Subject: Fw: Green Hill Project in Northamptonshire

To whom it may concern,

Surely the British have some common sense left ? Listen to the farmers telling you that we will be short of food and you still want to cover prime Agricultural Land in Glass. Please do not take 15 days to send a reply just do something sensible for once and refuse this application as none of the land will be reclaimed for farming in 60 years either. You want to save energy beat climate change and not STARVE then do the right thing , REFUSE GREEN HILL SOLAR.

Thank you for your time,

Dr Jane Harvey BVET MED MRCVS
