1 Introduction

1.1 Purpose of the Document

- 1.1.1 This document sets out the changes that have been made to the Draft Development Consent Order, relating to the Development Consent Order Application (the 'Application') for Green Hill Solar Farm (the 'Scheme').

2 Schedule of Changes to the Draft Development Consent Order

Table 2.1: Schedule of Changes to the Draft Development Consent Order at Deadline 1

In document Location	Request	Rationale	Change Made	Relevant Doc Version
Table of Contents	Planning Inspectorate s51 advice	Table of Contents added	[Added Table of Contents]	A
Article 2(1)	Applicant	Removal of unused definition	“limits of deviation” means the limits of deviation shown for each numbered work on the works plans;	A
Article 2(1)	Planning Inspectorate s51 advice and Applicant	Clarification in response to s51 advice	“outline drainage strategy” means the document of that name <u>relevant part of the flood risk assessment and drainage strategy</u> identified in the table at Schedule 13 and which is certified by the Secretary of State as the outline drainage strategy for the purposes of this Order;	A
Article 18(13) and (17) (Removal of Human Remains)	Applicant	Corrections	(13) In this article— (a) references to a relative of the deceased are to a person who— (i) is a husband, wife, civil partner, parent, grandparent, child or grandchild of the deceased; <u>or</u> [...] (17) [...] (b) in relation to a right over land so acquired (whether or not by agreement), or the temporary use of land pursuant to articles s 31 (temporary use of land for constructing the authorised development) or 32 (temporary use of land for maintaining the authorised development), so as to permit the exercise of that right or the temporary use of land by the undertaker in accordance with the provisions of this Order	A

In document Location	Request	Rationale	Change Made	Relevant Doc Version
Article 21	Applicant	Correction	(2) This article is subject to article 22 (time limit for exercise of authority to possess land temporarily or to acquire land compulsorily), article 24 (compulsory acquisition of rights), article 31 (temporary use of land for constructing the authorised development) and article 49 (Crown rights).	A
Article 22(4)(a) (Time limit for exercise of authority to possess land temporarily or to acquire land compulsorily)	Applicant	Correction	(a) references to the 1965 Act include the modifications in article 28 (modification of Part 1 of the Compulsory Purchase Act 1965 Act); and	A
Article 25 (private rights)	Applicant	Clarification that the undertaker may, by positive notice, extinguish private rights. This amendment is consistent with the compensation provisions in (renumbered) paragraph (5), and reflects that there may be circumstances where the permanent acquisition or extinguishment of a private right is necessary. This approach is less onerous than the provisions contained in solar DCOs made to date which	[...] (4) The undertaker may by notice extinguish private rights and restrictive covenants over land subject to compulsory acquisition under this Order— (a) from the date of acquisition of the land, or of the right, or of the benefit of the restrictive covenant by the undertaker, whether compulsorily or by agreement; or (b) on the date of entry on the land by the undertaker under section 11(1) (power of entry) of the 1965 Act. (5) Any person who suffers loss by the extinguishment, cessation of effect or suspension of any private right or restrictive covenant under this article is entitled to compensation in accordance with the terms of section 152 (compensation in case where no right to claim in nuisance) of the 2008 Act to be determined, in case of dispute, under Part 1 of the 1961 Act.	A

In document Location	Request	Rationale	Change Made	Relevant Doc Version
		automatically extinguished all private rights where land was acquired unless notice to the contrary was given. The amendment to paragraph (5) confirms that compensation is available where private rights cease to have effect where they are inconsistent with the exercise of compulsory acquisition powers as well as in circumstances where private rights are extinguished.		
Article 31 (Temporary use of land for construction the authorised development)	Applicant	Corrections	(5) [...] (e) restore the land on which any works have been carried out under paragraph (1)(f) insofar as the works relate to mitigation works identified in the environmental statement or required pursuant to the requirements in Schedule 2 (requirements); (f) remove any protective works which have been placed on the land under article 19 (protective works to buildings); or	A
Article 39 (Planning permission, etc.)	Applicant	Drafting has been added to explicitly manage the potential for the authorised development to interact with planning permissions granted under the Town and Country Planning Act 1990.	Planning permission, etc. Operational land for the purposes of the 1990 Act 39. (1) Following the coming into force of this Order, if planning permission is granted under the powers conferred by the 1990 Act for development any part of which is within the Order limits and which does not constitute any part of the authorised development then the	A

In document Location	Request	Rationale	Change Made	Relevant Doc Version
		This drafting is required to ensure that the authorised development does not extinguish existing planning permissions through the rationale set out in Hillside Parks Ltd v Snowdonia National Park (2022). It also ensures that the carrying out of the authorised development will not result in an enforceable breach of any planning condition in existing planning permissions. The article name has been updated accordingly. Further justification is set out in the updated Explanatory Memorandum submitted at Deadline 1.	<u>carrying out of development pursuant to that planning permission does not constitute a breach of the terms of this Order.</u> <u>(2) Development consent granted by this Order is to be treated as specific planning permission for the purposes of section 264(3)(a) (cases in which land is to be treated as <u>not being</u> operational land) of the 1990 Act.</u> <u>(3) To the extent any development carried out or used pursuant to a planning permission granted under section 57 (requirement of planning permission) of the 1990 Act or compliance with any conditions of that permission is inconsistent with the exercise of any power, right or obligation under this Order or the authorised development—</u> <u>(a) that inconsistency is to be disregarded for the purposes of establishing whether any development which is the subject matter of that planning permission is capable of physical implementation; and</u> <u>(b) in respect of that inconsistency, no enforcement action under the 1990 Act may be taken in relation to development carried out or used pursuant to that planning permission, or compliance with any conditions of that planning permission, whether inside or outside the Order limits.</u> <u>(3) Any development or any part of a development within the Order limits which is constructed or used under the authority of a permission granted under section 57 of the 1990 Act, including permissions falling under paragraph (1) or (3), is deemed not to be a breach of, or inconsistent with, this Order and does not prevent the authorised development being carried out or used or any other function under this Order being exercised.</u> <u>(4) In paragraph (3), “enforcement action” means any enforcement action provided for under Part 7 of the 1990 Act.</u>	

In document Location	Request	Rationale	Change Made	Relevant Doc Version
Article 40 (Felling or lopping of trees and removal of hedgerows)	Applicant	Correction	(1) [...] (b) constituting a danger to persons using the authorised development; or	A
Schedule 1 – Authorised Development – Work No. 2	Applicant	Amendments to reflect developments in battery technology	Work No. 2 — an energy storage facility comprising— (a) battery energy storage cells with automatic fire suppression system or dry pipe sprinkler system system units each containing fire protection systems and components ; (b) a structure protecting the battery energy storage cells comprised in Work No. 2(a) and ancillary equipment, being either one container or multiple containers joined to each other, mounted on a reinforced concrete foundation slab or concrete piling; (c) interconnection units including heating, ventilation and air conditioning or liquid cooling systems and temperature management either housed within the containers comprised in Work No. 2(b), attached to the side or top of each of the containers, or located separate from but near to each of the containers; (d) conversion units including inverters, transformers, switchgear and energy management system; (e) monitoring and control systems housed within a container with Work No. 2(c) or located separately in its own container or control room; (f) electrical cabling including electrical cables connecting Work No. 2 to Work No. 3A; (g) bundled impermeable surface or other form of containment system to manage surface water drainage;	A

In document Location	Request	Rationale	Change Made	Relevant Doc Version
			(h) water storage facility for the purposes of firefighting water supply; and (i) bunded impermeable surface or other form of containment system and associated infrastructure to contain used firewater.	
Schedule 1 – Authorised Development – Work No. 8	Applicant	Amendment to reflect that temporary access may be required during periods of scheduled maintenance in addition to construction. Corrections	Work No. 8— works to facilitate access to Work Nos. 1 to 7 and 9 to 10 including— (a) Work No. 8A— works to facilitate temporary construction, maintenance and decommissioning access to Work Nos. 1 to 7 and 9 to 10 including— (i) creation of accesses from the public highway; (ii) creation of visibility splays; (iii) works to alter the layout of any street or highway temporarily; and (iv) offsite works adjacent to highways land including those to structures, boundary features, drainage features on private land, in connection with the movement of abnormal indivisible loads. (b) Work No. 8B— works to facilitate permanent access to Work Nos. 1 to 6 and 9 to 10 including— (i) creation of accesses from the public highway; (ii) creation of visibility splays; and (iii) works to alter the layout of any street or highway permanently; and (iv) offsite works adjacent to highways land including those to structures, boundary features, drainage features on private land, in connection with the movement of abnormal indivisible loads.

Schedule 2 – Requirements 7 and 8	Applicant	Amendment to ensure the appropriate body is consulted on the detailed landscape and ecological management plan and ecological protection mitigation strategy.	[...]in consultation with Natural England the relevant statutory nature conservation body .	A
Schedule 2 – Requirement 9	Applicant	Clarification	9.—(1) No part of the authorised development may commence until a biodiversity net gain strategy for that part has been submitted to and approved by the relevant planning authority, in consultation with the relevant statutory nature conservation body.	A
Schedule 2 – Requirement 10	Applicant	Amendment to remove the requirement for fencing to be approved for permitted preliminary works. This change is to remove the administrative burden on the local planning authority to approve fencing for permitted preliminary works which may be small and very temporary in nature (for example, a fence erected around an archaeological trial trench for safety reasons).	(3) For the purposes of sub-paragraph (1), “commence” includes any permitted preliminary works.	A
Schedule 2 – Requirement 11	Applicant and Anglian Water	Following discussions, Anglian Water have been added as a consultee on the	[...]	A

Article 2(1) (Interpretation)	Applicant and ExA	Correction to ensure definitions listed in correct alphabetical order	“date of final commissioning” means the date on which the authorised development commences operation by generating electricity on a commercial basis but excluding the generation of electricity during commissioning and testing; “date of decommissioning” means in respect of each part of the authorised development, the date notified under requirement 21 that that part of the authorised development has permanently ceased to generate electricity on a commercial basis; <u>“date of final commissioning” means the date on which the authorised development commences operation by generating electricity on a commercial basis but excluding the generation of electricity during commissioning and testing;</u>	D
Article 2(1) (Interpretation)	Applicant	Correction following addition of later definition	“working day” means any day other than a Saturday, Sunday or English bank or public holiday; and “works plan” means the plan of that name identified in the table at Schedule 13 and which is certified by the Secretary of State as the works plan for the purposes of this Order; and	D
Article 2(1) (Interpretation)	Applicant	Definition added to reflect updates to Requirement 12. The new written scheme of investigation for evaluative archaeological trenching work has been agreed. This document is secured as a certified document.	<u>“written scheme of investigation: archaeological trenching” means the document of that name identified in the table at Schedule 13 and which is certified by the Secretary of State as the written scheme of investigation: archaeological trenching.</u>	D

Article 18(1) (Removal of human remains)	Applicant	Clarification Amendments to clarify that, for any human remains discovered where a licence under the Protection of Military Remains Act 1986 applies, the conditions of that licence are to be adhered to. This drafting ensures that, if there is any conflict between that licence and the provisions of Article 18, the undertaker will not breach the DCO by complying with the licence. Paragraph (18) also applies the effect of the licence to areas specified within the construction environmental management plan, managing	18.—(1) BeforeSubject to paragraph (19), before the undertaker constructs any part of the authorised development or carries out works which will or may disturb any human remains in the Order limits it must remove those human remains from the Order limits, or cause them to be removed, in accordance with the following provisions of this article. [...] (19) Where a licence issued under section 4 of the Protection of Military Remains Act 1986(a) (“a licence”) applies to the remains, or where the remains are found in an area identified in the construction environmental management plan as one to be treated as though a licence applies, the undertaker must comply with the terms of the licence. (a) 1986 c. 35.	D

In document Location	Request	Rationale	Change Made	Relevant Doc Version
		uncertainty over the exact location of military crash sites. This change has been made following the grant of a licence by the JCCC.		
Article 42(3) (Certification of plans and documents, etc.)	Applicant and ExA	Correction	(3) Before submitting the environmental statement in accordance with paragraph (1), the undertaker must substitute any figures or appendices contained therein with the final revision of that figure or appendix that was submitted by the undertaker to the planning-inspectorate Planning Inspectorate or the Secretary of State prior to the making of this Order.	D
Schedule 1 – Authorised Development – Work No. 1	Applicant and ExA	Amendment following ExA's proposed update to the description of Work No. 1 following the amended threshold for onshore solar generating stations regarding the amount of installed capacity required to be considered as a nationally significant infrastructure project in the	Work No. 1 — a ground mounted solar photovoltaic generating station with a gross electrical output capacity of over 50 100 megawatts including—	D

		Generation) Order 2025		

**Table 2.5: Schedule of Changes to the Draft Development Consent Order at Deadline 6**

In document Location	Request	Rationale	Change Made	Relevant Doc Version
Article 2(1) (Interpretation)	Applicant	Following confirmation that the British Railways Board does not hold an interest in land within the Order Limits, there is no Crown Land within the Scheme. There is therefore no requirement for a crown land plan, and this definition has been removed.	“crown land plan” means the plan of that name identified in the table at Schedule 13 and which is certified by the Secretary of State as the crown land plan for the purposes of this Order;	E
Article 21(2) (Compulsory acquisition of land)	Applicant	Following confirmation that the British Railways Board does not hold an interest in land within the Order Limits, references to article 49 (Crown rights) have been removed.	(2) This article is subject to article 22 (time limit for exercise of authority to possess land temporarily or to acquire land compulsorily), article 24 (compulsory acquisition of rights); <u>and</u> article 31 (temporary use of land for constructing the authorised development) and article 49 (Crown rights).	E
Article 24 (Compulsory)	Applicant	Following confirmation that the British Railways	(8) This article is subject to article 49 (Crown rights).	E

In document Location	Request	Rationale	Change Made	Relevant Doc Version
acquisition of rights)		Board does not hold an interest in land within the Order Limits, references to article 49 (Crown rights) have been removed.		
Article 49 (Crown rights)	Applicant	Following confirmation that the British Railways Board does not hold an interest in land within the Order Limits, there is no Crown Land within the Scheme. Article 49, which deals with the interaction between the DCO and Crown land, is therefore no longer needed.	[Article removed]	E
Schedule 1 – Authorised Development – Work No. 10C	Examining Authority	In response to queries from the Examining Authority's Third Written Questions, Q3.10.3, a new Work No. has been	(c) Work No. 10C— creation of permissive paths for the exclusive use of pedestrian, cycle and equestrian users comprising— (i) ramps, bridges and other means of access; (ii) fencing, gates, boundary treatment and other means of enclosure; (iii) signs, interpretation boards or any other information display board; and	E

In document Location	Request	Rationale	Change Made				Relevant Doc Version
		added to describe a permissive path which will permit use by cyclists. This reflects discussions with landowners and the preference to keep a number of permissive paths for the use of horse riders and pedestrians only.	(iv) landscaping and biodiversity mitigation and enhancement measures including planting.				
Schedule 2 – Requirement s – Requirement 2(3)	Applicant, North Northamptonshire Council	Amendment agreed during Issue Specific Hearing 6 (ISH6).	(3) The written scheme submitted pursuant to sub-paragraph (2) must include a timetable for the construction of the phase or phases of the authorised development and a plan identifying the phasing area areas .				E
