design Approach Document [APP-560]	The process which the design development has taken and how it incorporates technical, functional and safety-led design requirements that have been established through the consultation periods is set out in the Design Approach Document [APP-560] and is acceptable.	The Council is in agreement on this matter.	Matter Agreed

3.6 EIA Methodology

Table 3.5 EIA Methodology

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
AM-01	Assessment Methodology	ES Chapter 2_EIA Process and Methodology [APP-039] ES Chapter 7 to 23 [APP-039 to APP-060]	The assessment methodology adopted within the environmental topic assessments mentioned in the technical chapters of the ES [APP-039 to APP-060] has been derived from the information obtained through consultation with stakeholders and by reviewing relevant guidance and studies and is considered acceptable.	The Council is in agreement on this matter.	Matter Agreed
AM-02	Assessment methodology – Professional judgement	ES Chapter 2_EIA Process and Methodology [APP-039] ES Chapter 7 to 23 [APP-039 to APP-060]	<p>The identification of likely significant effects on sensitive features and receptors has been informed by professional judgement and the views of the relevant technical specialists, where necessary.</p> <p>The application of professional judgement by specialists within the environmental topic assessments is outlined in the technical chapters of the ES Chapter 7 to 23 [APP-039 to APP-060] are appropriate and robust.</p>	The Council is in agreement on this matter.	Matter Agreed

3.7 Residual Effects

Table 3.6 Residual Effects

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
RE-01	Impacts and Effects	ES Chapter 7 to 23 [APP-039 to APP-060]	<p>The assessment findings for the environmental topics mentioned in the following technical chapters of the ES are considered not significant or of beneficial significance and therefore is considered acceptable:</p> <ul style="list-style-type: none">• ES Chapter 7: Climate Change [APP-044]• ES Chapter 15: Glint and Glare [APP-052]• ES Chapter 16: Air Quality [APP-053]• ES Chapter 18: Human Health [APP-055]• ES Chapter 21: Electromagnetic Fields [APP-058]• ES Chapter 22: Ground Conditions and Contamination [REP1-025] <p>ES Chapter 23: Major Accidents and Disasters [APP-060]</p>	The Council is in agreement on this matter.	Matter Agreed

3.8 Landscape and Visual Impact

Table 3.7 Landscape and Visual Impact

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
LVIA-01	Meetings and Workshops	ES Chapter 8: Landscape and Visual [APP-045]	The meetings and workshops with statutory consultees set out within Section 8.2 of ES Chapter 8: Landscape and	The Council agrees that the engagement has been a valuable tool in seeking	Matter Agreed

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
		ES Chapter 8 Appendix 8.6 Landscape Consultation [APP-083]	Visual [APP-045] and ES Chapter 8 Appendix 8.5 Landscape Consultation [APP-083] have been effective in informing decision making and monitoring the LVIA assessment process of the Scheme to date. The engagement has been timely and has been a valuable tool in seeking understanding and agreement about the key issues.	understanding and agreement about the key issues	
LVIA-02	Baseline Conditions	ES Chapter 8: Landscape and Visual [APP-045] ES Chapter 8 Appendix 8.3.1 LVIA Assessment Sheets [APP-081]	The description of the existing baseline landscape and visual conditions set out within Section 8.5 of ES Chapter 8: Landscape and Visual [APP-045] and ES Chapter 8 Appendix 8.3.1 LVIA Assessment Sheets [APP-081] is representative of the baseline site conditions and therefore acceptable to inform the assessment.	The Council agrees that the information provided is appropriate and sufficient to inform the assessment, and that the approach taken is acceptable for the purposes of the Examination.	Matter Agreed
LVIA-03	Appendices and Figures	ES Chapter 8: Landscape and Visual [APP-045]	The Appendices and Figures listed within Section 8.1 of ES Chapter 8: Landscape and Visual [APP-045] are presented in sufficient detail to	The Council agrees that the information provided is appropriate and sufficient to inform the assessment, and that the approach taken is	Matter Agreed

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
			inform the baseline, underpin the LVIA process and to identify the likely significant effects of the Scheme.	acceptable for the purposes of the Examination.	
LVIA-04	Study Area/Scope of Assessment	ES Chapter 8: Landscape and Visual [APP-045]	The Study Areas and Scope of Assessment set out within Section 8.5 of ES Chapter 8: Landscape and Visual [APP-045] is sufficient to inform the assessment baseline conditions.	The Council agrees that the information provided is appropriate and sufficient to inform the assessment, and that the approach taken is acceptable for the purposes of the Examination.	Matter Agreed
LVIA-05	Assessment Methodology	ES Chapter 8: Landscape and Visual [APP-045] ES Chapter 8 Appendix 8.1 LVIA Methodology [APP-078]	The methodology adopted within Section 8.4 of ES Chapter 8: Landscape and Visual [APP-045] and ES Chapter 8 Appendix 8.1 LVIA Methodology [APP-078] follows the 'Guidelines for Landscape and Visual Impact Assessment' Third Edition (GLVIA3) and derived from consultation and engagement with stakeholders and by reviewing relevant guidance and studies and is considered acceptable in so far as it relates to those elements of the Scheme	The Council agrees that the methodology is appropriate and sufficient to inform the assessment, and that the approach taken is acceptable for the purposes of the Examination.	Matter Agreed

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
			within North Northamptonshire Council's jurisdiction.		
LVIA-06	Landscape Character Assessments	ES Chapter 8: Landscape and Visual [APP-045] ES Chapter 8 Appendix 8.4 Landscape Character Area Descriptions [APP-082] ES Chapter 8 Appendix 8.2 Landscape Receptor [APP-080]	The published landscape character assessments that are relied upon at the national, regional, and local level and set out within Section 8.5 of ES Chapter 8: Landscape and Visual [APP-045] and ES Chapter 8 Appendix 8.4 Landscape Character Area Descriptions [APP-082] and ES Chapter 8 Appendix 8.2 Landscape Receptor [APP-084] are considered acceptable to inform the assessment baseline conditions.	The Council agrees that the information provided is appropriate and sufficient to inform the assessment, and that the approach taken is acceptable for the purposes of the Examination.	Matter Agreed
LVIA-07	Visual Receptors: Assessment Viewpoints for the Sites	ES Chapter 8: Landscape and Visual [APP-045]	The viewpoints set out within Section 8.5 of ES Chapter 8: Landscape and Visual [APP-045] and ES Chapter 8: Figure 8.10 [APP-308] are considered acceptable to inform the assessment baseline conditions.	The Council agrees that the viewpoint information provided is appropriate and sufficient to inform the assessment, and that the approach taken is acceptable for the purposes of the Examination.	Matter Agreed
LVIA-08	Visual Receptors: Additional	ES Chapter 8: Landscape and Visual [APP-045]	The viewpoints set out within Section 8.5 of ES Chapter 8: Landscape and Visual [APP-	The Council agrees that the viewpoint information provided is appropriate and sufficient to	Matter Agreed

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
	Assessment Viewpoints for the Cable Route Corridor		045] and ES Chapter 8: Figure 8.10 [APP-308] are considered acceptable to inform the baseline conditions for the Cable Route Corridor and Substations.	inform the assessment, and that the approach taken is acceptable for the purposes of the Examination.	
LVIA-09	Landscape Receptors: Value	ES Chapter 8: Landscape and Visual [APP-045]	The judgements on value for the landscape receptors, as set out within Section 8.5 of ES Chapter 8: Landscape and Visual [APP-045] are considered acceptable to inform the assessment baseline conditions.	The Council agrees with the landscape value judgements presented in the ES, which appropriately reflect the characteristics, condition and local distinctiveness of the receiving landscape.	Matter Agreed
LVIA-10.1	Embedded Design Mitigation	ES Chapter 8: Landscape and Visual [APP-045]	The approach and proposals for embedded mitigation set out within Section 8.6 of ES Chapter 8: Landscape and Visual [APP-045] , considers the landscape and visual matters associated with the Scheme as part of an iterative process, and is considered acceptable.	The Council acknowledges that embedded mitigation has been incorporated through the Outline Landscape and Ecological Management Plan (OLEMP) [REP3-062] and associated mitigation drawings, and that these measures represent a landscape-led approach.	Matter Agreed
LVIA-10.2	Embedded Design Mitigation	ES Chapter 8: Landscape and Visual [APP-045]	Establishing planting will add a positive element to this landscape.	It is considered that the effectiveness of planting in	Matter Under Discussion

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
				reducing character effects has been overstated.	
LVIA - 10.3	Embedded Design Mitigation	ES Chapter 8: Landscape and Visual [APP-045]	Vegetation removal, as shown on the Landscape and Ecology Mitigation and Enhancement Plans [REP3-042, REP3-044, APP-209, REP3-046, APP-211, REP3-048, REP3-050, APP-214, APP-215, REP3-052, APP-217, REP3-054, APP-219] is relatively minimal.	The Council acknowledges that through the Landscape Led approach to the design, vegetation removal is relatively minimal.	Matter Agreed
LVIA-11	Presentation of Assessment Findings	ES Chapter 8: Landscape and Visual [APP-045]	The approach to presenting the assessment findings is considered acceptable, as set out in Section 8.6 of ES Chapter 8: Landscape and Visual [APP-045] , supplemented by detailed appendices.	The Council agrees that the way information has been presented is appropriate and sufficient to inform the assessment, and that the approach taken is acceptable for the purposes of the Examination.	Matter Agreed
LVIA-12.1	Landscape and Ecological Management Plan: Landscape and Ecological Improvements	Landscape and Ecology Mitigation and Enhancement Plans (Figures 4.10-4.20) [REP3-042, REP3-044, APP-209, REP3-046, APP-211, REP3-048, REP3-050, APP-214, APP-215, REP3-	The landscape and ecological improvements are set out in the Landscape and Ecology Mitigation and Enhancement Plans (Figures 4.10 to 4.20) . The Landscape and Ecology Mitigation and Enhancement Plans	This is agreed. The Council supports the principle of long-term management as set out in the OLEMP [REP3-062] and recognises the opportunities for biodiversity enhancement	Matter Agreed

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
		052, APP-217, REP3-054, APP-219] Outline Landscape and Ecological Management Plan [REP3-062]	<p>(Figures 4.10 to 4.20) are acceptable and require no further revisions.</p> <p>The Outline Landscape and Ecological Management Plan [REP3-062] and are considered acceptable.</p> <p>Following further development of the Scheme, more detailed planting plans including detail of areas of landscape mitigation, location and types of planting (species), as well as number, density and specification will be provided prior to any works commencing. The detailed landscape proposals will consist of the area and extent of the Scheme shown on Landscape and Ecology Mitigation and Enhancement Plans (Figures 4.10-4.20). The Outline Landscape and Ecological Management Plan [REP3-062] (the 'OLEMP') is secured by Requirement 7 of Schedule 2 of Draft Development</p>	<p>through hedgerow, woodland and grassland creation.</p> <p>However, the Council considers that these measures primarily function as mitigation to reduce adverse effects rather than as enhancements that would restore the original landscape character.</p>	

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
			Consent Order Revision [REP1-008]		
LVIA – 12.2	Landscape and Ecological Management Plan: Landscape and Ecological Improvements	<p>Landscape and Ecology Mitigation and Enhancement Plans (Figures 4.10-4.20) [REP3-042, REP3-044, APP-209, REP3-046, APP-211, REP3-048, REP3-050, APP-214, APP-215, REP3-052, APP-217, REP3-054, APP-219]</p> <p>Outline Landscape and Ecological Management Plan [REP3-062]</p>	<p>The Outline Landscape and Ecological Management Plan [REP3-062] and are considered acceptable.</p> <p>The Outline Landscape and Ecological Management Plan [REP3-062] (the 'OLEMP') is secured by Requirement 7 of Schedule 2 of Draft Development Consent Order Revision [REP1-008]</p>	<p>The Council supports the principle of long-term management as set out in the OLEMP [REP3-062] and recognises the opportunities for biodiversity enhancement through hedgerow, woodland and grassland creation.</p> <p>The Outline Landscape and Ecological Management Plan [REP3-062] (the 'OLEMP') is acceptable.</p>	Matter Agreed
LVIA-12.3	Landscape and Ecological Management Plan: Landscape and Ecological Improvements	<p>Landscape and Ecology Mitigation and Enhancement Plans (Figures 4.10-4.20) [REP3-042, REP3-044, APP-209, REP3-046, APP-211, REP3-048, REP3-050, APP-214, APP-215, REP3-052, APP-217, REP3-054, APP-219]</p> <p>Outline Landscape and Ecological Management Plan [REP3-062]</p>	<p>Following further development of the Scheme, more detailed planting plans including detail of areas of landscape mitigation, location and types of planting (species), as well as number, density and specification will be provided prior to any works commencing.</p> <p>The detailed landscape proposals will consist of the area and extent of the</p>	The Council agrees that the information provided is appropriate and sufficient to inform the detailed planting plans required post consent.	Matter Agreed

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
			Scheme shown on Landscape and Ecology Mitigation and Enhancement Plans (Figures 4.10-4.20) .		
LVIA-13.1	Landscape Assessment	ES Chapter 8: Landscape and Visual [APP-045]	The Landscape Assessment set out in ES Chapter 8: Landscape and Visual [APP-045] follows GLVIA3 and is robust.	The Council agrees that the assessment follows GLVIA3 and that the methodology is robust.	Matter Agreed
LVIA-13.2.1	Landscape Assessment	ES Chapter 8: Landscape and Visual [APP-045]	The Landscape Assessment set out in ES Chapter 8: Landscape and Visual [APP-045] for Sites C, D and BESS individually are considered acceptable.	This is agreed.	Matter Agreed
LVIA-13.2.2	Landscape Assessment	ES Chapter 8: Landscape and Visual [APP-045]	The Landscape Assessment set out in ES Chapter 8: Landscape and Visual [APP-045] for Sites E, F individually are considered acceptable.	There is partial disagreement with the assessment outcomes. The Council considers that residual landscape effects at Year 15 are understated for certain parcels, particularly Site E near Mears Ashby and Site F near Easton Maudit, where the scale, density and	Matter Under Discussion

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
				engineered form of solar arrays will continue to influence landscape character and perception.	
LVIA-13.3.1	Landscape Assessment	ES Chapter 8: Landscape and Visual [APP-045]	The proposed planting and habitat measures set out on the Landscape and Ecology Mitigation and Enhancement Plans (Figures 4.10 to 4.20) , would deliver ecological and structural improvements across all the Sites.	The proposed planting and habitat measures would deliver ecological and structural improvements.	Matter Agreed
LVIA-13.3.2	Landscape Assessment	ES Chapter 8: Landscape and Visual [APP-045]	The proposed planting and habitat measures set out on the Landscape and Ecology Mitigation and Enhancement Plans (Figures 4.10 to 4.20) , would deliver ecological and structural improvements across all the Sites resulting in Significant Beneficial Effects to Landscape Fabric from	These primarily function as mitigation rather than enhancement and would not fully outweigh the landscape fabric change arising from the introduction of solar infrastructure, fencing, access tracks, substations and other associated paraphernalia. As such, it is the Council's judgement that there will still be an adverse effect to	Matter Under Discussion

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
			Year 15 for the remaining duration of the Scheme.	Landscape Fabric at Year 15 and for the remaining duration of the scheme.	
LVIA 13.4.1	Landscape Assessment	ES Chapter 8: Landscape and Visual [APP-045]	The Landscape Assessment set out in ES Chapter 8: Landscape and Visual [APP-045] concludes that prior to the establishment of the mitigation proposals, effects on landscape character associated with Sites C, D, E, F and BESS individually within the Local Study Area during construction and at Year 1 would be Significant.	This is agreed.	Matter Agreed
LVIA - 13.4.2	Landscape Assessment	ES Chapter 8: Landscape and Visual [APP-045]	The Landscape Assessment set out in ES Chapter 8: Landscape and Visual [APP-045] concludes that prior to the establishment of the mitigation proposals, the cumulative effects of the Scheme on landscape character within the Local Study Area during construction and at Year 1 would be Significant.	The Council considers that the combined presence of multiple sites across North Northamptonshire is likely to give rise to a greater level of significant adverse cumulative effect on landscape character as a whole than set out in the assessment.	Matter Under Discussion

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
LVIA 13.5	Landscape Assessment	ES Chapter 8: Landscape and Visual [APP-045]	The Landscape Assessment set out in ES Chapter 8: Landscape and Visual [APP-045] concludes that following the establishment of the mitigation proposals, effects on landscape character associated with sites individually would reduce and whilst still Adverse, would no longer be Significant.	The Council agrees with this position.	Matter Agreed
LVIA-14.1	Visual Assessment	ES Chapter 8: Landscape and Visual [APP-045]	The methodology used within the visual assessment is appropriate and conforms to GLVIA3.	The Council agrees that the viewpoint assessment methodology is appropriate.	Matter Agreed
LVIA-14.2	Visual Assessment	ES Chapter 8: Landscape and Visual [APP-045]	The submitted Photomontages conform to the requirements of LI TGN 6/19 guidance.	Submitted photomontages are of a good standard and conform to the requirements of LI TGN 6/19 guidance.	Matter Agreed
LVIA-14.3	Visual Assessment	ES Chapter 8: Landscape and Visual [APP-045]	Other than for residual visual effects on Easton Lane (NN10 and NN13), the Visual Assessment set out in ES Chapter 8: Landscape and Visual [APP-045] are considered acceptable.	The Council agrees with this position.	Matter Agreed

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
LVIA-14.4	Visual Assessment	ES Chapter 8: Landscape and Visual [APP-045]	Both the Applicant and the Local Authority agree that despite differences in professional opinion regarding the extent and duration of residual visual effects on Easton Lane (NN10 and NN13), effects from Year 15 and for the remaining duration of the Scheme whilst adverse, would not be Significant.	The Council agrees with this position.	Matter Agreed
LVIA-15	Duration	Scheme duration Decommissioning	<p>The operational life of the Scheme is for no more than 60 years and decommissioning is therefore estimated to be in 2089.</p> <p>Requirement 21 of Schedule 2 to the Draft DCO Revision A [REP3-024] requires the Scheme to be decommissioned in accordance with a decommissioning plan to be approved by the relevant planning authorities.</p> <p>This time period is assessed in the EIA (and within this LVIA chapter and supporting appendices).</p>	The Council considers that a 40-year operational period would be materially preferable to the proposed 60-year duration given the earlier establishment of a 'legacy landscape' and the reduced length of time characterised by energy-infrastructure.	Matter Under Discussion

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
			The proposed maximum 60-year operational period is not uncommon, several consented solar DCO projects provide for the same timescales including the Mallard Pass Solar Farm; Cottam Solar Project; West Burton Solar Project; Gate Burton Energy Park; and Tillbridge Solar Project.		

3.9 Ecology and Biodiversity

Table 3.8 Ecology and Biodiversity

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
EB-01	Methodology	ES Chapter 9: Ecology and Biodiversity [REP1-033]	The methodology adopted within Section 9.4 of ES Chapter 9 Ecology and Biodiversity [REP1-033] has been derived from the information obtained through consultation and engagement with stakeholders and by reviewing relevant guidance and studies and is considered acceptable in so far as it relates to those	The desk-based methodology is acceptable and can be considered 'agreed'. With regard to the Field Survey and Methodologies and Scope, due as much as anything to the later addition of some sites (including Green Hill F within NNC boundaries) and consequent inconsistent levels of surveys that has been carried out	Matter Under Discussion

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
			elements of the Scheme within North Northamptonshire Council.	on the individual parcels, there remains certain elements of this aspect of the methodology that may need further assessment in order to ensure that proper and comparable conclusions are drawn from the work carried out so far. In this respect therefore this is still <i>under discussion</i> . The Cable Route surveys were conducted during a sub-optimal period of the year, and this is acknowledged by the applicant as requiring further work and details provided.	
EB-02	Baseline Conditions	ES Chapter 9: Ecology and Biodiversity [REP1-033]	The methodology adopted within Section 9.6 of ES Chapter 9 Ecology and Biodiversity [REP1-033] are representative of the baseline site conditions in so far as they relate to those elements of the Scheme within North Northamptonshire Council.	As the Ecology and Biodiversity chapter of the ES notes, the baseline conditions are set out based on in some cases only partially completed surveys, and as such this section, by definition, must remain 'Under Discussion'.	Matter Under Discussion
EB-03	Mitigation	ES Chapter 9: Ecology and Biodiversity [REP1-033]	The proposed mitigation measures set out within Section 9.8 of ES Chapter 9 Ecology and Biodiversity [REP1-033] are acceptable in so far as they relate to those elements of the	Notwithstanding that the approach to detailing mitigation measures for the sites adopts an acceptable approach, the details of mitigation required remain to be determined as a consequence of the unresolved	Matter Under Discussion

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
			Scheme within North Northamptonshire Council.	issues in the mitigation and baseline conditions sections above.	
EB-04	Residual Effects	ES Chapter 9: Ecology and Biodiversity [REP1-033]	The judgements on the likely residual effects and conclusions for the effects to ecology set out within Section 9.9 of ES Chapter 9 Ecology and Biodiversity [REP1-033] are considered acceptable in so far as they relate to those elements of the Scheme within North Northamptonshire Council.	Section 9.9 of the Ecology and Biodiversity chapter highlights that there remains the possibility of 'significant adverse effects at an international level through loss of Functionally Linked Land. As this relates primarily for parcel Green Hill F (within NNC boundaries), and as this parcel is acknowledged to have had only partial surveys completed on it, the section on residual effects remains 'under discussion', pending further information.	Matter Under Discussion
EB-05	Habitat Regulation Assessment	ES Chapter 9: Ecology and Biodiversity [REP1-033] Habitat Regulations Assessment (HRA) [REP1-153]	A Habitat Regulation Assessment screening has been carried out and outlined in Habitat Regulations Assessment (HRA) [REP1-153] with impacts discussed in ES Chapter 9: Ecology and Biodiversity [REP1-033] The methodology is considered acceptable and the assessment is considered to have been carried out appropriately.	The HRA sets out that some of the surveys required for a full assessment have not been completed in areas within NNC Boundaries, and as such this section remains 'Under Discussion'.	Matter Under Discussion

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
EB-06	Biodiversity Net Gain	Appendix 9.13: Biodiversity Net Gain [REP1-043]	The approach to assessing and securing BNG as stated in Appendix 9.13: Biodiversity Net Gain [REP1-043] was acceptable.	BNG for NSIPs is not yet mandatory, but the applicant has provided to meet the requirements of the BNG process as if it were. In this respect, the gains that NNC might expect to see achieved in other developments within the council area might not be applied to the same standards in this case in the event that any local and particular issues arose as planning proceeds and development issues arise. Notwithstanding this, as the applicant has proposed to meet the BNG thresholds as good practice, NNC will consider this from that perspective. The applicant has indicated that the proposed development requires design flexibility in a number of respects, including panel layout, and cable route corridor, which could impact on the detailed outcomes for the BNG proposals. As such it is not possible to agree the specifics of the proposals as set out in Appendix 9.13. However, the 'Applicant Position' in the SOCG document states that they consider the 'approach to assessing and securing BNG' to be acceptable. Given the	Matter Agreed

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
				non-mandatory status of the BNG proposed for this development, and that the indicative layouts would result in percentage uplifts for each BNG Unit type substantially in excess of the 10% figure that applies to mandatory BNG site, and that this allows significant leeway for future changes to be made that would not materially impact on the overall figure, we are satisfied that the 'approach' can be agreed, albeit there remains the need for further discussion on the detail.	
EB-07	Outline Landscape and Ecological Management Plan	Outline Landscape and Ecological Management Plan [REP3-062]	The measures in the OLEMP [REP3-062] are correctly identified and appropriate	The Outline LEMP addresses general principles for the management of all habitat types in relation to the setting and context of the site alongside existing off-site habitats and taking into account external strategies such as the LNRS and Biodiversity Opportunity Mapping. While detail remains to be clarified on certain aspects of the proposals on completion of the DCO, the proposals included, as far as they go, addresses (or sets out how this will be addressed in the future) the key points that would be	Matter Agreed

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
				required for a full and final LEMP to be approved. The Outline LEMP states that the final LEMP would need to be substantially in accordance with the OLEMP. Barring the details that cannot be provided at present, we are satisfied that this is a satisfactory document and agree that the measures identified are correctly identified and appropriate.

ALC-01	Methodology	Chapter 20 Agricultural Circumstances [APP-057]	The assessment methodology detailed within Section 20.4 of ES Chapter 20 Agricultural Circumstances [APP-057] is considered acceptable.	The Council is in agreement on this matter.	Matter Agreed
ALC-02	Baseline Conditions	Chapter 20 Agricultural	The baseline conditions detailed within Section 20.6 of ES Chapter 20 Agricultural Circumstances [APP-057] and within ES Chapter 20 - Appendix 20.1 Agricultural Land	The Council is in agreement	Matter Agreed

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
		Circumstances [APP-057]	Classification Technical Report are representative of the site conditions within North Northamptonshire Council.	on this matter.	
ALC-03	Impacts to ALC graded land and soil quality	Chapter 20 Agricultural Circumstances [APP-057]	<p>Natural England document Agricultural Land Classification: protecting the best and most versatile agricultural land (TIN049) https://publications.naturalengland.org.uk/publication/35012 explains the Agricultural Land Classification (ALC) system and its use in informing land use planning decisions for agricultural land. The Applicant has submitted an ALC assessment for agricultural land within the Sites and Cable Route Corridor showing it is predominantly ALC Grade 3a, which is classed as best and most versatile agricultural land. The land within 15km of Grendon Substation is predominantly Grade 3 therefore it was not feasible to avoid land that was potentially BMV when undergoing the site selection.</p> <p>The Scheme will not result in the loss of best and most versatile (BMV) agricultural land because:</p> <ul style="list-style-type: none"> • The Scheme will be decommissioned at the end of its operational life and restored to previous conditions. • Land will retain its existing Agricultural Land Classification (ALC) grade baseline after decommissioning of the Scheme as set out at Section 20.6 of ES Chapter 20 Agricultural Circumstances [APP-057]. • The residual effect on soil function would be the same as in the operational phase, the Scheme would have Moderate to Major beneficial effect on soil functions (especially on soil carbon), which is Significant. 	The Applicant awaits the Council's comments.	Matter Under Discussion

	Matter	Details of Matters for Discussion	Applicant Position	Consultee Position	Status
			A Soil Management Plan (SMP) will be included within the detailed Construction, Operational and Decommissioning Environmental Management Plans (CEMP, OEMP, DEMP) with the aim of conserving the soil resource and its functional capacity for support of agricultural production as set out at paragraph 20.8.18 of ES Chapter 20 Agricultural Circumstances [APP-057] which is considered acceptable.		
ALC-04	Mitigation	Chapter 20 Agricultural Circumstances [APP-057]	The proposed mitigation measures set out within Section 20.9 of ES Chapter 20 Agricultural Circumstances [APP-057] are acceptable in so far as they relate to those elements of the Scheme within North Northamptonshire Council.	The Applicant awaits the Council's comments.	Matter Under Discussion
ALC-05	Residual Effects	Chapter 20 Agricultural Circumstances [APP-057]	The judgements on the likely residual effects and conclusions for the effects to agricultural land set out within Section 20.10 of ES Chapter 20 Agricultural Circumstances [APP-057] are considered acceptable in so far as they relate to those elements of the Scheme within North Northamptonshire Council.	The Applicant awaits the Council's comments.	Matter Under Discussion
