Dear Ms Evans

THE KEADBY NEXT GENERATION POWER STATION PROJECT – LAND AT AND WITHIN THE VICINITY OF THE KEADBY POWER STATION SITE, TRENTSIDE, KEADBY, SCUNTHORPE, LINCOLNSHIRE

I write on behalf of SSE Thermal in relation to the above project previously known as The Keadby Hydrogen Power Station project. This letter is formal notification that the project has been renamed **The Keadby Next Generation Power Station Project**. This new name better reflects the station's flexible operating model, which enables it to run on 100% hydrogen, natural gas, or blends of both. The name also aligns with the next generation of power stations across the SSE Thermal fleet.

The Applicant at the Scoping Stage was SSE Hydrogen Developments Limited. A related project company is currently being set up to be in place before the public consultation, with the Applicant name better aligned to the new Project Name.

Please also be aware that the public consultation scheduled to begin on 24 October 2024 has been postponed until January 2025. The Programme Document on the project website has been updated accordingly.

We would be grateful if these changes could be reflected in PINS' project email address and online records.

Please do not hesitate to contact me or my colleague Nathan Cheung ([REDACTED] [@dwd-ltd.co.uk](mailto:[REDACTED]@dwd-ltd.co.uk)) if you have any queries.

Yours sincerely,

[REDACTED]

Stephen Rose
Associate Director
DWD on behalf of SSE Thermal Limited
