Subject: COMPLAINT - NN7 1JB - 710 Station Rd, Grendon, Northants

Dear Sir, I have received lots of correspondence via telephone and email over the last few months regarding my interest in land that is affected by the Green Hill Solar project.

These calls and correspondence were not clear and in fact have been played down in subsequent meetings. This is in contrast to offers to go through plans to ascertain my ownership rights, in my own home.

As I understand it we own the subsoil rights to Station Rd outside our property and have rights of access across the substation title deed.

We strongly object to the Green Hill Solar project and the tactics used to obtain information. These communications are unsettling I am unsure what the implications are of these tactics.

Please take this letter as a formal complaint.

Yours faithfully

Helen Elderkin
