

Green Hill Solar Farm

EN010170

Viewpoint Photography and Photomontages Green Hill G Viewpoint MKCC 3

Prepared by: Lanpro Services

Date: February 2026

Document Reference: EX5/GH8.2.16

The Infrastructure Planning (Examination Procedure) Rules 2010

Rules 8(1)(b)

Viewing Information

This photograph and visualisation is a cylindrical projection panorama. Hold this sheet at a comfortable arm's length from your eyes and curve the image through 90° and turn head to view. Alternatively, the visualisation can be laid flat and viewed by scanning left or right parallel to the sheet maintaining a 50cm viewing distance between your eye and the page.

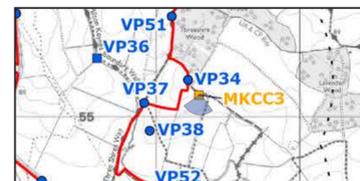

This visualisation is a tool for assessment and is best used for comparison in the field from the viewpoint location shown. It cannot be considered a substitute for visiting the viewpoint location.

Technical Information

Refer to accompanying Technical Methodology.

Printing Note

This viewpoint visualisation is spread across a single sheet 841mm wide and 297mm high. To give the correct viewing distance the sheet should be printed at a scale of 1:1 on large format paper and cut to size. Do not print at A3.

Viewpoint location and extent of view.

Distance to nearest field boundary (approximate): 86.99m
