To whom it may concern, this solar facility is taking up good agricultural land, in a world where we are struggling to feed the Nation you planning to let this happen. The carbon footprint is a bit of a waste of time, and the prospect of flooding in the area is also a concern to the village of Lavendon which floods on a yearly basis, surely it is common sense that this should never happen. Put solar panels on every New Build Houses and the problem is solved common sense again. Norman Kitchener life resident of Lavendon.
