Concept Design Parameters and Principles

The Applicant has updated the maximum dimensions of the DC Electrical boxes under Work No.1 (b) in the Concept Design Parameters and Principles **[EX6/GH7.17_C]**. This change does not affect the findings of the Environmental Statement as they remain smaller than the larger infrastructure that can also be placed anywhere within the Work No. 1 area.

Please do not hesitate to contact us using the details provided below if you have any questions.
