Subject: Fw: Invitation to comment from [REDACTED]

You don't often get email from [REDACTED]
[REDACTED]

Dear Sir/Madam,

I don't know if this is the sort of further information/comment you are looking for following the Secretary of State's invitation to comment.

As a property that will be surrounded by solar panels if this application is given the go-ahead, we are very concerned about the risk of fire, especially as we are being told that temperatures are increasing due to global warming. If there is a fire, we would be surrounded by acrid smoke, and it would be very difficult to extinguish.

Even without a fire, with global warming, we are concerned about how much additional heat we will be exposed to due to the panels.

This is in addition to other concerns that we have previously raised.

We are continually being sent letters saying that you don't have our email address but we are also receiving emails from you.

Kind Regards

Christine Lennon
