Sent from my iPhone dear sir/ madam please please do not let this solar farm go ahead there are so many reasons why it should not and no good reason why it should it will devastate our countryside and wild life , with all the problems in this world we don't need this to happen I have lived here for over 20 years and I am sure it will spoil the way I live here , I speak for the ten people that live on our farm that have asked me to compile this message so please through this out now so the people of Northamptonshire can sleep at night not worrying about solar farms that are increasingly becoming old hat (wrong) thanks the Pancoust /Ward family
